

FACTS ABOUT TEA SERIES—No. 1

# Tea as a Beverage

Tea first became known in China nearly 3000 years before Christ. In that country tea was greatly prized, both for its remarkable qualities as a beverage and for the almost religious ceremony attached to the drinking of it. Up to the sixteenth century, tea was used only for medicinal purposes. Even in the seventeenth century it cost \$25.00 to \$50.00 per pound. All tea caddies were constantly kept under lock and key. Today when even fine quality like "SALADA" costs less than one-third of a cent per cup, it is not surprising that the consumption of tea is increasing tremendously.

# "SALADA"

### IN MEMORIAM

MR. FRANK GEO. SILLIPHANT

Scarcely was the midnight hour well advanced when in the early morning of Monday, February 19th Mr. Frank George Silliphant, youngest son of Mr. and Mrs. Robert Silliphant, Hunter River, and a very highly esteemed resident passed peacefully away in the P. E. Island Hospital, Charlottetown.

The deceased had been in his usual good condition of health until about three days before he was taken to the P. E. I. Hospital to be operated on for appendicitis. At the hospital it was learned that his case was a very serious one, but will hope of his recovery were held out to his loved ones. For some days he seemed to be improving, but later a change set in and instead of improving he began to fail. This he continued to do until in the early morning of the above mentioned date his gentle spirit returned to the God who gave it.

Besides a sorrowing father and mother Frank was a familiarly known by everybody leaves to mourn his loss four half-brothers and three half-sisters. The half-brothers are Lemuel, William and Robert of Hunter River and Samuel of Brookfield and the sisters are Mrs. Mary Bagnall, Winnipeg, Mrs. William Martin, Penant, Sask and Mrs. John Martin, Success, Sask.

The deceased will be much missed in all of the different spheres of life. Among the young people he was a general favorite. Because of his quiet unassuming nature his gentle spirit and his kindly manner endeared himself to all. A little less than a year ago he took his stand for the Master and united with the Presbyterian Church to which he was ever loyal. Henceforth his place in the earthly sanctuary will be vacant but in the assembly of the redeemed in heaven the number will now be the greater by one.

But while Frank will be much missed among his many friends it is in the home that his loss will be most keenly felt. There having been the youngest of the family he was the one whose companionship was most sought after. He and his mother were especially good pals. They had many of their interests in common and they often sat and had long chats over the radio. Because of his being her only son Mrs. Silliphant feels her loss very keenly indeed and is almost heart broken.

She and the other loved ones will often sigh but all in vain for the touch of a vanished hand long but to no avail for the sound of a voice that is still. During the days of suffering in the hospital following his operation he was ever patient and resigned. He was seldom or never known to complain and as he looked toward the future he was ready for whatever the All Wise and All Loving Father had in store for him.

When it was evident that the end was not far away he still remained calm and unmoved. His faith in the stoning merits of the Crucified Saviour was strong. The valley of the shadow had no terrors for him. His passing was one of sweet peace.

Although all feel keenly his loss yet believing that while God rules in Heaven all must be right upon the earth all bow in humble submission saying "not my will Oh Lord but Thine be done."

The funeral which was an uncommonly large one, perhaps the largest ever seen in Hunter River was held on the afternoon of Friday, February 19th. The service was conducted by Rev. O. H. Stavers assisted by Rev. O. H. Peters.

A due to entitled, "The Old Rugged Cross" was beautifully rendered by Misses Mabel Buchanan and Rita Pickering. The service

### THE MARKETS

(Canadian Press)

MONTREAL, April 2.—A moderate demand from foreign buyers for wheat in the Montreal market today resulted in sales of 100,000 bushels and quite a few loads of oats to both the United Kingdom and the continent. The local market for cash oats was weaker at a decline of two cents per bushel in sympathy with the weakness at Winnipeg. The feature of the flour trade was the weaker feeling that developed for spring wheat grades and prices were reduced another thirty cents per barrel, which makes a net decline for the month of April so far of sixty cents per barrel and prices are now at the lowest level of the year 1925 to date. The reduction is attributed to the further depression in the Winnipeg wheat market. The demand was limited. In sympathy with the foregoing winter wheat flour was weaker and prices declined 10 cents per barrel. The demand was quiet in this direction and business marked the trade in millfeed but prices were steady. While the undertone to the market for rolled oats was easier, no change in prices were recorded. There was no further developments in the local egg situation, the tone being steady. The demand for supplies for immediate consumption was steady and a fairly active business was done in a wholesale jobbing way. The receipts were 2,803 cases against 1,765 for the same day last week and 3,267 for the corresponding day a year ago. On the large reduction in the supplies of butter available on spot and the demand from outside sources, a shortage feeling developed and prices scored an advance of 1 to 1 1/2 cents per pound. A fair trade was transacted. The receipts of butter were 515 packages against 168 for the same day last week and 509 for the corresponding day a year ago. There was no important change in the condition of the cheese market, prices being well maintained under a steady demand for all supplies coming forward. Pooled made No. 1 western white and colored were quoted at 22 1/2 to 23 cents per pound. No. 2 grades at 21 1/2 to 22 cents per pound and Quebec 20 pound cheese at 24 cents per pound. Beans were steady at 2 1/2 per bushel.

### Good News For Ailing Women

Much has been said for and against proprietary medicines by the medical profession. It will interest every woman to know that in a recent country wide canvass of over 121,000 purchasers of Lydia E. Pinkham's Vegetable Compound as to the results received from its use, the replies received showed that ninety-eight out of every one hundred women had been benefited by its use. Therefore every sick and ailing woman owes it to herself to give this remarkably successful remedy a fair trial.

### More Trouble Looked For In Coal Dispute

(Canadian Press)

WASHINGTON, April 2.—The danger of widespread troubles in the soft coal fields which may profoundly affect the coal supply in both Canada and the United States is felt in responsible quarters here. While the strike in West Virginia is confined now to the northern part of the state, there are fears that it will reach the southern part and there may be trouble in the Anthracite fields five months hence is not very bright.

The floral tributes were beautiful and consisted of—Wreath, Mr. and Mrs. Robert Silliphant; Wreath four half-brothers; Wreath, Mr. and Mrs. S. C. Thompson; Spray, Mr. and Mrs. John P. McMillan; Wreath, Hackett, L.O.B.A.

The pall-bearers were the four half-brothers, namely—Lemuel, William, Samuel and Robert; and two friends of the family, Messrs. Lemuel Neill and John Neill.

A large number of the Orangemen followed the remains to their last resting place and there conducted a very impressive service. Interment was in the Hunter River Cemetery.

one man could possibly fulfil the duties of Superintendent of Education and Engineer of Public Works. As to Prohibition the fact is that if we got \$51,000 for the sale of liquor in the past year, about a quarter of a million dollars was for that year, expended by the people in booze. The people themselves should get behind the Act, which is, he said, a splendid Act. Something should be done to stop the sale of so much liquor on the plea of illness. Ten times too much liquor is, he contended, sold for medicinal purposes. How is the situation to be bettered by introducing light wines and beer? If the people get behind the law there will not be much to complain about the evil of drunkenness.

Mr. Saunders then referred to the case of Mr. John McGuirk who tender for road making has not been accepted though it was the lowest.

Hon. Mr. McDonald said that if the question were put upon the order paper, a full and satisfactory reply would be given.

As to the Department of Agriculture, Mr. Saunders continued the Minister is a fine looking gentleman and he is admittedly one of the best in his department; but he is not always correct in his statements. It was stated that there were only scrub cattle on Falconwood Farm. In point of fact the late Commissioner had left there first class cattle and many fine hogs. He thought that school fairs and seed fairs were better for the country than Exhibitions. If we were to produce grain and potatoes from the best seed the Province would be greatly benefited. He thought it would be advisable to have a representative in the United States and in Upper Canada. We need someone in the outside markets who can give information as to the markets and prices available. In conclusion, he contended that a fairly large revenue should be obtained from the Falconwood Hospital. Party politics, apart from returned soldiers, he contended, be preferred for public position.

Hon. Dr. McMillan followed. As to returned soldiers, he said that the Government had nothing to withdraw. The Government cannot, he pointed out, deal with one class alone. It had replaced returned soldiers by returned soldiers—with but few exceptions. It is true that the late Minister of Agriculture found at Falconwood good cows and replaced them with purchased Holsteins, requiring high-class foods. The present Government did more repair work at Falconwood last year than the late Government had done in the four years they were in office. He contended that Falconwood Hospital has been an economically managed as any similar institution in Canada, and that the insane of poor families should be freely treated there, but more fees should be obtained from those whose relations are able to pay. As to the Prohibition Act, he said that it was a good law and that it was being well administered by the present Prohibition Commissioners. When they took over the management of the sale of liquor, they were able to save \$12,000 or \$13,000 a year. If liquor is to be used, it is better to have it sold through the vendors rather than by means of bootleggers. That the law has been well enforced is proved by the fact that there were fewer convictions for drunkenness last year than in any other past year. At one o'clock the House took recess.

### Legislative Assembly

(Continued from Page 1.)

He declared "got to face the situation." The money expended on the highways should be safeguarded. The improved roads of the country are going to ruin and the day by day in an auto truck and the roads should be repaired. If we cannot maintain the improved highways, we should stop work on them. The Minister of Public Works is, he admitted, all right as a private gentleman, but as a public official he is a failure. The government has not, he said, increased the land tax; but the Government certainly has increased the deficit. As to Education, Mr. Saunders concurred with the Premier that it is a public matter of the utmost importance. But to ask the people to tax themselves for education is foolish. No school should be continued when its average attendance is less than fifteen. The schools should be consolidated and the curriculum should be revised and simplified, and the books should be standardized and handed from one member of the family to the next. By doing this a great deal of money would be saved to the people. He contended that no

### Watch Your Step

Everyone of us has some one who stands on watch and tells us when danger approaches. When your eyes become tired and exhausted there is a mental guide which says to you to give the tones of your daily existence. "Watch your step."

You cannot do so if your sight is not perfect. True, you may wear glasses, but are they up-to-date? They may look it from the outside, but still be only partly correct.

Don't be forced to watch your step in this matter. Come to us for glasses and an examination of your sight, backed by years of experience.

## TODAY FRIDAY, APRIL 3rd. The showing of the New Spring Hats Continues

YOU ARE CORDIALLY INVITED TO VISIT OUR first formal opening of the New Hats for the present spring season. You will be much interested in the variety of new ideas shown—the wide range of colourings—the delightful differences in shapes.

In addition to the styles suggested in the illustrations above and below—there will be shown you some very clever models in wider brims, as well as new treatments in crown shapes.

Most of these are arrivals of the last two or three days—from New York. Come in expecting to see something "just a little different" from the usual.

# MOORE & McLEOD LIMITED

Reference was then made to the Lieutenant Governor's occupation of another than the Government House. The Bill for rent was handed to the present Government with the remark that it was for them to deal with. Government House was turned into a hospital for sick soldiers, and without spending a dollar upon it, the late Government said to the Lieutenant Governor, "There is Government House; go and take it." Government House was not fit for the Lieutenant Governor to live in; and therefore the rent of the house he lived in was paid. As to the alleged deficit and the mistake in the accounts—if mistakes have occurred it was not the first time they occurred. The Minister says the debt was at the end of 1924, \$939,681; at the end of 1923 it was \$224,000 less. So that was the exact amount added to the Provincial debt last year. The public accounts show that \$237,000 were expended on improved highways; and the liabilities were increased by \$224,000. He says that there is a deficit, the fact is that there is a surplus of \$600 over everything expended and a surplus of upwards of \$3,000 over the current expenditures of the year.

Hon. Dr. McMillan proceeded to show that the debentures of the Province issued last year had been sold at a good rate, a rate better than those of any other Province and that the deposit slip plan—the present Government in a much more economical way. And the present Government last year initiated a policy of road maintenance which would be continued. The people should do their roadwork early in the Spring. Road work should not be postponed until after planting.

Reference was then made to the Lieutenant Governor's occupation of another than the Government House. The Bill for rent was handed to the present Government with the remark that it was for them to deal with. Government House was turned into a hospital for sick soldiers, and without spending a dollar upon it, the late Government said to the Lieutenant Governor, "There is Government House; go and take it." And the present Government last year initiated a policy of road maintenance which would be continued. The people

### Quart Of Water A Day Helps Kidneys

When Back Hurts or Bladder Bothers, Also Take a Little Salt

Eating too much rich food may produce kidney trouble in a very short time. A well-known authority says the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorders.

Jad Salts can not injure anyone; makes a delightful effervescent lithia water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often averting serious kidney disorders. By all means have your physician examine your kidneys at least twice a year.
