DAILY SELECTIONS FOR GUARDIAN READERS

Furnished by W. S. Louson.

'Shall never die.' Wonderful words to be spoken beside the grave at which weeping friends are gathered. The family bond has been broken, and that from which the spirit has fled is given back to the earth that it may return to its kindred, dust. But He who speaks is the Lord of life and death; His own heart is pierced with the sorrow, and He weeps with those who mourn, but in His infinite love He draws aside the veil and revels the great mystery of life, "Whosoever liveth and believeth in me shall never die.' We are living in the lower sphere; we are bounded by the limitations which belongs to it. Jesus reveals to us the true nature of both life and death. Life is not limited and bounded by death; it belongs to the eternal years. Death is not the master of man, commanding him back into the grave and into the darkness and silence of the unseen, into which hope peers with dim and clouded eyes. The Lord of life stands by the grave and declares that in Him, there is immortality. He is the life and whosoever believes in Him receives from Him of His own immortal nature. Over this death has no power. It cannot dissolve the relation of the soul to Christ. Its mission is simply to remove the limitations on life, to crumble into dust that which for a time served as a dwelling place for the spirit, and gave it freedom to enter into the fulness of life with God. 'Whosoever liveth and believeth in Me shall never die'; and He who spoke the words, to seal the truth, called back the spirit to its earthly tenement for a little longer that joy might fill the home and give faith the victory, and later Himself went under the power of death and then burst the bonds of the grave, giving to the believer the sure pledge that he shall never die.—Selected.

AUTOMOBILE VICTIMS.

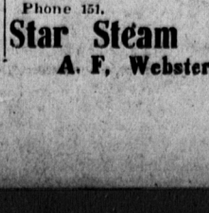
The list of dead and wounded from contact with automobiles in the streets of our cities grows with sickening steadiness. Within the last few days Toronto has had no less than three fatal accidents, when pedestrians were struck down and fatally injured by rapidly driven autos. In one case the police-magistrate positively refused bail for the wealthy owner of an auto which had stricken down a child, although the autoist had, after the accident, done everything in his power to repair the damage which had been done. But what is Canada going to do about it? In the last eleven months, on the highways of Massachusetts, no less than 1,557 men were run down by autos, and 100 of them were killed. We do not know what Ontario's record is, but it is all too heavy. The Massachusetts board of highway commissioners decided that the pedestrians in that state were too careless, but we venture to say they will soon see reason to assign blame elsewhere. Can we afford to tolerate such man-maiming and man-killing machines upon our streets and highways? Where is the gain of it? The automobile cannot be defended as a public necessity. It exists simply as a means of rapid locomotion which is available largely by those who really could do just as well without it. We are told that it is impossible to run high-power autos at slow speed, and it seems to follow from this that the awful slaughter of children and adults must go on unchecked. If that be the case, then we think the sooner the auto is legislated off our public highways the better it will be for our citizens. The country which places the gratification of a rich man's whim above the preservation of a poor man's life itself deserves to die.—Christian Guardian.

BEWARE Young Man

It's The Little Dandruff Germs That are Causing Your Hair to Thin Out.

Parisian Sage Stops Falling Hair

The clever young man of today doesn't take any chances on losing his hair. A man who is bald-headed at 30 looks like 45, and is placed at a disadvantage when seeking employment.



If you have dandruff it means down near the roots of your hair an army of dandruff germs are attacking the hair root and destroying its vitality.

Then hair falls out; grows thin and baldness results. Young man, put your faith in PARISIAN SAGE, it will stop falling hair, kill dandruff germs, abolish dandruff and itching scalp, or money back.

PARISIAN SAGE is only 50 cents a bottle at Geo. E. Hughes' and dealers everywhere.

HOW TO GROW HAIR

It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long-looked-for article is proven every day.

This preparation is called SALVIA and is being sold with a guarantee to cure Dandruff and to grow hair in abundance. Being daintily perfumed, SALVIA makes a most pleasant hair dressing. Geo. E. Hughes, your druggist, is the first to import this preparation into Charlottetown and a large, generous bottle, can be procured for 50c.

"Use Wondershine for your silver and gold. It makes a splendid job of cleaning it; no rubbing required. Money refunded if not satisfactory. 25c. package. E. A. Foster, Central Drugstore, Sunnyside. 4-4d3i.

MILK AND MEAT INSPECTION.

(Continued from page two.)

tuberculosis cow, or cow otherwise diseased or emaciated or milk from a herd, any number of which is tuberculous, diseases or emaciated.

Section 13. No License shall be issued and if issued the license shall be immediately suspended in any case where the Inspector finds the herd or any number of the herd from which said milk is obtained to show visible symptons of tuberculosis, or any other disease.

Sir,—Above is a copy of Milk Inspection bye-law, which is strictly enforced in Summerside and also extracts from bye-law authorized by the late Charlottetown City Council and which it is understood will go into force on 1st of May next. This bye-law which in many respects is a good one, will give us as one of our medical doctors states "clean milk." It however does not provide for a tuberculin test until "visible symptons of the disease are present. This according to the opinion of those who ought to know is a poor guarantee of our being provided with milk free from disease, and is in strong contrast to the short and pointed bye-law enforced in Summerside.

If shortage of funds is the claim put forward for not giving us up-to-date law on this most important matter,—the public health,—then let our City Fathers put a small additional tax on which will be sufficient for the purpose. If a small additional tax, will give us proper Meat and Milk inspection and make it possible to give our school teachers a living wage. Then tax us!

There are no matters which confront us as citizens today more important than prevention of disease and the proper education of our children, save perhaps national defence.

Yours Truly,
CITIZEN.
