LOOKING FOR A MANAGER FOR GOVERNMENT RAILWAYS

Intention is to Select Man of Executive Ability Rather than a Railway Man. Sir Joseph Flavelle, Clifford Sifton and E. R. Wood Mentioned.

(Special to The Guardian) OTTAWA, Ont., April 19.—The government is looking for an executive head for the Canadian National Railway. It is not intended that the system shall remain under a railwayman. It is proposed to secure railwaymen for purely operating purposes and not for executive purposes. The position, it is believed has been offered Sir Joseph Flavelle, former head of the Imperial Munitions Board. Sir Joseph is in consultation with the government at the present time but is reticent as to the nature or purpose of the negotiations. Other prominent business men of high executive ability mentioned for the important position include Clifford Sifton and Mr. E. R. Wood of Toronto.

ANOTHER ULTIMATUM GIVEN TO GERMAN GOVERNMENT

Must Transfer its Gold Holdings in Imperial Bank to the Branches at Coblenz and Cologne.

(Special to The Guardian) PARIS, April 19.—The allied reparations commission announced today that it had given Germany until April 22 to transfer the gold holdings of the Reichs Bank, the German Imperial Bank, to the Coblenz and Cologne branches of the bank if Germany refuses to comply with the ultimatum. The commission, it states, will require the immediate delivery of the gold to the commission itself in the event of the transfer of the gold to the branches named. The summary continues to figure a part of the balance of the Reichs Bank but the German Government would have no right to dispose of it without obtaining previous authority from the commission to do so.

PROCEEDINGS IN PROVINCIAL LEGISLATURE

APRIL 18 CONTINUED

MR. J. A. DEWAR, speaking on the amendment to the motion in Supply commended it and stated his conviction that he felt impelled to vote for it. An expenditure of \$90,000 more than that of last year had been made during the past year and this in face of the fact that prices were coming down. He could not help viewing with alarm this increased expenditure and the further increase proposed for next year. It was a matter of indifference to him, the speaker said, what either parties did in the past. The country is now facing the future. And the problem is to decrease the public debt. We are continually paying into sinking funds and still the debt keeps mounting up. Speaking on the educational question he believed that our teaching system was a fairly good one, but that a grave danger lay in the falling off of the population. The question of emigration was an important one in this connection. Mr. Dewar then took up the new Highway projects. While we have a big deficit in railways, he said, we are yet able to expend thousands of dollars in permanent roads, which will be used chiefly for automobiles. This is a craze which has taken the place of railway building in many parts of Canada; when all the roads in the projects are completed they will only be a small section of the roads in the island and the problem will remain to make every road a good one. The speaker approved of the policy of the Government in regard to Falconwood Farm. He believed that it would be well if the Experimental Farm was turned into a stock farm and the young animals sold to farmers throughout the Province. He was pleased to see that this was being adopted in the Falconwood Institution. Live stock, and especially dairying, he believed to be the basis of our agricultural industry. Regarding taxation he believed that the poll tax might well be lowered to \$2. He commended the Government for lowering the tax on canned lobsters. The falling prices on all farm products warranted the government in going as easily as possible on taxes. He deprecated the "mud-slinging" between the political parties.

CLEVER INVENTION OF A CHARLOTTETOWN BOY

Mr. Walter Hyndman, Turns out an Invention in Connection With Wireless Telegraphy Which Will to a Considerable Extent Revolutionize the System.

Mr. Walter Hyndman, the seven-year old son of Mr. W. E. Hyndman of the Department of Public Works, this city, has recently completed a remarkable invention in connection with wireless telegraphy which it is no boast to say will to a large extent revolutionize the present system. Mr. Hyndman, who may be regarded to some extent as a wizard in wireless, has been studying this project for some time and conducting experiments in the same at the Navy League Wireless Station. About ten days ago he had the satisfaction of learning that his efforts had been crowned with the most successful result he has ever received the hearty congratulations of the chairman of the Maritime Wireless Telegraph Company of America to whom he submitted his invention. The invention itself consists of a wireless transmitter and receiver of an entirely new type. The receiver is furnished with an amplifier which greatly increases the volume of the signals received and

Has Faith In Girls Made Third Try To End His Life

HON. MRS. SMITH SAYS THEY WILL DO PART IN REFORMS

TORONTO, April 19.—Canada needs a million more houses, said Hon. Mrs. Ralph Smith, minister without portfolio in the British Columbia legislature, who is in the city for a couple of days on her way west after attending a meeting in Ottawa of the Women's Advisory Council on Immigration. The honorable member of the British Columbia cabinet says she has all faith that the girl of today can be trusted to do her part in bringing about the reforms of tomorrow.

CITIZENS LIBERTY LEAGUE MAY CONTEST REFERENDUM

Claimed That C. T. A. Does not Apply to Ontario. Objections Also Raised Under British North America Act.

(Special to The Guardian) TORONTO, April 19.—"The fight is still on," in these words Mr. I. F. Helmuth, president of the Citizens Liberty League, announced today that action may be taken to contest the validity of the vote registered by the people of Ontario yesterday in view of the contention that the Canada Temperance Act provision, do not apply to Ontario. "Will the Liberty League undertake proceedings to prevent the application of the vote to Ontario?" he was asked. "Not on that point alone," he answered, "there is another question that enters in, that is, whether the dominion under the British North America Act can prevent importation of anything into one province without preventing it in all other provinces, can the dominion discriminate against any one province? Another question which we will take up, is, can the dominion delegate its powers to a popular vote, or referendum."

CONDENSED SPECIALS

WANTED TO PURCHASE second hand book case Apply at Guardian office.

WANTED—A MAID FOR GENERAL housework. Apply 29 Upper Prince Street.

WANTED—BY MAY 1ST, experienced fox rancher. Ranch nine miles from Charlottetown. Apply to Hooper and Turner, Charlottetown, giving experience salary expected, etc.

SALESMAN WANTED—SALESMAN a self-respecting salesman whose ambition is beyond his present occupation might find more congenial employment with us and at the same time double his income. We require a man of clean character sound in mind and body, of strong personality who would appreciate a life position with a fast growing concern where industry would be rewarded with far above average earnings; married man preferred. Apply to Mr. J. C. McLean, Bell second floor, Riley building, Queen St., opposite Prowse Brothers.

BROCKVILLE, April 19.—Derick Tennant, who was acquitted recently on a charge of murdering R. L. Wood in Yonge township on the ground of insanity, made an attempt upon his life in the counties jail here by jugging his neck with a nail. He was removed to the General Hospital for treatment, and his condition is reported as not being serious. This is the third attempt Tennant has made on his life since the shooting of Wood. Shortly after the tragedy, he attempted to cut his throat with a pocket knife, and when brought to Brockville under arrest was taken to the hospital for treatment. While in the hospital he attempted to end his existence by jumping from a window, but was prevented from doing so by his guard. Tennant, who is 79 years old, has been confined in the jail since his trial, pending disposition by the Lieutenant-Governor-in-Council.

To Ignore Russia WASHINGTON, April 19.—Secretary of State Hughes, writing to Samuel Gompers, president of the American Federation of Labor who asked for a settlement of "the facts" regarding Russia, indicates definitely that there is no prospect of a resumption of relations with the United States while the Soviet political and economic system remains.

Trampled To Death By Mill Horses ELLSWORTH, Me., April 19.—While harnessing horses at the Whitcomb-Haynes lumber mill stables at Bayside, Fred Joseph Moores, of Ellsworth Falls, was knocked down and trampled to death. He was 62 years of age.

LOST—BETWEEN BONSHAW and Charlottetown, bunch keys. Finder leave at Guardian office. Reward.

LADIES WANTED—TO WEAR our women's associate brogues, rubber heel oxford. This week \$5.00.—LePage & Brady.

SALESMAN WANTED.—EXPERIENCED man preferred. Will include handling of carpets and oilcloths. Good position for the right man. Write P. O. Box No. 14.

BOOT REPAIRING—ROBERT Wakelin is opening up a repairing shop in Mt. Stewart, where he will be in a position to attend to the repairing of boots, shoes and rubbers. Satisfaction guaranteed.

Premier Drury Gratified with Referendum Vote (Special to The Guardian) TORONTO, April 19.—"I think the voting result is splendid," said Premier Drury today. "And yet it is only what we had a right to expect from the people. I look upon it as a verdict of confidence in the O. T. A.," observed Mr. Raney, Attorney General. Both the Premier and Mr. Raney believed that the shutting off of importation will simplify the work of law enforcement and improve the social results of the O. T. A.

Town of Verner Votes Solidly Against Prohibition Law (Special to The Guardian) OTTAWA, April 19.—Verner, a wet village in the Nipissing district, has apparently never been schooled by temperance propaganda. The voters should deeply regret such an oversight. Out of a total voting population of 254 every vote was cast in the wet column, which threatens to be recorded as a singular case in this year's vote.

Maritime Provinces Telegraphic News (Special to The Guardian) CUNARDER ARRIVES HALIFAX, April 19.—The Saxonia of the Cunard line docked here today with 981 passengers from London and Cherbourg. The ship sighted a large iceberg falling into the sea while approaching the harbor entrance.

Gould Gives \$10,000 PRESQUE ISLE, April 19.—Hon. A. R. Gould, senator from this district and formerly connected with the Valley Railroad of New Brunswick, has given \$10,000 to the state school for boys here. Senator Gould was given a public reception here a few days ago.

TWO YEARS FOR BOY SYDNEY, April 19.—A fourteen-year old boy who took a light from a C. N. R. switch, was sentenced to two years in the St. Patrick's Home by Magistrate Mueggh today. His eighth year old accomplice was allowed to go with a warning.

IN PARLIAMENT OTTAWA, April 19.—The House spent lethargic Monday for the most part in academic discussion of better control of public expenditure of the bridge over the St. Lawrence River between Montreal and South Shore, and a motion to have copy of the French and English Hansards kept in all post offices throughout Dominion Control of expenditure gave rise to considerable debate. Mr. Lemieux who brought it up proposed that before the estimates were tabled they should be scrutinized by special committee of the house. After having won control of expenditure Mr. Lemieux argued that Parliament lost it to the Cabinet. The remedy was the establishment of a committee such as had been established by the British House committee which made enormous savings for the Mother Country. Mr. Drayton agreed on necessity for economy but held it difficult to arrive at definite conclusions regarding the British committee since that committee had ceased to function. Mr. Lemieux withdrew resolution. The resolution for a new bridge over the St. Lawrence River, Montreal and for placing Hansards in post offices was also withdrawn after discussion. The bill to amend the Fertilizer Act in regard to marking of packages of fertilizer came up for a second reading. Mr. Caldwell (Victoria Carleton) said a man who bought fertilizer had a right to know just what he was getting. This bill was given a second reading and referred to committee on agriculture.

Premier and Mrs. Foster Sail for England ST. JOHN, April 19.—Premier W. E. Foster and Mrs. Foster sailed for Europe tonight on the Empress of France. They were guests of honor at luncheon on the boat today at which the city councilmen were also guests of the C. P. O. S.

10,000 MINERS BACK AT WORK SYDNEY, April 19.—Eleven of the Dominion Coal Company's fifteen collieries have resumed operations and nearly 10,000 employees are back at work.

LINER DELAYED BY SMALLPOX HALIFAX, April 19.—The French liner Roussillon, which arrived here today is detained under quarantine for smallpox. She was to have proceeded to New York.

N. B. WANTS 60,000 CASES LIQUOR FREDERICTON, April 19.—The provincial liquor commission estimates an order of over 60,000 cases of liquor will be required to fill the retail vendor's order for the coming year.

AFTERNOON SESSION APRIL 19th

The House met at 3.50 p. m. PREMIER BELL referred to a news item which appeared in this morning's Guardian regarding a released prisoner from the jail. The Premier contended that no negligence of the Government could be alleged in the fact that he was still at large about the city, as the Government had no authority in the matter at all. He maintained that the Health Officer was responsible in the matter and that the Guardian should have laid the responsibility there and not upon the shoulders of the Government. The representatives of the newspapers are the paid reporters of the House, he said, and some of them are not performing their duty fairly. The Government might be forced to withdraw that payment, he hinted. HON. MR. ARSENAULT reminded the Premier of the fact that only three reporters in the House were receiving payment from the Government. There has been no complaint against the reporters. The article referred to by the Premier regarding the prisoner at the jail has nothing to do with the reports of the House. If the Guardian has not drawn the attention of the proper authorities to this matter, they have at least given publicity to it, as it was their duty to do. HON. MR. JOHNSTON maintained that he had been accused of criminal negligence because the man was in jail—now the Government was being denounced because the man had been released from jail. He maintained that the Government had nothing to do with the incarceration of the prisoner or with his release. The duty lay with the Health Officer. He did not think that Mr. Arsenault was justified in defending the Guardian. An Act respecting Fire Insurance was given first reading. HON. MR. JOHNSTON moved that the Electric Light Company bill be given second reading. A question arising is to the regularity of proceedings with the bill before the fee was paid. Mr. Arsenault suggested going ahead with it in order to expedite matters. HON. MR. ARSENAULT expressed his entire agreement with the object of the bill. If we can get in corporation to establish such an electric plant as will supply light and power throughout the Province it would be a splendid thing, he said, provided the proper safeguards are furnished. Only recently the Prince County Hospital was obliged to decline the gift of an X-ray apparatus, the best this side of Montreal, owing to the fact that the proper electric power to operate the machine was not available. If such a plant as the proposed Light, Heat and Power Company were established here it might be possible still to take advantage of the offer. But there are a number of things to be taken into consideration. While agreeing with the principle of the bill, Mr. Arsenault maintained that he did not agree with the bill itself. He did not know who had prepared the bill but he considered it very incomplete. There were many provisions in it which he considered serious objectionable. While a company of this kind should be given ample power to enable it to operate properly, it is necessary, at the same time, to see that our generosity to the Company is not at the expense of the people of this province. If such an incorporation should be established here it becomes necessary to have a public Utilities Commission. When this Commission was suggested to the Government the objection was raised that it would cost money. But what is the Government here for except to not only legislate but to guard the public interests? If it becomes necessary to establish a Public Utilities Commission to whom all disputes can be referred, then the Government is justified in expending the money. In the upkeep of the jail and Falconwood Hospital, the Government is spending money, which brings in no direct profit to the country but which are essential to the interests of the country. In the same way the Public Utilities Commission has become a necessary institution in this province, and if this proposed Electric Company is to be organized and operated the

Mr. Walter Hyndman, the seven-year old son of Mr. W. E. Hyndman of the Department of Public Works, this city, has recently completed a remarkable invention in connection with wireless telegraphy which it is no boast to say will to a large extent revolutionize the present system. Mr. Hyndman, who may be regarded to some extent as a wizard in wireless, has been studying this project for some time and conducting experiments in the same at the Navy League Wireless Station. About ten days ago he had the satisfaction of learning that his efforts had been crowned with the most successful result he has ever received the hearty congratulations of the chairman of the Maritime Wireless Telegraph Company of America to whom he submitted his invention. The invention itself consists of a wireless transmitter and receiver of an entirely new type. The receiver is furnished with an amplifier which greatly increases the volume of the signals received and

Two Miners Killed In Coal Fall

HALIFAX, April 19.—Word was received here last night that J. J. Fraser of Westville, was killed and Robert Young, of Stellarton badly injured by a fall of coal in the Albion Mine at Westville late last night. UTILITIES Commission becomes doubly imperative. MR. HESSIAN referred to the Montague Electric Light Company of which he was a share holder and to the lines which had been run to Roseneath, Lower Montague in Georgetown. These lines had also been extended to Cardigan and the intention was to extend them further in various directions. It was even contemplated lighting the city of Charlottetown, and that at a cheaper rate than the rates under the present lighting system. The monopoly of this local company extends to three lots, and on the other hand this bill is going to give a monopoly to an outside company over the whole Province. He maintained that this was very unfair. Reasonable notice should have been given to the stock holders of the local company, at the very least, he continued. To consider a bill of this nature at a few hours notice was ridiculous. There are clauses in the Act that would take experts to explain. To grant this outside company a charter which would be denied to a local company, he thought was also rather unfair. HON. J. J. JOHNSTON followed. He said that while the last speaker raised some general objections he did not see any special objection to the bill. He, Mr. Johnston, had looked into the Bill very carefully and found that all the interests of the Province were safeguarded. He did not feel called upon to make any lengthy statements at this stage as he would have something further to say in committee.

Hope Entertained of Strike Settlement

(Special to The Guardian) LONDON, April 19.—Renewed hope of a final settlement of the British strike situation arose today when a meeting of colliery owners was called. Following the "rough" last night of Premier Lloyd George when he was given a vote of confidence on his handling of the situation it was believed he would arrange a new wage offer by the owners. The lines of unemployed lengthened today. Queues formed before employment agencies and charitable organizations. Severe cold created a demand for coal which could not be supplied.

THE WEATHER TEMPERATURE TIDE, MOON, ETC.

TORONTO, April 20.—North east wind; showery. High tide this morning at 9.16 and tonight at 9.50. Sun sets this evening at 6.55 and rises tomorrow morning at 5.02. Full moon Friday, April 22nd 3.49 a. m.
