IT has been suggested that the Charlottetown mails at Cape Traverse be taken to Summerside by team and thence to the city by train if difficulty be found in opening the Cape Traverse branch. It is not thought that the snow fight on the branch line will be heavy however and the city can be assured of an early mail when the main line from Charlottetown to Emerald is opened.

THE two Bedouque young ladies who formed the central figures of the sad tragedy of a number of years ago on Summerside harbor, the story of which is told on page 1 today, were Misses Mary and Ann Robins, daughters of the late Thomas Robins, Bedouque. THE crew of the brig Vidonia which was caught in an ice floe and blizzard while bound out of St. John's on Tuesday as reported in The Guardian despatches several days ago were found wandering in the woods badly frost bitten and were taken to Petty Harbor on dog sleighs. Their vessel had been broken up and the crew reached land on foot over the ice. They were compelled to remain on the beach all night unsheltered. They were found to be feeble to walk further.

THE Hon. R. R. Fitzgerald lectured last evening before the students of the Union Commercial College and a few invited friends. His subject was "Abraham Lincoln." The learned lecturer in a masterly manner portrayed the early life and subsequent career of this noted personage, without doubt a most unique and unparalleled figure in modern history.

From Lincoln, as a boy with few educational advantages; as a youth seeking after knowledge; as a young man entering upon a professional career; as a man destined to become a leader in public affairs, up to Lincoln, the man who, overcoming all difficulties, reached the highest position in the Nation and made himself admired world wide by his "emancipation of slaves;" the lecturer portrayed many interesting and helpful lessons which proved a source of inspiration to his hearers. In conclusion reference was made to the great loss sustained by the American Nation in his assassination by which they lost their greatest President and the world lost a man described as the "greatest since St. Paul."

A vote of thanks was then moved by J. McAdam, seconded by R. Herbert Moore, after which the Rev. Wm. Dobson, P. A. McDonald and Percy Pope spoke in support of the motion. Principal Moran in extending the unanimous vote of thanks expressed the appreciation of the faculty and students, and their deep sense of gratitude to the Honorable Gentleman for his kindness in delivering such an admirable lecture. The Judge in acknowledging the vote spoke of the great benefit to be derived from the study of such lives. He had studied Lincoln to get at his personality, and the more he read of him the more he admired the man. He advised the students to ponder the lesson to be learned of the brilliant success achieved as the result of unremitting effort and unflinching devotion to duty.

Cole, Charlottetown, started to walk to Emerald. A. B. Warburton, George E. Full, Messrs. McWilliams, Belfast and McAulay, Tracadie, and Prof. C. J. We heard a man say the other morning that the abbreviation for February, Feb.—means FREEZE EVERYBODY, and that man looked frozen in his ulster. It was apparent that he needed the kind of warmth that stays, the warmth that reaches from head to foot, all over the body. We could have told him from personal knowledge that Hood's Sarsaparilla gives permanent warmth, it invigorates the blood and speeds it along through artery and vein, and really fits men and women, boys and girls, to enjoy cold weather and resist the attacks of disease. It gives the right kind of warmth, stimulates and strengthens at the same time, and all its benefits are lasting. There may be a suggestion in this for you.

Pure Wool Versus Shoddy

Everybody sees the folly of buying clothes made from shoddy cloth but the large majority of consumers not being experts do not know until after they have worn them "what was in them" and then it is too late.

People buy shoddy cloth and clothing chiefly because the merchant forces the sale of such stuff, there being more profit in it

FOR HIM

And the purchaser thinks they are cheaper not being able to discriminate between shoddy and pure wool.

We Use No Shoddy in Our Factories
