Democracy and Autocracy At The Death Grips

Events of Last Few Weeks Must Have Made This Plain to Every Thinking Man, says Lloyd George

LONDON, May 1. — In a special preface to a volume containing extracts from the Prime Minister's war speeches, Mr. Lloyd George says: "I never believed that the war would be a short war or that in some mysterious way, by negotiation or compromise, we should free Europe from the malignant military autocracy which is endeavoring to trample it into submission and moral death. "I always believed that the machine which has established its despotic control over the minds and bodies of its victims and has then organized and driven them to slaughter, in order to extend that control to the rest of the world, would only be destroyed if free peoples proved themselves strong and steadfast enough to defeat its attempt in arms. "The events of the last few weeks must have made it plain to every thinking man that there is no longer room for compromise between the ideals for which we and our enemies stand. Democracy and autocracy have come to the death grip; one or the other will fasten its hold on mankind. "It is clear realization on this issue which will be our strength in trials to come. I have no doubt that freedom will triumph, but whether it will triumph soon or late, after a final supreme effort in the next few months or long drawn agony, depends on the vigor and self-sacrifice with which the children of liberty, especially those behind the lines, dedicate themselves to the struggle. "There is no time for ease, delay or debate. The call is imperative; the choice is clear. It is for each free citizen to do his part."

PROFESSIONAL SKILL

"It was a dreadful moment," said the dentist. "I was bathing quietly, when the great cavernous jaws of the shark opened before me." "What did you do?" asked one of the ladies. "I took my forceps out of my bathing suit and pulled its teeth before he had a chance to seize me. It was the quickest and neatest bit of work I ever did."

A WAR TIME MEASURE.—There is a probability that the general assembly of the Presbyterian Church in Canada will not be held this year. The Emergency Committee have the matter under serious consideration. The chief reasons for omitting the Assembly this year are the saving in the funds of the church and the desire of the Government to restrict travel as much as possible. As there are no pressing questions to come before the Assembly this year, it is felt that no interest would suffer by deferring it for another year, says the Presbyterian Witness.

Cameron refers feelingly to the death of Roy McCoubrey who was in his company and who was killed a few days previously as was also the man who stood next him, both being killed instantly.
