Tar On Road Said To Cause Cancer

(Canadian Press) PARIS, June 10.—Do tarred roads cause cancer? City Councilor Jousseuil of Paris contends they do. Pointing to the greatly increased mortality from cancer in recent years, he observes that it is particularly prevalent among workers handling tar. For this reason he recently demanded that the tarring of roads should cease in the Department of the Seine. The Board of Health referred the question to Professor Vincent, an eminent physician, who admitted that tar products, especially when handled hot, appeared to cause cancer, but he hesitated to affirm that the dust from tarred roads had a like effect.

Postal Men Yet Undecided About Striking

(Canadian Press) TORONTO, June 10.—Although new salaries for better carriers and other postal workers are announced by the Dominion government last night mean decreases in some cases, with the withdrawal of the "war bonus" it will not be known till Sunday whether or not postal workers here will demand a strike. There will be a mass meeting of men Sunday to decide on action. Undoubtedly there is a feeling of disappointment among some gradings while in others there is manifestly an opinion that the new scale should be accepted for the present. Officials of various postal unions here decline to announce their intention to commit themselves to an opinion on the probable action of the men. One newspaper here intimates that the strike is quite possible, even probable, all over the Dominion.

MEIGHEN CRITICIZES ACTION OF THE KING GOVERNMENT

In Dealing With Lausanne Treaty—Premier Taken to Task For Making Public at Imperial Conference Matters of a Private Nature

(Canadian Press) OTTAWA, June 10.—Premier MacKenzie King made his expected statement on the correspondence passing between the British Government and the Dominion Government in regard to the Lausanne Treaty in the House of Commons this afternoon. The statement was made when the House was in committee of supply on estimates of the department of external affairs. A vote of \$111,665 for salaries and contingencies was under consideration. The Premier supported his position by citing a declaration by Sir Robert Borden that four conditions were involved in negotiation for treaties which affected Canada. These were (1) the direct representation of Canada in the negotiations; (2) signature by a representative of the Canadian Parliament; and (3) assent by the government of Canada to ratification by the King. Further Mr. King read from the correspondence in regard to the treaty a telegram dated December 31, 1922, in which the British Government was informed that Canada could not be expected to follow the procedure adopted in the case of the peace treaties. This telegram was despatched, he pointed out, before the Imperial Conference and if the British Government had any objection to the Canadian attitude that objection should have been stated at the conference. The Premier spoke of

three possible future developments in Canadian affairs. There might be complete independence, there might be annexation with the United States or there might be more clearly recognized nationhood within the commonwealth of the British Empire. It was because the Premier believed so strongly in the third of these three possible developments that he had been willing to risk in taking the stand of Canada as a nation with the empire having gained equality of status with the other dominions and the Mother Country. What was needed most of all was a United Canada that would have one aim and one purpose and find its unity within the British Empire.

The Grand Jury reported satisfactorily on the condition of Prince County Jail which they thought clean and orderly in the past. A number of absent debtor cases were disposed of and adjournment was made until 11 a.m. Wednesday. In his address to the Grand Jury, Mr. Justice Arsenault referred to the trying financial period through which the world is passing. No doubt this Province is having its own difficulties. The scarcity of money and the high prices for products has made the period a very trying one, yet we are better off here, not only in a great many parts of the United States as well. It is true that last year in the United States there was a constant demand for labor, but that demand has not continued and many of our people

32ND CONTEST FOR INTER- MARITIME RIFLE TROPHY

Will Be Held At Kensington Rifle Range Tomorrow, Starting at 10 a.m.—Nova Scotians and New Brunswickers Will Arrive To-night.

The Thirty Second contest for the Inter-Maritime Rifle Trophy will be held at Kensington Rifle Range, Charlottetown on Thursday the 12th. It will bring together picked teams of riflemen representing Nova Scotia, New Brunswick and Prince Edward Island and its outcome will be followed with great interest throughout the Maritimes. First instituted in 1886 thirty one contests have been held in which Nova Scotia proved the winner in fifteen, Prince Edward Island and New Brunswick accounting for eight each. During the years 1915 to 1921 inclusive there were no shoots. In 1922 and 1923 Nova Scotia won. P. E. Island accounted for the years 1896, 1899, 1900, 1908, 1910, 1911, 1913, 1914. In 1908 P. E. Island established the record for the score possible in 765 points. Changes in targets and the Service Rifle prevent the possibility of this score being equalled or exceeded. The rules call for teams of eight men from each province, these are selected usually by a series of shoots. Each team is allowed two coaches and the ranges shot are 200, 500 and 600 yards, two sighters and seven shots to count on each range. The individual score possible is 105 or 840 for the team. With the present rifle and targets a score of 725 to 730 is likely to carry off the silverware. In addition to the main silverware which goes to the successful team for one year, individual gold medals are given to each member of winning team. Prince Edward Island has a quota of riflemen compared to her big neighbors has been the winner or runner up in every contest since 1908 and is confidently expected to show up well on Thursday. A final shoot was held yesterday afternoon and the team selected to represent P. E. I. is as follows: Lt. Col. D. A. MacKinnon (Capt.), Capt. A. Robertson, Staff Sgt. F. Kennedy, Staff Sgt. A. McCabe, Pte. J. D. McAra, Corp. G. G. McLennan, Mr. James Colos, Sign. G. McDonald, Spare man, Staff Sgt. G. R. Brier, Coaches—Major J. M. Jones, Capt. J. A. Moore. The Nova Scotia team will arrive at 6:30 and will be met by autos and taken to Victoria Hotel where rooms are reserved for both teams. The New Brunswick team will arrive by late mail train. The shoot will start at 10 a.m. on Thursday, the 200 yards being fired in the morning and the 500 yards will be started at 2 p.m. On Thursday evening at 7:30 a supper will be tendered the visiting teams and local riflemen at the Cafe Paul. Invitations have been extended to about sixty including many prominent citizens.

LONDON TRANSPORTATION STRIKE NOW ALMOST ENDED

(British United Press) LONDON, June 10.—Today sees the unofficial strike which has paralyzed the transportation of the London tube system for five days practically at an end. The entire system is almost normal so far as running schedules are concerned this morning. The strike was admittedly one of a long series of efforts on the part of British communists to precipitate trouble in England and to tie up one of the essential industries. Trades unions have awakened to the danger of those outlaw strikes and they have begun to organize to combat these drastic directed against their prestige and their powers. Complete failure of the present strike has considerably dampened the fervor of Communists and has also taught the trades unions the necessity of more effective organization and greater vigilance against enemies within their own ranks.
