HOLIDAY ENJOYED—A large number of the young people of Georgetown celebrated the "24th" by holding a picnic and fishing excursion at Sturgeon, being conveyed thither in motor boats, and as the weather conditions proved ideal a most enjoyable time was spent. After spending the afternoon in games, refreshments and fishing, with more or less success, the party returned home, the sun and wind proving most efficient aids in heightening the complexion. G

THE S. S. "LADY EVELYN" arrived in Souris Wednesday morning from Pictou to Magdalen Islands. She has taken aboard all Souris fishing material and most of the lobster cans and will likely on her next trip clean up all freight in the Railway freight shed. The late storm delayed the boat one day.—S.

HERMANVILLE. — A welcome visitor to his aged uncle and aunt, Joseph and Mary McLean, Hermanville, was their nephew, Martin McLean, Highland Brigade, recently returned from overseas. Mr. McLean had been living in Boston for about ten years previous to his enlisting. He is now about to take charge of his uncle's farm and settle down. He has purchased a working horse and other aids to farming and has gotten down to farm work in real earnest. — Mr. Leo Doucette has returned to his home here from overseas, having obtained his discharge a short time ago. Work horses have been very scarce this spring here and difficult to procure. But high prices and scarcity is no obstacle to returned soldiers. Leo Doucette, returned soldier, purchased a fine driving horse near Charlottetown, costing \$170. Martin McLean, returned soldier, purchased a horse from Mr. Donald McInnis, of Milton, last week, and Mrs. A. McEachern, war widow, purchased a fine young horse from Mr. Kelly, of Bear River.—Joseph Parsons is farmer for James H. McLean this spring. —Wm. Cheverie is farmer for Mrs. Andrew McEachern. —Mr. McPhee, for Mr. Hugh McEachern; John Mallard for A. D. McIsaac; William Bushey for Frank B. McDonald, while John Aufrey continues with John Alfred McDonald, L.S. All the farmers here have secured efficient help, but at greatly increased wages over other years. Farmers are pretty well along with their seeding operations. Some are finished. John Alfred McDonald, who is also some farmer, finished on the 24th. Nearly all the farmers are working three-horse teams this spring, and have made rapid progress in this fine working weather. One way to humble a man's pride is to present him when a life size crayon portrait of himself made by an amateur artist.

EYE STRAIN

The correction for eyestrain and its defects is through application of suitable glasses, the reason being that not disease but mechanical defect is to be overcome in the eye or its controlling muscles. Thus the right glasses counteract the defects, eliminate the "Strain," and leave nature to heal the hitherto resulting troubles and disorders.

Thousands suffer from Eye Strain without knowing the fact. They see well and are not aware that a ruinous expenditure of nerve force alone enables the eyes to triumph over existing defects and serve obediently.

Children are frequent sufferers from Eye Strain, arising from wholly unsuspected defects of vision. Squint (or cross eye) is due to defective vision, and unerringly indicates Eye Strain. The right glasses worn in time will correct both, while, if neglected, the squinting eye gradually loses its acuteness of vision and finally only an operation will mitigate the evil. Every child's eyes should be thoroughly examined before entering school.
