QUEEN MARY IS PLEASED WITH CABLE FROM Q.M.N.G.

The following letters have been received by the Queen Mary Needlework Guild.

THE QUEEN'S LETTER May 18, 1944 Mrs. McLure, Queen Mary's Needlework Guild, Charlottetown, Prince Edward Island, Canada.

Dear Mrs. McLure: Queen Mary desires me to thank you and the members of the Q.M.N.G. for the cable message of congratulation and greeting. Indeed it is a relief, beyond measure, to receive the news of the Allies' victory has actually happened.

Her Majesty appreciates how greatly Canada contributed and alas, how heavy a price she has paid.

Queen Mary went up to the Thanksgiving service at St. Paul's Cathedral, a most beautiful and moving service.

Her Majesty expects to move back to Marlborough House very soon; the windows are back, the bomb damage patched up.

As London looks desperately shabby but so grand somehow with its battle scars.

As Queen Mary passed through Admiralty with special interest at the crowded windows and balconies of the Beaver Club it was a great relief to see Queen and Princess Royal when Lord Lascelles carried back safely after a very narrow shave.

In our own joy and thanksgiving for victory in Europe, we do still remain in the East.

Yours sincerely, Constance Milnes Gaskell.

GIFTS APPRECIATED

Dear Mrs. Bartlett: Some Miss has passed since the trustees of the Protestant Orphanage expressed their thanks to your Guild by letter but there has been no interruption in the arrival of your grand contributions.

With unbroken regularity over many years your ladies have supplied such marvelous donations of children's clothing that we find ourselves at a loss to adequately express our gratitude.

The parcels on arrival have been placed on display and if you could only hear the most complimentary remarks passed by all who saw them, you would more readily understand why they are all materials, the suitability and perfection of needlework are most outstanding.

The trustees, who give their valuable time free to this work have to carry the full burden of financing the institution, and all such fine gifts mean a great deal to them.

Will you please convey to the ladies of your Guild our most grateful thanks and assure them of our earnest hope for their continued success so well deserved.

Yours very truly, Ira M. Brown, Secy.-Treas. For Chairman and Trustee Board.

The very beautiful illuminated birthday card to be sent to Her Majesty Queen Mary by her Charlottetown Guild was the work of Mrs. Charles F. Bentley, who very kindly and graciously donated the card to the Society.

It is a hundred and fifty years ago that the annual display of work to see the annual display of work.

ELLEN'S DIARY

By An Island Farmer's Wife

The folk at Alderley seemed to bring renewed effort to their tasks this morning. This is a day when the birds and ends of work must be completed this week must be done and also the customary preparations made for the Sabbath.

We had only finished an early breakfast, when I saw Jack hitching a cart to the manure spreader. Presently James, who had drawn the cart, was off to join him. Their day had begun, Jennie was at her chucks, moving them from under quarters to a more sunny enclosure in the chicken house.

Judy, her thoughts already on the morrow guessed she might as well begin the work of it for it leaves the mind at rest or free to rove, while the hands are occupied. My second brooder in the chicken house was taken suddenly and for I hold the parent cause whatsoever, for I hold a one-woman court of inquiry over the matter, a brand new earthenware teapot, that was on the way to becoming the joy of my heart, had developed a leak. However she was careful to point out to me, the cover can be put away, it might be useful some day Mrs. Ellen.

Notwithstanding her misadventures in this direction, Judy sang this morning as she filled the wood-box to overflowing. She always does on a Saturday if winds and skies are and James promises her a fine Sunday. If true is the prevailing color of the sky, her song is hushed. Then, even the

MORNING SMILE

USING STRATEGY The bus was, as usual, crowded and the party of five W.A.A.F.s found themselves strap-hanging. Presently one bright member of the company said loudly to her friend: "I wish that smart, good-looking man would give me a seat."

Almost before she'd finished five men stood up to offer their seats.

FIRST SESSION On the first morning after the honeymoon the husband got up early, went down to the kitchen, and brought his wife her breakfast in bed. She was delighted.

Hubby spoke later: "Have you noticed every detail on the tray?" "Of course, every single thing, darling."

"Good! Well, that's how I want my breakfast served every morning after this."

No Bridal Robe For Princess--Yet

By A. C. CUMMINGS

LONDON, June 1.—Princess Elizabeth, who has had her nineteenth birthday, is not going to marry anybody—yet. Already, it is reported, she has been the subject of newspaper speculation.

The Princess, I can state on good authority, has no thoughts of marriage at present. Neither have her royal parents. They have brought her up from her earliest days with the idea that she should have a happy girlhood, and should not be expected to marry for any reasons of state.

The Princess is heir apparent. In the ordinary course of human events, when King George dies, she will become Queen—perhaps under the title of Queen Elizabeth II. Because of her high responsibilities and varied duties, her parents have seen to it that she has been well educated in the history of the British Empire, and in the work of the British Commonwealth.

She has a good many accomplishments. She speaks several languages, she can play the piano and act and sing, as her Christmas "pantomimes" have so happily shown. She is a Girl Guide, a "first-aid" and in the Auxiliary Territorial Service, has shown her ability as a driver, and has broken-down motor trucks with the best of them. She rides a horse well and is a good swimmer. She has King George's conscientiousness in doing thoroughly what has to be done, even if the task is not over-pleasant.

But—and it is a very big "but"—she has spent her adolescence in the turmoil of the most devastating war that has ever devastated this planet. She has been unable to travel—and her great idea is to see as much as she can of the British Commonwealth, Europe and the foreign contacts.

As queen she will return to Europe exactly as much of the new world as she can. She has not developed the capacity for dealing with men and women.

Dorothy Dix Says— FRICTION WITH FAMILIES Newlyweds United With In-Laws Despite Mental Protests Nothing is more common than to have young people, in love, some girl or boy out of their own class or religion or who have objectionable parents, say: "Well, after all, I am not marrying Mr. or John's family."
