### TO MOUNT AUTO TIRES

Screw Device Compresses Edges Till They Squeeze Into Rim

As any motorist will testify, a man should have the fingers of a blacksmith to put the average tire on a wheel. A Western man has designed the following means of mounting tires: An outer casing with a filler of yielding material sets in a heading that forces its edges together and com-

INSURES A FIRM TIRE

presses the filler. To compress these edges still farther than it would be possible to do by hand, even by a strong man, there is a small clamping device with a screw that tightens it up. In this way the lower edges of the tire can be compressed to a point where they will slide into the wheel-rim and the tire will be much firmer than it otherwise would be; or rather, a tire so firm that it could not be adjusted by hand can be put on in this manner.

### MOTHERHOOD SUGGESTIONS

#### Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism. In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

### NEW FISHING LAWS

White Men to Have Chance to Compete Against Japs on Coast

An important change in the fishery regulations of British Columbia decided upon by the Dominion Government, has for its purpose the building up of a white fishing community on the Pacific Coast. In the past Japanese fishermen have almost wholly ousted white men from the industry. Hitherto a given number of boats were allowed to operate in each fishing area and these have been assigned to the different canneries, the arrangement dating from a time when there were practically no resident fishermen in the several districts, so that the canners had to find fishermen and convey them to the different fishing areas. This arrangement in practice worked out into the employment of Japanese. Conditions have changed and it now is expected that under suitable regulations white fishermen will settle permanently in the region affected. The course decided upon was:

- To apply the boat rating to the water areas and not to the canneries.
- To issue the licenses hereafter for the fiscal year, beginning with April 1.
- To reserve until March 15 each year as many licenses in each area as there is reason to expect will be applied for by bona fide white fishermen, owning their own boats and gear, and to assign the remaining boats allowed to the existing canneries, pro rata the present boat rating.

### ROMANTIC DAYS PAST

Wrong Ideas Engendered in Minds of Youthful Wood-borne Canadians

Sir Robert Baden-Powell inspected a Boy Republic at Wadhurst, in Sussex, where a lot of Boy Scouts are studying farming with a view to coming to Canada. On the occasion of his visit the boys elected a mayor, gave an exhibition of scouting work, and a Wild West performance. It is to be feared that a dime novel idea of Canada is being encouraged in these young fellows, and that some disappointments are in store for them. There is no such scouting to be done out here nowadays: by young fellows on the farms. Beyond the occasional necessity for tracing a stray steer along a side line or Sherlock Holmesing along a fence to find a hole that the dog got through, there is not much doing in that line, and usually the farmer does it himself and leaves the youthful hired man to milk cows or chop feed.

All these romantic ideas and circus stunts may help in inducing boys to come to Canada, but it cannot be a good thing for Canada to land here a lot of young fellows who are going to be disappointed in every experience they encounter. There are fine openings in Canada for young men. But this is no fairland, no land of romance. It is a country where everybody works as people work scarcely anywhere else in the world.—Toronto Star.

### Be a Weather Sharp

The following formula of weather signs has been found to give satisfaction:

1. When the temperature falls suddenly there is a storm forming south of you.
2. When the temperature rises suddenly there is a storm forming north of you.
3. The wind always blows from a region of fair weather towards a point where a storm is forming.
4. Cirrus clouds always move from a region where a storm is in progress to one of fair weather.
5. Cumulus clouds always come from a region where a storm is forming.
6. When cirrus clouds are moving rapidly from the north or northeast, no matter how cold it is there will be rain within twenty-four hours.
7. When cirrus clouds are moving rapidly from south to southeast there will be a hailstorm on the morrow, if it be in the summer, and if it be in the winter there will be snow.
8. The wind always blows about a storm in a circle, when it blows from the north, the heaviest rain is east of you; if it blows from the south the heaviest rain is west of you; if it blows from the east, the heaviest rain is south.
9. The wind never blows, even moderately, unless rain or snow is falling within a radius of 1000 miles.
10. Whenever heavy white frost occurs a storm is forming within 1000 miles north or northwest of you.

### Household Economy

How to Have the Best Cough Syrup and Save \$2, by Making It at Home.

Cough medicines, as a rule, contain a large quantity of plain syrup. If you take two cups of granulated sugar, add one cup of warm water and stir about 2 minutes, you have as good syrup as money could buy. If you will then put 2 1/2 ounces of Pinex (50 cents worth) in a 16-ounce bottle, and fill it up with the Sugar Syrup, you will have as much cough syrup as you could buy ready made for \$2.50. It keeps perfectly. Any housewife can easily prepare it in five minutes. And you will find it the best cough syrup you ever used—even in whooping cough. You can feel it take hold—usually stops the most severe cough in 24 hours. It is just laxative enough, has a good tonic effect, and taste is pleasant. Take a teaspoonful every one, two or three hours. It is a splendid remedy, too, for whooping cough, croup, hoarseness, asthma, chest pains, etc. Pinex is the most valuable concentrated compound of Norway white pine extract, rich in gualacal and all the healing elements. No other preparation will work in this formula. This recipe for making cough remedy with Pinex and Sugar Syrup is now used and prized in thousands of homes in the United States and Canada. The plan has often been imitated, but never successfully. A quantity of absolute satisfaction or money promptly refunded goes with this recipe. If the genuine Pinex is used, your druggist has Pinex, or will get it for you, if you ask him. If not, send to The Pinex Co., Toronto, Ont.
