The missionary societies of the

World's Day of Prayer with large
attendances at the various meeting
places.

At North Bedoune, the day was
observed with a service in the
United church there. Mrs. Wilbur
Stavert, president, led the program
which was the same as that fol-
lowed in the Day of Prayer for all
the world.

The leaders in the different pray-
ers and readings were, Mrs. Wilbur
Stavert, vice-president of the Maple
Leaf Mission Circle; Miss Annie Dy-
ment, president of the Flora
Toombs' Mission Circle; Mrs. Lloyd
Waugh, Mrs. Darrel Picketts, Mrs.
Frank Jardine, Mrs. Clark Mac-
Quarrie, Miss Marion MacMurdo of

had charge of the concluding part
of the program with Scripture read-
ing by Mrs. Clark MacQuarrie,
prayers by Mrs. D. F. Hoddott and
Mrs. MacMurdo. Rev. Mr.
Hoddott gave a short address and
dedicatory prayer.

The Grant Mission Band sang a
delightful chorus and Mrs. D. F.
Hoddott gave a solo which was
highly appreciated.

After a social hour Auld Lang
Syne and the National Anthem
brought the service to a fitting con-
clusion.

Belmont at Lot 16

The missionary societies of Bel-
mont and Lot 16 met at the Manse
for the World's Day of Prayer. Mrs.
Mabon Bynon, president of the
Benediction. A lunch was served
by the hostess assisted by her
daughters, Mrs. Ralph Moore and
a social hour enjoyed.

NEW ANNAN—On Tuesday
evening Feb. 25th a very enjoyable
and very successful dance was held
at the home of Mr. and Mrs.
Lawrence Durant, New Annan,
sponsored by the C. W. L. A
large crowd attended and a sur-
prising sum was realized. Being the
last dance before the season of Lent
began, not a second was uncounted
for, and from eight o'clock until
twelve each person present, watch-
ed the hands of the clock on the
wall, wishing each second was an
hour. A very enjoyable program
was arranged, which included tap-
dancing by Mr. Elgin Mill Clermont;
Mr. Douglas Campbell, Cle-
mont, Mr. Walter Mill, Cle-
mont, and Mr. Nell Joe MacNeil, New
Annan. These features all deserve
the highest praise as they brought
a hearty applause and a roar of en-
joyment from all present. The
music for the evening was the
liveliest in years being very cap-
ably supplied by Mr. Elgin Mill on
the harmonica, Mr. Douglas Camp-
bell on the violin, and Mr. Allie
MacNeil on the piano. The boys
supplied both modern and old
time music, which deserves special
comment. Young and old
enjoyed themselves to the
limit, and the evening was
unable to dance, though full en-
joyment in watching the rest or
playing cards. A very dainty lunch
was served by the hostess, after
which a hearty vote of thanks was
moved and seconded and presented
to Mr. and Mrs. Durant for the
use of their home and the wonder-
ful evening of fun and entertain-
ment enjoyed by all, which was
very heartily accepted and re-
sponded to very cleverly by both
Mr. and Mrs. Durant. The crowd
then sang for "They Are Jolly Good
Fellows," followed by the National
Anthem after which a very happy
and satisfied crowd returned to
their homes.

LONDON, March 4—(CP)—The
Ministry of Food today ordered
confiscation after March 10 of all
gifts of tea from abroad addressed
to individuals and weighing more
than two pounds. The public were
reminded that the rationing law
forbids obtaining foodstuffs in ex-
cess of Government rations.

RUSSIA would have to
content herself with
control of all southeastern Europe

BALKANS would not
likely become a
fighting front for
Germany and Britain

YUGOSLAVIA hemmed
in, could only keep
step with axis

ITALY could get
second wind, have
planes, troops free
to send against
British in Africa

GERMANY would lose
bases in Greece, Crete;
would have long fights
from Africa to carry out
threatened attacks on
German bases in Balkans

GREECE might
still be over-
run by Germans
after laying
down her arms

TURKEY now allied
to Bulgaria, would
escape problem of
aid to Greece if
Germans invade

BRITAIN would lose
bases in Greece, Crete;
would have long fights
from Africa to carry out
threatened attacks on
German bases in Balkans

A peace in Greece would
bring up the axis alley, for it would permit Germany and Italy to turn
their attention from the boiling Balkans to attack elsewhere on Britain. Map shows probable results of
a peace in the Italo-Greek conflict.

Fine concert At Summerside High School

The concert which was presented
last night at the High School Au-
ditorium by the Summerside Choral
Society was very well attended and
a complete success in every way.

The concert marked the first ap-
pearance in public of this newly or-
ganized choral society, which has
been practising diligently for sev-
eral weeks under the direction of
Mrs. Alice Hunter Smythe, who is
well known in musical circles.

There were many new singers
among the cast, new comers to
Summerside, who were heard for the
first time by a large number of
people in the audience who gave
them a hearty reception and cordial
welcome.

The program was of a very high
order and each number well deserv-
ed the enthusiastic approval given
by the audience. The proceeds were
for the Red Cross. A sale of candy
helped to swell the proceeds.

Cardiff has Fierce raid

By Douglas Amaran
Canadian Press Staff Writer
CARDIFF, Wales, March 4
(CP)—This bustling Welsh port
had its fiercest air attack of the
war Monday night but from what
I could see in the fast-gathering
dark when I arrived tonight it was
nothing to equal the damage in
London or Coventry.

All I could see, of course, was on
a walk to the hotel where the staff
was anxious to relate stories of the
previous night's experiences, about
the terrors of the bombing and a-
bout the showers of incendiaries that
started numerous fires.

The stench of charred buildings,
some of which could be seen faintly
in the blackout, hung over the
district where I found my hotel had
been hit. It was closed but a pub
still operated.

Broken glass littered the side-
walks but right next door people
were lining up to get in a theatre.
At the hotel, where all the staff
belongs either to the auxiliary fire
service or to the capital ship pre-
squad I was told the raid was con-
centrated on residential districts and
they offered the theory the Ger-
mans tried to destroy all the
workers' homes with explosive and
fire bombs in the belief the work-
ers would not continue working in
the factories or docks if their
homes were lost.

Another amendment makes the
benefit of the Canadian pension
law available to Canadians who
serve in the naval, military and
air forces of the United King-
dom, providing they were resi-
dents of Canada at the outbreak
of war and remain residents of this
country.

This will cover thousands of
men who proceed into the Royal
Air Force through the British Com-
monwealth Air Training Plan and
smaller numbers who transfer to
service in the British army or navy. They
or their dependants will be able
to draw pensions on the Canadian
scale, instead of the British scale,
if they are disabled or killed.

It points out that paucity of of-
ficial information makes estimates
of the Imperial Japanese Navy
more difficult each year,
but says Japan's 40 capital ships
have launched at least 40,000
battleships of more than 40,000
tons each and an equal number of
pocket battleships in 1939-40.

The handbook says unconfirmed
reports suggested that German
capital ships under construction
might include two 40,000-ton ves-
sels to be called the Friederich der
Grosse and the Hindenburg.

It asserts that reports the 35-
000-ton battleships Bismarck and
Tirpitz were in full commission
must be treated with caution.

(The Bismarck was launched
Jan. 14, 1939 and the Tirpitz April
1, 1939. A Berlin capital believed
both might have been commis-
sioned last June.)

How many submarines the Ger-
mans laid down was impossible to
guess, it says, expressing belief
that the figure of 300 was by no
means unreasonable.

Aside from Japan's new pocket
battleships, all the world's new
capital ship construction is of ves-
sels of at least 35,000 tons dis-
placement, and there are 30 of
more of 40,000 tons or more,
including four British ships of the
Lion class. The first two of the
latter class are to be completed in
1943.

Altogether, Jane's says, the United
States has 17 battleships build-
ing, or on order. It suggests some
of these may have the great dis-
placement of 32,000 tons.

Pensions laws Under review

OTTAWA, March 4—(CP)—Ar-
rangements for a parliamentary
review of Canada's military pen-
sions laws in the light of needs of
the men serving in the armed forces
in the present war are a step
further advanced today.

Yesterday Pensions Minister
Mackenzie introduced amendments
to the Pension Act which will be
referred to a special committee
composed of members who saw
service in the First Great War and
the House heard a number of sug-
gestions from members about
treatment of men discharged from
the forces.

The amendments in the main
are designed to give statutory
sanction to orders-in-council passed
in recent months which make
the present Pension Act applicable
to men serving in the new forces.

That act is the product of several
studies by committees of ex-ser-
vice members of Parliament—such
as the one which will function
this session—at various times since
the end of the last war.

Among more important fea-
tures of the amendments is pro-
vision for more liberal treatment
of veterans suffering from tuber-
culosis, either incurred in or ag-
gravated by war service.

Significant of the change in the
area of operations is a provision
declaring the British Isles "a
theatre of actual war." In the
present act, based on 1914-18 con-
ditions, the British Isles was not in-
cluded in the war theatre.

Another amendment makes the
benefit of the Canadian pension
law available to Canadians who
serve in the naval, military and
air forces of the United King-
dom, providing they were resi-
dents of Canada at the outbreak
of war and remain residents of this
country.

monwealth Air Training Plan and

MODERN CHALETs ATTRACT SKIERS TO JASPER PARK

Thrilling, exhilarating holidays
await those who choose winter and
spring months for their vacations in
Jasper National Park in the Cana-
dian Rockies, according to C. K.
Howard manager of the Tourist
Bureau, Canadian National Rail-
ways. "Each year, the number of
skiers increases throughout the con-
tinent and each winter and spring
hundreds spend two weeks or more
at timberline chalets of the snow-
capped mountains in Jasper," he said.
Above the timberline at Jasper are
literally miles of open alpine
high snow banks where the skiing
terrain not only provides a count-
less variety of runs for the expert
but actually facilitates the progress
of a novice and adds to his enjoy-
ment, stated Mr. Howard.
