### RHEUMATISM IS A CONSTITUTIONAL DISEASE.

The pain and localized conditions are more results of constitutional conditions. Poisoned blood sends its evil influence to various parts of the body, and to cure permanently you must treat its constitutionally. Nothing so completely dispels these poisons from the system as Ferruzone. It makes new blood. It imparts vitality and vigor, enabling the system to throw off the poisons that engender rheumatism. Ferruzone also fortifies the system against the weakening effects of rheumatism, and cures, not simply relieves as most medicines do. Sold by all druggists.
