MARKET BULLETIN

(Received over Woods- Reade and Company Special Wire)

MORNING MARKET LETTER

NEW YORK, May 26—The failure of the market to develop a better upside following in several mild rallying tendencies during the day apparently influenced some selling in the last hour. The gains registered in the six proceeding sessions were large enough in the aggregate to weaken the technical position of the market somewhat so that a moderate setback at this juncture would not be illogical. However, we are inclined to think that the recent lows will hold and that after some irregularity the uptrend will be resumed. The metal division acted particularly well yesterday and apparently could show considerable buoyancy in a better general market. The oil group also displayed firmness. One interesting aspect of the Oil situation is the indication of a favorable position for the refining division over the next few months. A record demand for gasoline should promote a firm price structure for that product while supplies of crude evidently are plentiful enough to insure the refiners against any sharp advance in crude costs.

Laidlaw and Co.

SUMMARY

Wesson Oil and Snowdrift Co. declared extra dividend of $1.12 1-2 and regular quarterly of 12 1-2 on common. On April 1st an extra of 50 cents was paid.

Union Carbide and Carbon Corp. declared a dividend of 80 cents payable July 1st record June 4, a similar amount was paid on April and Jan. 1.

U. S. Steel Corp declares dividend of $2 on Preferred on account of arrears.

Pennsylvania Railroad net operating income $6,097,230 vs. $7,742,-220 in April 1936.

New York Central April net operating income $4,205,629 vs. $3,-391,596 in April 1936.

American Pete Institute reports gasoline stocks down 551,000 barrels last week to 79,827,000 barrels. Refinery operations at 84.1 per cent were up 4.2 points over preceding week.

United Gas Corp. in March quarter net income equal after periods dividend requirements on Preferreds "in arrears" to 27 cents a common share vs. 21 cents on common in March 1936 quarter.

National Power and Light Co. and subs in 3 months to Feb. 28 net income equal to 38 cents a common share vs. 36 cents in 3 months ended Feb. 29, 1936.

Iron Age reports seasonal influences are more plainly at work in steel demands with production rate this week slightly lower at 91 percent vs. 92 per cent last week. Consumption still holding strongly except in auto industry where approaching changes to 1938 models is bringing production of 1937 model parts to an end. About 1200 workers vote to strike at Ford Assembly Plant at Richmond, Calif. The U. A. W. assigning pickets to plant and others to San Francisco plant. Strike closes 6 republic steel plants in Canton Massillon District.

NOON COMMENT

Prices have fluctuated within a narrow range this morning and it is difficult to interpret the action in any division as significant. The most encouraging feature is that the reactionary tendencies of the last hour yesterday did not carry over into the opening this morning. The metal group shows the most buoyancy and such issues as Anaconda, Kennecott, American Smelting and Phelps Dodge apparently could advance easily in a more aggressive market. Bridgeport Brass is an interesting low priced copper fabricating issue which has displayed firmness over the past few days and which appears reasonably priced on earnings. Attention has been called to the prospect of a more favorable position developing for the Oil Refining Companies due to the large demand for gasoline and a plentiful supply of crude. Such Companies as Standard of Indiana, Socony Vacuum, Atlantic Refining. Pure Oil and Continental Oil which are buyers of Crude oil on balance should benefit from any firming of gas line prices.

Grain

(C.P. by Guardian's Special Wire)

WINNIPEG, May 26—Strong undertone predominated on the Winnipeg grain exchange at the close today after wheat futures recovered from mid-session setbacks. Revival of export buying, estimated at 2,000,000 bushels, led to a steady upward movement from a cent under yesterday's close.

Despite varying weather reports and southern selling, values finished 1 1-4 to 3-4 cent higher with May at $1.30, July $1.28 3-4 to 7-8, and October $1.19 1-4.

United Kingdom was credited with taking the bulk of the Canadian wheat with minor amounts moving to Spain and other continental countries. Export buying extended into coarse grains where May rye at one time sold 4 5-8 cents higher but held only part of the gain.

Canadian competitive export prices were at their narrowest spread in months with No. two Canadian northern only 2 3-8 cts higher than Australian wheat.

Coarse grains were firm in light trading with barley, flax and rye futures closing with gains of more than a cent.

CHICAGO, May 26—(AP)—More than 4 cents a bushel tumble in the price of May wheat resulted late today from liquidating sales but May rye, May corn and May oats all scored high price records, May corn $1.40.

Interest centred in May futures contracts of the various grains this being the final day for May transactions, except for actual delivery of the grain. About 3,000,-000 bushels of May wheat remained today to be settled for.

Wheat closed 3 5-8 lower to 1 1-4 up, May 1.19 1-4 to 1.20, July 1.17 7-8 to 1.18, corn unchanged to 5 1-4 higher, May 1.39 1-4 to 1.40, July 1.21 1-4 to 3-8, and oats 1-8 off to 4 1-2 advanced.

Livestock

MONTREAL, May 26 — (CP) — Hog prices were up slightly on livestock markets at $11.45 for rail grade bacons, $8.80 graded off cars and $8.40 off trucks, with the usual $1 premium on selects and cuts on off grades.

Sows sold at $7.60 rail grade and $5.65 off cars. Cattle section held steady with steers up to $8 and butcher cows up to $5. Cutters went from $2.50 to $3.50 while canners made from $2.50 down. Bulls sold up to $4.

Prices were unestablished on calves, and sheep and lambs.

MINING

TORONTO, May 26—(CP)—Still coasting along on limited buying power the Toronto market was a dull affair through most of today's session. Final prices showed the golds were a little higher and miscellaneous mines down 1 1-2 points, mainly on weakness of the base metals.

Among the junior oils gains of a few cents each were boarded by Calgary-Edmonton, Okalta, Home and Highwood-Sarcee. Texas-Canadian declined 5 cents.

Depressed by lower London metal prices, the base metals slipped. Noranda dropped 1-2 and smaller losses were boarded for Hudson Bay, Pend Oreille, Waite-Amulet, Sherritt and Sudbury Basin. Falconbridge was quiet and unchanged.

Lake Shore, Dome, Macassa, MacLeod Cockshutt, Little Long Lac, Sylvanite and Teck Hughes posted substantial gains and a few cents each were added by East Malartic, God's Lake, Hard Rock, Read-Authierr, Siscoe and Slave Lake. Eldorado closed 5 cents down and the other silvers were quiet.

GOOD WILL

The most precious thing any one can have is the good will of others. It is an intangible something, this good will of others, yet more to be desired than much gold. It is the measure of a man's success and determines his usefulness in this life. —Exchange.
