

ENGLAND.

There are but few fathers who have not at one time or another wondered what it would cost them to put their sons into some profession. The exact figures naturally vary with individual tastes. To become a qualified doctor it may cost anything between £700 and £1,200—say, £950 in round figures. This is made up of about £150 for lecture fees and hospital work as a perpetual student; maintenance, books, clothing, etc., at £100 a year for five years. The second most expensive calling perhaps is that of a barrister, the cost being, say, £100 for joining one of the Inns of court; fee for reading in chambers. Perhaps £800 may be given as the total expenses. To become a clergyman entails an outlay of about £775. Three or four years at Oxford or Cambridge would cost about £100 per annum, and there are some incidentals extra. Fees for ordination would be £10. The expenses of an army candidate vary. The cost of coaching may be anything between £100 and £400 a year. At Sandhurst, on joining, the outfit would come about £35. There would be also £2 for military instruments, and £2,10s. for personal expenses. Messing expenses would be about 3s. a month. Woolwich is perhaps cheaper than Sandhurst, but in round figures, not less than £800 should be reckoned as the cost of obtaining a commission in the army. For an embryo officer of marines the expenses may be put at £400. Embryo solicitors would have to pay about £200 for the premium for being articled. The three examinations cost £10 and the admission fee £30. Altogether £230 may be given as a fair average total cost.—London Mail.

PAIN IN THE BACK.

Makes life miserable for many. Can be cured! Yes in a night. Nervilene gives a complete knockout to pain in the back because it is stronger, more penetrating, more highly pain-subduing than any other remedy extant. One drop of Nervilene has more power over pain than five drops of any other remedy and it is the strength you want when you've got a pain. Your money back if it is not so. Druggists sell Nervilene.

IT'S EASY TO CATCH

A cold and it's easy to cure one if taken in time and treated with the right remedy. It is no trifling matter, though, if neglected. Pneumonia, Consumption and numerous other ills are the consequence of neglected colds. At the first symptom of a cough or cold take

PARK'S PERFECT EMULSION

of Cod Liver Oil, a scientifically prepared and thoroughly reliable combination of Pure Cod Liver Oil, Hypophosphites of Lime and Soda, with Gaiacol; perfectly emulsified so as to render it easy of assimilation and beneficial in action. Are made from the VERY FINEST QUALITY of calves-foot gelatine that money can buy. Two different dishes can be made with it. It is both tasty and nutritious, and the cost is next to nothing. Try it served with whipped cream. ALL PURE GOLD GOODS have the highest at retail prices excellence.

BOSTON LETTER

McKinley's Big Vote in the Electoral College.

BOWLING IN; GOLF OUT.

Hub Canadians Wait Up for Dominion Returns—An Islander Beaten.

BOSTON, Mass., Nov. 13, 1900.—A week ago to-day Bryan and the Democratic hosts went down in inglorious defeat, as no doubt all of your readers are aware. While Bryan gained a good number in popular vote in the east and middle states he lost greatly in the far west. McKinley carried all the States he did in 1896, with the addition of Washington, Utah, Kansas, Wyoming, South Dakota, Nebraska, and a contest on for Kentucky, which is claimed by both parties, and which McKinley carried four years ago. The latest figures are: Total number of votes 447. McKinley has 292; Bryan, 142; doubtful, 13. In popular vote McKinley will have some 700,000 plurality, a gain over 1896. It is difficult to tell just "how it happened" but no doubt the general prosperity of the country had considerable to do with the result. Again Croker's patronage of Bryan on the occasion of his visits to New York disgusted a great many people. Then, too, it is said that the pro-Boer plank in the Democratic platform cast that party a great many "down home" and other Canadian votes, as well as turning away a great many who have come here from England's shores. Bryan's defeat must be gratifying to nearly all British-Americans, for the aforesaid plank was apparently put there at the solicitation of the Irish element in the party; but as a vote-getter it availed little. Although I see by to-day's despatches that Bryan "will keep up the fight" until 1904, the chances are that when that date shall roll around we will see a brand new set of candidates, for of course McKinley will step down and out for there is an unwritten law that a man can have but eight years in the highest office in the gift of the people.

Last Wednesday evening there was much interest manifested among former Canadians over the result of the Dominion Elections. A number of the members of the Canadian Club had a parlor engaged at Young's Hotel, and then waited late getting the returns. Another party had rooms at the United States Hotel for the express purpose of getting the returns. All of the morning papers the following day had good reports of the Liberal victory, several of them illustrating the text with cuts of Laurier and Tupper.

Temple A. Winslow, a former resident of Morell, P. E. I., and last year a representative to the local legislature of this State, was defeated for re-election in Ward 21, in Tuesday's election. Golf, the most popular all-summer outdoor sport, is about done for the season, although there are some devotees of the ancient Scotch game who will go over the links whenever opportunity offers all winter. This form of exercise has taken a great hold on the Americans of both sexes and at all stations during the last few years, and now there are dozen of clubs in all parts of the country, and some of the others outdoor sports, such as tennis, bicycling, etc., have suffered considerably thereby.

With the windup of the outdoor athletic season comes the beginning of the indoor amusements, and one of the most popular in an athletic way is no doubt bowling. It has now held the first position

Nervous Debility.

A sufferer from Weak Blood and Exhausted Nerves Tells of His Cure by Using Dr. Chase's Nerve Food. Mr. A. T. P. Lalame, railway agent at Clarenceville, Que., writes:—"For twelve years I have been run down with nervous debility. I suffered much, and consulted doctors, and used medicines in vain. Some months ago I heard of Dr. Chase's Nerve Food, used two boxes, and my health improved so rapidly that I ordered twelve more. I can say, frankly, that this treatment has no equal in the medical world. While using Dr. Chase's Nerve Food I could feel my system being built up until now I am strong and healthy. I cannot recommend it too highly for weak, nervous people." Dr. Chase's Nerve Food is a tonic and restorative of inestimable worth. It makes the blood rich, the nerves strong, increases the weight, and cures all weaknesses and diseases of the nerves and blood. In pill form, 50 cents a box, at all dealers, or Edmanross, Bang & Co., Toronto.

PLOUGHED AMONG CORPSES

Horrible Scenes on the Amur as a Result of Russian Barbarity.

LONDON, Nov. 14.—The Globe this afternoon publishes a letter from a Belgian gentleman who has been travelling to Peking via the trans-Siberian railroad. He describes under date of Sept. 6 what he saw in the Amur river. His account surpasses in horror those previously published. "The scenes I have witnessed during the three days since the steamer left Blagovetchensk," he says, "are horrible beyond the powers of description. It is the closing tableau of a fearful human tragedy. Two thousand were deliberately drowned at Morok, 2000 at Rabe, and 8000 around Blagovetchensk, among whom were thousands of women and children. So many bodies encumbered the river that navigation was all but impossible. Last week a boat had to plough her

way through a tangled and mangled mass of corpses lashed together by their long hair. The banks were literally covered with corpses. "In the curves of the stream were dark, putrid, smelling masses of human flesh and bone, surging and swaying in the steamer's wake and wash. The captain vainly ordered full speed ahead. The sight and smell will be ever with us. "From Blagovetchensk to Aigun, 45 kilometers, numerous villages studded the bank, with a thriving, industrious population of over 100,000. That of Aigun was 20,000. No one will ever know the number of those who perished by shot, sword and stream. Not a village is left. The silence of death was around us. The smoking ruins of Aigunon the right, with broken down, crumbling walls and shattered roofless houses."

HARD DRINKERS.

We are treating and curing more patients than any other drink cure in the world. This is because we treat our patients at their home, saving the time, expense and publicity of an institute treatment; because we use no hypodermic injections with their bad effects, but use the healthy tonic; because we not only antidote the drink craving, but cure the diseased conditions arising from the use of intoxicants. "By our system of correspondence each patient receives individual care and instructions. We have received the highest and best endorsement of any cure in the world from leaders among men, whose commendation the whole world could not buy. Particulars and treatise of Alcoholism sent free on application in plain sealed envelope. Address, Mr. Dixon, 81 Willocke street, Toronto, Ont.

FIFTY PER CENT.

The Fife Coal Company have declared an interim dividend for one half year at the rate of 50 per cent per annum. . . . The price of coal is still rising.—Daily paper. Cold is the desolate hearth—the hearth that no longer is blest With the light of the life-giving blaze, and the smoke in its eddying rings— Where Poverty clutches her whimpering babe to her lean, dry breast, Croons as she covers from the blast, and this is the song she sings:

Hush my little one, hush! Art hungry and cold and ill!

The poor man's nurse is hunger, and the cold is his cradle still; For this is the law of the land, and thou must learn to endure— Fifty per cent for the rich—hunger and cold for the poor.

Art thou alone in thy sorrow that thou alone shouldst wail? Do not thy famishing brothers hunger and faint and fall? Do not thy perishing sisters wither from want and care!

Thou, too, must bear the burden that they have learned to bear. Little one, great are the rich, but we are of commoner hue; What are the lives of the many compared with the shares of the few. It is not theirs to enjoy, ours to be dumb and endure? Fifty per cent to the rich—hunger and cold for the poor.—London Fun.

TWENTY YEARS STANDING.

Trouble of a Norwich Farmer who was Relieved by Dodd's Kidney Pills. NORWICH, Nov. 12.—For twenty years Mr. Wilbert Woodward, of Willow Dell has suffered with backache. He grew so bad that he was confined to his bed 10 days out of a week. His farm suffered for the lack of the eye of its master and Mr. Woodward made every effort to find a cure for his trouble. He says, "I tried everything I ever heard of but no cure. Last fall heard about Dodd's Kidney Pills and I bought three boxes of them from Mr. Bannon of Norwich. I am happy to say they have done me more good than all the other medicines put together that I got from the doctor. My wife takes Dodd's Kidney Pills also for lame back and rheumatism and finds them grand. I hope any person suffering as we did will try these remedies. I would willingly pay two dollars a box rather than be without Dodd's Kidney Pills in the house."

MORE MEN REQUIRED IN SYDNEY.

It is roughly estimated that the Dominion Coal Company will next year require 2500 more men than are now employed in their mines. Pains or aches won't stay where Griffiths Menthol Liniment is used. Try it for Rheumatism, Lumbago, Neuralgia or any soreness, Swelling or Inflammation.

OCTOBER COAL OUTPUT.

SYDNEY, NOV. 9.—The output of the Dominion Coal Co's collieries for October amounted to 109,331 tons, divided as follows: Dominion No. 1, 52,122; Dominion No. 2, 12,162; Dominion No. 3, 5,170; Caledonia, 30,302; Reserve, 59,049; International, 20,496. Total shipments for October, 189,542, being an increase over October of last year of 4,822 tons. Increase for ten months, from last January, 367, 698 tons over same period of 1899.

Shirts \$1. Shirts

New Ties

Just opened a new lot of Ties, Four-in-hands, Bows, Imperials and all the leading styles. See that you get one Your old one is looking sort of shabby and no shame for it, you bought it here so long ago. Wall Street isn't in it, as an investment compared with our line of Men's Ties.

PROWSE BROS., The Stylish Furnishers.

SAME AS IF NOTHING HAD HAPPENED.

I was stared when I heard all the bluster and noise. The speeches of men and the shouting of boys. I believed that my country was right on the brink Of disaster. The thought made me shudder and shrink, And after election I looked with dismay Expecting to see the whole land swept away. But the sun shone on leaves brightly touched by the fall. The same as if nothing had happened at all. And the factory whistle blew joyous and shrill To welcome the daylight that looked o'er the hill. And humanity hurried through street and through lane To answer a summons to duty again, Men wept in their sorrow and laughed in their glee, 'Twas the steady old world I was custom'd to see. With hope blooming gay for the great and the small The same as if nothing had happened at all —Washington Star

YERKES' ENGLISH SCHEMES.

LONDON, Nov. 14.—"Charles T. Yerkes," says the Daily Express, "has a scheme to radiate electric railways for long distances north of London and to build low rent dwellings for workmen in order to remedy overcrowding. He is also interested in the mooted scheme of a ship canal between Southampton and London."

ORDERED TO LEAVE FRANCE.

PARIS, November 13.—Caesar Delta Croce, who was naturalized in New York in 1893 has been ordered to leave France within 24 hours or to be imprisoned. Croce was seen by a representative of the Associated Press and he said the reasons for his expulsion were political.

SOLDIERS IN CAMP

Ex-Sergeant William Johnston of the 10th Royal Grenadiers, Toronto, writes:—"It is impossible for me to speak too highly of Dr. Chase's Ointment for piles or any itching skin disease. It is simply invaluable. Many of our men used it while in camp and received excellent results." Members of the Canadian contingents took 100 boxes of Dr. Chase's Ointment with them to South Africa to relieve the sufferings of campaigning life.

Come to our great slaughter sale when you want the worth of our money and the right change back. We keep everything a great requires. It all must go at the great slaughter sale. R. H. Ramsay & Co.
