

S. A. McDonald

Prints

New prints from England. The new prints are the prettiest lot we have yet received. The designs are the latest and newest known in the manufacture of prints. Many new patterns have been made during the past season. We are now offering a special leader at 10 cents per yard. You have often paid 12 and 13 cents for prints not as good as these. We ask you to compare our 14 and 15 cent print lines also. As we are sure they will be of special interest to you.

Ladies' Coats

Ladies' new coats. We have just received a shipment of new spring coats, in fawns and stripe effect. The new coats are a triumph of the tailors art. Our coats have been specially made for us by one of the best lady tailors in Canada and the prices are no more than that charged around town for goods that have been made by the contract system out side. Investigate our new coats they possess style, individuality and exclusiveness which place them in a class by themselves. They are made to fit. When little changes are necessary they are made by expert tailors right here on the premises. Prices \$5.90, \$8.75, \$10.75.

Perrin Gloves

Give you full value in comfort, fit, durability and appearance. Made in all styles, weights and shades for men, women and children. This trademark is your guaranty.

Thanks

We wish to thank our customers for their liberal patronage during the year 1908 and trust by our best attention to their requirements to merit a continuance of same for 1909. We also extend our best wishes for a Bright and prosperous New Year.

FLIES AND FEVERS GREATEST DANGERS

NEW YORK, March 22.—Some of the dangers former President Roosevelt will encounter in his East African trip are described in an account given by Winston Spencer Churchill, former British under secretary of state for the colonies, of his expedition, which covered almost exactly the route to be followed by the Roosevelt party. During his trip Mr. Churchill's English servant succumbed to a mysterious and swiftly fatal fever. A daily dose of 10 grains of quinine ward off malaria in the case of Minister Churchill. He describes the Uganda protectorate as an enchanted land because of forests of surprising grandeur and foliage of indescribable beauty, but cursed with malignant attributes. Every white man seems to feel a sense of indefinable oppression and Mr. Churchill says it will never be a white man's country adding. In the third year of residence even a small wound becomes a running sore. One day a man feels perfectly well; the next day he is prostrate with malaria, and with malaria of a peculiarly persistent kind, turning often in the third or fourth attack to blackwater fever.

"I can testify to the great merits of your Emulsion, especially in all diseases of a pulmonary nature. It has saved many lives that otherwise would have yielded to consumption. . . . We keep Scott's Emulsion in the house all the time and all the family use it."—MR. C. J. BUDLONG, Box 158, Washington, R. I.

Scott's Emulsion

does ALL it does by creating fresh flesh and strength so rapidly that the progress of the disease is retarded and often stopped. It is a wonderful flesh builder and so easy to digest that the youngest child and most delicate adult can take it. If you are losing flesh from consumption or any other cause take SCOTT'S EMULSION. It will stop the wasting and strengthen the whole system.

Be sure to get SCOTT'S

ALL DRUGGISTS

Let us send you a copy of Mr. Budlong's letter—this one is really wonderful—and some interesting literature regarding our preparation. Just send us a card mentioning this paper.

SCOTT & BOWNE

BIG VAUDEVILLE WEEK AT NEW WONDERLAND

The Four World Renowned Bears---Al Allen and One Armed Contortionist.

Everyone is talking about the four to open and drink a bottle of ginger trained Bears at the popular Amusement on the stage. Their feats are marvellous and people wonder how their Mistress handles them in such a capable manner. The Salome dance by "Judy" and the talking bear "Nip" are excellent features of the evenings performance. One of those pets weighs over six hundred pounds and Carrino says as this is a temperance town one of the bears will show you how.

While wild animals abound without number, the danger from them, Mr. Churchill says, is less than from the tsetse fly which when infected in a manner yet undetermined by scientists becomes a deadly assassin. The zone of the fly is confined to the trees and the bushes and near the water, and it may therefore be avoided.

According to Mr. Churchill, this deadly insect first appeared in the kingdom of Uganda in the summer of 1901 and within five years had killed two out of three of all the inhabitants, no less than 200,000 persons dying from the poison which it spread. "It might have been expected," wrote Sir H. Hesketh Bell, the governor of Uganda, to Mr. Churchill in reply to a query on the subject, "that, even though the negroes showed inability to grasp the theory of the transmission of disease by the agency of insects, the undeniable deadliness of the countries bordering on the lake shore would have induced them to flee from the stricken land and to have sought in the healthier districts inland a refuge from the pestilence that was slaying them by thousands.

An extraordinary fatalism, however, seems to have paralyzed the natives, and while deploring the sadness of their fate they appear to have accepted death almost with apathy."

Mr. Roosevelt said yesterday he did not intend to leave Oyster Bay a gain until Monday next, when he and Mrs. Roosevelt will go to Hoboken to inspect the steamship Hamburg, on which he is to sail for Naples. President Taft, who is to visit this city today and tomorrow, and the former president will not meet unless the former travels to Sagamore Hill.

"I saw a smile on a poor man 'twas given, And he was old. The sun broke forth, I saw that smile in heaven Wrought into gold. Gold of such luster never was vouchsafed to us; It made the very light of day more luminous.

"I saw a toiling woman, sinking down, Footsore and cold. A soft hand covered her—the humble gown, Wrought into gold, Grew straight imperishable, and will be shown To smiling angels gathered round the judgment throne.

"Wrought into gold! We that pass down life's hours So carelessly, Might make the dusty way a path of flowers If we would try. Then every gentle deed we've done or kind word given, Wrought into gold, would make us wondrous rich in heaven."

CONSERVATIVES ENDORSE RESOLUTION.

OTTAWA, March 24.—Conservative members enthusiastically endorse Mr. Foster's resolution declaring that Canada should share in the responsibility and financial burden necessary to provide adequate coast defence. The Government, it is announced, have been considering action regarding contributions to the Imperial Navy, but owing to various diplomatic and financial complications, no course has yet been decided upon. However, the Government realizes its duty, and the whole question regarding coast defence and contribution to the navy is now being given thoughtful consideration.

GREEN SICKNESS

A disease of young girls. Interesting and suggestive a vice that all should read

Many mothers will echo the conclusion expressed in a very interesting and suggestive letter written by Mrs. Zacharia Pollard, of Grand Bay. "It is one of the illusions of motherhood that once the diseases of childhood have been successfully passed a smooth road lies before their dear ones. Boys bruise themselves, or perhaps break a limb, but the physical history of the young girl is subject to so many dangers, it is only when some great one has been successfully overcome that we realize how many dangers there are. My eldest child, a daughter, just as she had entered upon the sixteenth year, suddenly developed weakness, her color faded, some unpleasant heart symptoms indicated a lowered vitality of that organ, but strange to say she appeared plump. The bodily functions were obstructed, and a waxy or pallid, or yellowish skin gave her a ghastly look. The doctor's tonic failed to improve the symptoms, we decided to try Ferrozone so highly recommended in the newspapers. It was probably three weeks before any change was noticeable, but once that Ferrozone checked the running-down process the upward advance was rapid. I suppose if I had neglected to give her Ferrozone she would have fallen into permanent ill-health, as it is I am deeply thankful that Ferrozone has completely restored my daughter to vigorous robust health. No tonic so nourishing, as strengthening, as Ferrozone. It gives you a grand appetite, brings fine color, a healthy glow to the cheeks. I think, you gain in weight. Think it over, Ferrozone is just what every person in poor health requires. Sold by all druggists, 50c. per box or six boxes for \$2.50. Try Ferrozone today.

REV. GEO. JACKSON TO REMAIN IN TORONTO.

TORONTO, March 24.—The Board of Regents of Victoria College has unanimously adopted the resolution permitting the teaching of modern critical views of the Bible, promulgated by Rev. Geo. Jackson, thus confirming Jackson's appointment to the New Chair of the English Bible. Jackson was sharply criticized by Dr. Carmen because of his recent lecture. A heated controversy followed in which Mr. Jackson declined to take part. Carmen himself signed the resolution mentioned. Jackson will remain in Toronto.
