EASTERN GUARDIAN

"A FINE BABY GIRL was born to Mr. and Mrs. James Malhard, Clear Springs, last week."

"DURING THE BALANCE of June we offer exceptional values in dry goods, clothing, boots and shoes, etc.—McLeod and McGregor, Montague. 9753

"MOTOR PEDDLING WAGON Mr. Donald Keys, Priest Pond, has secured a motor peddling wagon for his egg trade amongst the farmers in exchange for goods."

"LOBSTER FISHING along the North Shore is slack. The fish are apparently exhausted. At one factory the entire catch of nine boats, Friday, was 200 lbs. They haul now only every second day."

"FARMING OPERATIONS for the season have about closed. The weather for working the land never was so favorable, as there was scarcely a single day since cropping began, to prevent plowing or cultivating; all too fine and dry the weather was, as a result there are complaints that grain has failed to germinate in many cases."

POINTED PARAGRAPHS

Law's delay is the lawyer's meal ticket.

No man with a torpid liver can be a successful optimist.

Logic proves or disproves all things—but it accomplishes nothing.

Sometimes a man lies when he smiles and says nothing.

If all donkeys had long ears it would be necessary to change the style of masculine headgear.

Society people make as much fuss about getting married as theatrical people do about getting a divorce.

WILSON'S FLY PADS

Kill them all, and the germs too. 10c a packet at Drug-gists, Grocers and General Stores.

DICKY DIPPYS DIARY

WEDNESDAY:—HAD AN AWFUL PAIN IN MY NECK, AND RUSHED TO THE DOCTOR.

HE EXAMINED ME, AND SAID: "GREAT SCOTT! I MUST OPERATE ON YOU. IT'LL ONLY COST YOU \$500."

"BUT DOC!" I CRIED, "I HAVEN'T A CENT!"

CANADIAN FINANCIER WHO ENGINEERED HALF BILLION DOLLAR STEEL MERGER

Colonel Grant Morden.

The largest merger of its kind in the history of the British Empire was engineered by Colonel Grant Morden, the Montreal financier, when he succeeded in combining nine steel, coal and transportation companies as the British Empire Steel Corporation with a capital of \$500,000,000. It is second only to the United States Steel Corporation. The merger brings into one organization steel and coal companies, railways, shipyards and repair yards.

VIRGINIAN WHO IS HEAD OF CONGRESSIONAL CAMPAIGN COMMITTEE FOR DEMOCRATS

Representative Henry D. Flood

This photograph of Representative Henry D. Flood, of Virginia, was taken in Washington since his election as chairman of the Democratic Congressional Campaign Committee. He has represented the Tenth District, in which is located Staunton, President Wilson's birthplace, for twenty years without a break. During the war Representative Flood was chairman of the House Committee on Foreign Affairs. He is regarded as a likely possibility for the nomination for governor of Virginia.

SOWING GARDEN BEANS

Beans are an important truck crop—Garden beans are one of the most important truck crops and practically every farmer should grow a patch for sale or for home consumption, according to his location. Being a leguminous plant, this vegetable stores in the soil nitrogen gathered from the air, and the cultural methods generally given to it leaves the ground in splendid shape for the following crop. The consumer also has great advantages in buying them as they are a delicacy, they may easily be canned and are considered a very healthful food indeed. One or more varieties—To be profitable and palatable, garden beans should be eaten when the pods are well grown but still green, and this period only lasts during about a week of the plant's life. This is why a succession of sowings is generally made by persons who desire to have this fine vegetable on their table for any length

HAS NO PAIN NOW

What Lydia E. Pinkham's Vegetable Compound Did for Mrs. Peasey of London

London, Ont.—"I suffered with periodic pains, was weak and run down, could not eat and had headaches. The worst symptoms were dragging down pains so bad I sometimes thought I would go crazy and I seemed to be smothering. I was in this condition for two or three years and could not seem to work. I tried all kinds of remedies and had been treated by physicians but received no benefit. I found one of your booklets and felt inclined to try Lydia E. Pinkham's Vegetable Compound. I received the best results from it, and now I keep house and go out to work and am like a new woman. I have recommended your Vegetable Compound to my friends, and if these facts will help some poor woman use them as you please."—Mrs. J. F. Peasey, 209 Record Street, London, Ont.

The reason women write such letters to the Lydia Pinkham's Medicine Co. and tell their friends how they are helped is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives. Free from their illness they want to pass the good news along to other suffering women that they also may be relieved.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

Miller's Worm Powders are a pleasant remedy for worm-infested children, and they will take it without objection. When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these infernal pests.

of time. It was suggested that a number of varieties of different seasons, put in the same day, might do as well and this prompted an experiment at Cap Rouge.

The Cap Rouge Experiment—The object was to compare the yield of green pods from one variety, sown at four different intervals of about a week, with that of four varieties of different seasons the same day. The result of five years showed that Round Pod Kidney Wax, sown at four different intervals, yielded at the rate of 3138 quarts of green pods per acre, whilst Round Kidney Wax, Stringless Green Pod, Early Red Valentine, Refugee, sown the same day yielded at the rate of 2288 quarts per acre.

One Variety Generally Enough—The difference between the two methods was only around five per cent which is practically negligible, and it seems that either will about give the same results. Persons who would rather make only one sowing, and be done with it, will have, of course, to choose varieties of different seasons whilst others who prefer to sow at intervals of a week or ten days, should take an early variety, such as Round Pod Kidney or Pencil Pod Wax, so as to get the first edible pods as soon as possible.

Save your own seed.—Probably the latter way is preferable as ripe beans can be gathered from strong healthy plants each year, for the next, which not only means a saving of money, but which is quite important, one is thus sure of getting seed of good vitality and of the right strain. G. A. Langelier, Superintendent Experimental Station, Cap Rouge, Que.

RHEUMATIC PAIN

Rub Away The Soreness With "ABSORBINE JR."

"ABSORBINE JR." penetrates deeply into the affected parts—sets up free circulation—relieves the pressure on the nerves—and gives wonderful relief in a short time. "ABSORBINE JR." is so highly concentrated that just a few drops, rubbed in thoroughly, does more good than a pint of the ordinary greasy, ill-smelling washes.

If you suffer with Rheumatism, Sciatica, Lumbago, Stiff or Swollen Joints, Lameness, Sprains or Bruises, rub with "ABSORBINE JR."—the great family liniment and home treatment. \$1.25 a bottle—at most druggists or sent postpaid by W. F. YOUNG, INC., Lyman Building, Montreal.

PROMINENT WORKERS FOR THE AMERICAN WOMEN'S LEAGION WHO WERE ELECTED OFFICERS AT THE FIRST NATIONAL CONVENTION

This photograph taken during the first national convention of the American Women's Legion, shows a group of prominent workers for the organization. Each was elected or honorary vice president; Mrs. W. M. Baker, wife of Byrd Mock, founder of the Legion Secretary of War Newton D. Baker treasurer.
