O, CANADA.

Lord of the lands, neath thy bending skies,
On field and flood, where'er our banner flies,
Thy people lift their hearts to Thee,
Their grateful voices raise—
May our Dominion ever be
A temple to Thy praise.
Thy will alone
Let all enthroned;
Lord of the lands, make Canada Thine own!
Lord of the lands, make Canada Thine own!
Almighty love, by Thy mysterious power,
In wisdom guide, with faith and freedom dower,
Be ours a nation evermore
That no oppression blights,
Where justice rules from shore to shore,
From Lakes to Northern Lights,
May love alone
For wrong atone;
Lord of the lands, make Canada Thine own!
Lord of the lands, make Canada Thine own!

Lord of the worlds, with strong eternal hand,
Held us in honor, truth and self-command,
May all our race with constant mind
Have courage to be true,
Imperial ties more firmly bind
And all the earth renew.
Thy name be known
Through every zone;
Lord of the worlds, make all the lands Thine own;
Lord of the worlds, make all the lands Thine own!

Sound Advice From a Well-Known Physician

Men and women who suffer from what they call Dyspepsia, Indigestion or just plain "stomach-trouble" usually seek regular relief in the form of some peppin pill or tablet, or other artificial digestant. This, experience teaches me, is a serious error. In nine cases out of ten, the distress is caused by the development of acids in the stomach,—formed by the fermenting of the food. Instead of a digestant being required, something should be taken to dissolve or neutralize this acidity, when normal digestion will follow as a matter of course. This acid matter is distinctly poisonous and unless it is dissolved, digestion merely carries the mass of fermenting food from the stomach to the intestines, where its poison is absorbed by the blood and carried all over the body.
If all the great army of people who suffer after nearly every meal would make it a point to take a teaspoonful of Bisurated Magnesia in a quarter glass of water after each meal, there would be no formation of acidity and consequently no distress or discomfort. Sour, acid, gassy stomach, heartburn, belching, bloating, etc., would then be a thing of the past. "Bisurated Magnesia" is a physician's prescription. It is inexpensive and can be obtained at any drug store. It is prepared for just such trouble and the best proof of its efficiency is that it will stop the sharpest, biting stomach distress in five minutes from the time it enters the stomach, simply by dissolving the acids that have been formed there. Its action is also entirely harmless.

INTRODUCTION
The Glenaladale Silver Black Fox Company, Limited, was incorporated in 1913 with six pairs of foxes, at \$60,000. This Company re-capitalized in 1914, with 20 pairs of beautiful Silver Black Foxes, at \$15,000 per pair, making a total capitalization of \$300,000.

THE FOXES
Six pairs (one year old) proven breeders, and fourteen pairs (1914 pups), making a total of 20 pairs—all young foxes—good for at least 10 years. This Company has bought some of the year's options on foxes with a guarantee that they are pedigreed and of the highest strain and very best quality P. E. Island famous foxes.

THE RANCH
The ranch is situated on the well known Glenaladale Farm, owned by Major C. McKinnon, formerly the homestead of Sir William Melville, and is only 12 miles from Charlottetown, in a quiet locality, suitably removed from any disturbance.

THE RANCHER
Mr. Arthur W. McKinnon, our Ranch Manager, has had much experience in breeding foxes, and has the practical knowledge necessary to efficiently manage and care for the animals.
The foxes will be ranched free of charge to the Company for the first year. This means a large saving to the shareholders, as some companies have to pay as high as 25 per cent. of the increase for ranching purposes.

NOTICE
When a fox company guarantees any specified dividend to its shareholders, and when said company is an incorporated body, you need not be afraid of any unfair play, for such a company is compelled to pay what they promise, and, besides, every interest is taken for the welfare of both the investor and the company.

A POINTER
Just to give you a little idea of what the free ranching of foxes mean to the investor, we will figure it out for you.
We have twenty pairs of foxes in the ranch and suppose each pair produces a litter of only four foxes, this is equal to 40 pairs and at \$15,000 per pair it would figure out at \$600,000. Now, if we had to pay even 15 per cent. of the increase for ranching purposes (which is considerably lower than some companies pay) it would mean that we should have to pay \$90,000 for ranching expenses.
We ranch the foxes free for the first year, so that in addition to a guaranteed dividend of 50 per cent., we save you this large outlay of money. While we guarantee 50 per cent., still should each pair in our ranch produce four pups it would mean that your dividend would be about 200 per cent., instead of 50 per cent.
