New U. S. Min. To Canada

OTTAWA, Dec. 15.—(C.P.)—Canada may shortly welcome the third United States Minister to this country, Nathan William MacChesney. The Chicago lawyer and man of public affairs has been named for the post by President Herbert Hoover. Official advice to this effect was received from Washington today by Rt. Hon. Sir George Perley, acting Prime Minister.

A Problem

ENID, Okla., Dec. 15.—(Associated Press)—The wagons are too slow or the woods are too far away. Enid's 150 jobless families are confronted with a wood shortage because the wagons which Governor W. H. Murray required to be used in relief work can't haul the fuel fast enough. Governor Murray stipulated that the wood should be hauled in wagons drawn by horses in order to provide more employment.

NOTICE

We have a full supply of hockey boots and skates of all sizes. It would pay you to come and look them over. It would be a good saving to you.

QUEEN SQUARE SCHOOL STAGES CONCERT

The Queen Square School concert held last evening in the hall of the school annex was successful in every respect and demonstrated the effectiveness of constant drill and persevering practice in the attaining of a high standard of perfection. Much credit is due both teachers and pupils.

Youthful voices blended splendidly in two choruses, "Smile Dear Ye, Smile," and "Schoolhouse Dreams," while a large audience listened with rapt attention.

In the drills particularly was careful training in evidence as the boys without trace of hesitation and in a spirit of confidence went through their formations rhythmically and with admirable precision. The little lads of Grades I and II delighted the audience with "Christmas Dolls," "Digging Snow Paths," and "Christmas Toys on Parade."

Grade IV, offered "Good Teeth for Bad," and a hoop drill, the former an interesting lesson taught by P. O. Trainor in their drive for first sectional honors and a play-off berth in the loop. If Wolverines display the same brand of hockey this evening as they did against Abbies, and if Sargeant in the nets turns in the same unbeatable net minding, then Hawks are in for a bad evening—very bad.

FRANCE FACES

months urgent needs of the treasury will call for an additional sum of about 20,000,000,000 francs (about \$900,000,000).

If it is to relieve unemployment during the worst of the winter months, a scheme of national equipment must be made effective by the vote of both chambers of parliament before January 1. An interim supply of money has to be provided to keep the wheels of administration going round.

Whether G. Chautemps forms it or not, common expectation tonight was that the new government will be basically Radical Socialist, like that of M. Herriot.

Central Prison Is Recommended For Nova Scotia

HALIFAX, Dec. 15.—It is understood members of the commission investigating jail conditions in Nova Scotia, will recommend establishment of a central prison farm or reformatory for the whole province located on an extensive tract of land. The commissioners are now holding final meetings to complete their report.

GREAT BRITAIN

stacked yellow metal bars against one wall of a room which was against another wall, another mass of yellow metal bars which represents the backing Great Britain has for its pea-green pound notes.

In most countries of the world, the United States included, gold bars thus earmarked for foreign account would be put behind an iron grating, but in the vaults of the Bank of England nothing tangible separates it from the Bank's own gold and other earmarked accounts.

Smelts Going To U. S. Markets

PICTOU, N. S., Dec. 15.—(C.P.)—Clearing house for the north shore of Nova Scotia and the Magdalen Islands, Pictou now is busy handling smelts for the United States markets.

About 120,000 pounds were shipped during November at six cents a pound to the fishermen from the buyers. It is reported that buyers in New Brunswick and Prince Edward Island are paying only three and four cents the pound.

Catches were heavy during the first two weeks of December but the New York market is showing signs of weakness and present indications are that there will be a drop in price soon.

PARIS, Dec. 15.—(A.P.)—Edouard Herriot, retiring Premier, tonight declined an offer of Camille Chautemps, Premier-designate, to become Foreign Minister.

LOOKING 'EM OVER

(By Tee)
Tonight's Game

Wolverines, as cocky as a cocked hat—and they have reason to be—meet Hawks, that ambitious aggregation from Moncton on Halifax ice tonight, in what some fans would term a crucial contest. Should the Nicklin clan take the Vairmen tonight, they will have won undisputed leadership in the Maritime Senior Hockey League, replacing Abbies who have been riding on the crest almost all the way. And further still, a Moncton win tonight will make the going a little difficult for the Red Shirts in their drive for first sectional honors and a play-off berth in the loop.

"Edged In Black"

Just received a post card from the home of the Hawks, and signed "Hockey Fan." Oh, yes, I almost forgot to mention the "mis-sive" was edged in black on one side and on the other a short discourse on hand-picked referees, etc. Everybody is welcome to their own opinion and why not express it, even by post card or otherwise. But what gets me, why edge the card in black. This department is O.K. and the Abbie puckmen are enjoying the best of health. In fact the Red Shirts are more alive than ever and just a-rarin' at the bit in anticipation of their coming game with the Nicklin clan Monday night next.

Says Abbies Were Justified

An article in the New Glasgow News with regard to the referee situation has the following to say in part: "In suspending Ernie Mosher, crack centre ice star of the Hal-

More Advantageous To Ship Via Ports Of St. John And Halifax

H.C. Schofield, President Of St. John Harbor Board Effectively Answers New York Article.

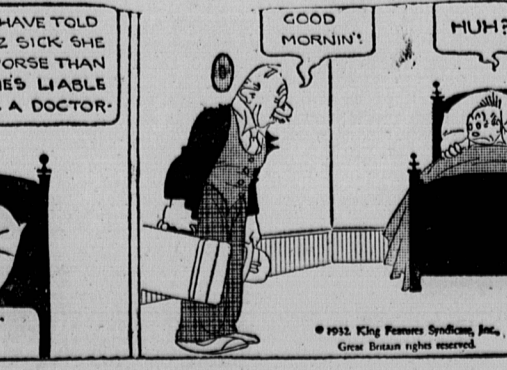

SAINT JOHN, Dec. 15.—New York interests are apparently determined to continue their efforts to discredit the ports of Saint John and Halifax through misrepresentation and the dissemination of inaccurate information," H. C. Schofield, President of the Saint John Harbor Commission, said tonight with reference to an article published in New York on Sunday. The article stated that the British wheat preference was only two cents per bushel, that only 2,324,000 bushels of the 1931 crop were handled at Saint John and Halifax and that shipment of grain through Canadian Atlantic ports instead of through United States ports will result in higher prices to the British millers and consumers.

"Surely," said Mr. Schofield, "they must know down there that the preference is six cents, not two cents. It might also be well to point out for their information that during the calendar year of 1931 Saint John alone handled 9,914,667 bushels of Canadian grain and that this year we already have more than 8,000,000 bushels booked for export through this port with upwards of 2,000,000 bushels in storage and on track, and more than half a million bushels already shipped.

HOW LONG?

Brake—"You look worried, Jim, and terribly pale. What's the matter?"
Drake—"The dealer who sold me my second-hand car the other day said it would last me a lifetime."

BRINGING UP FATHER

Hockey President Issues Warning To All "Tourists"

(Canadian Press)

MONTREAL, Dec. 15.—Frank Greenleaf, of Montreal, President of the Canadian Amateur Hockey Association, today issued a warning to Canadian hockey players who are migrating to the United States to play on amateur and in-factory and has been the subject of considerable controversy among the clubs. The Charlottetown Abbies seem to be raising more of a stir than the other two, however, and it is felt that they have good reason for complaint in view of the fact that they occupy the top berth on even terms with the Moncton Hawks. It isn't logical to think that a team winning games consistently would resort to protests unless there was something radically wrong. After gaining a 1-0 decision over the Hawks at Moncton last Wednesday night, the management of the Abbies let it be known that they thought they were the victims of several penalties handed out that they didn't deserve, and that the refereeing in general was of a partial nature. Following closely on this protest, they again voiced their disapproval of the decisions of the arbiters in their game against the Wolves on Friday night.

Most Valuable Player Award To Big Three

MONCTON, Dec. 15.—The announcement has been made that the Halifax Queen Hotel trophy, donated several years ago to the Eastern Nova Scotia hockey league, to be awarded to the player most valuable to his club and showing the best sportsmanship on and off the ice, will go into competition this winter among players of the Maritime Hockey League. The announcement will be of interest to all players, managers, coaches and supporters of the teams in the loop. Officials of the Moncton Hawks have been notified by the trustees, J. D. ("Jack") Learmont, of Truro, Waldo Molr and K. Rathburn, that L. Davis, of Halifax, donor of the cup, has agreed to the trophy being transferred to the main Maritime circuit and the local officials have been asked to appoint two newspaper men as judges for the award. Two of such representatives will be appointed from each of the three cities involved in the league.

NATIONS

(Continued from Page 1)

Bitter Feeling In U. S.
The bitter feeling engendered in Congress by France's refusal to pay manifested itself afresh today in legislative proposals to hamper defaulting nations. Senator Kenneth D. McKellar, Tennessee, Democrat, offered a resolution to impose a \$5,000 visa fee on American passports for defaulting countries. Representative Joseph J. Mansfield, Democrat from Texas, offered a similar plan, with the fee at \$5,000 and the life of the passport only 60 days.

Without Any Flourish

LONDON, Dec. 15.—Great Britain today paid its war debt instalment of \$95,550,000 in gold to the United States. It was a routine banking transaction. No Flourish of a gold pen, no clicking cameras, no grouping of high officials marked the event which may be epochal in international financial relationship, but it was only a routine banking matter to the men who carried the transaction to completion at the Bank of England while federal reserve officials in New York and Washington acted for the United States government.

STIPENDIARY MAGISTRATE'S COURT

A case of driving to the common danger which was brought before Stipendiary Magistrate MacKinnon yesterday was dismissed. On the day previous a man charged with driving at a speed of more than twenty-five miles an hour on Hillsboro Bridge was fined \$15 and costs or 20 days.

No Necessity To Close The Separate Schools

(Canadian Press)
LONDON, Ont., Dec. 15.—Roman Catholics of London are confident today there will be no necessity to close the separate schools of the city within a short time, as indicated yesterday by Albert Murphy, chairman of the board. Despite acknowledged problems of financing, laymen believe any alarm is dissipated by the statement of Bishop Kidd last night that before separate schools would close an effort would be made to supplement tax revenues with private subscriptions. Optimism is also taken from a statement previously made by Rev. Father J. Cook, superintendent of separate schools and indicating there was no need for alarm.

To Quit League Leafs Defeat Senators 4 To 1

(Canadian Press)

MEXICO CITY, Dec. 15.—Mexico intends to withdraw from the League of Nations, it was learned tonight from a semi-official source. Reason for the decision, it was explained, is the necessity for economy. An official declaration is expected from the Foreign Office tomorrow.

The cost of membership, ranging from \$60,000 to \$90,000 a year, is considered too heavy to be borne by Mexico, which is now struggling to balance its budget, the unofficial source said.

Mexico entered the League a little more than a year ago. Recently the Mexican office in Geneva was closed for reasons of economy.

MAPLE LEAF GARDENS, Toronto, Dec. 15.—Toronto Leaf's "kid line" returned to form tonight and the world champions won their way into second place in the National Hockey League International section with a 4-1 win over Ottawa Senators.

Ottawa scored their only goal in the third when Bill Touhey snapped one from the defence past Chabot.

The Leafs youthful front line trio accounted for two of their goals. "Busher" Jackson tallying in the second from Charlie Conacher and reversing the scoring method in the third. Ken Doraty had put the Leafs in the lead previously after a thrust with Grade and Blair. Frank Clancy in scoring the final Toronto tally had no one but goal Beverage to beat, five Senators being caught up the ice.

The lineup:

OTTAWA	TORONTO
Goal	Chabot
Defence	Levinson
Defence	Day
Centre	Blair
Wing	Gracie
Wing	Doraty
Toronto Subs—Homer, Conacher, Clancy, Primeau, Cotton, Jackson, Bailey.	
Ottawa Subs—Cox, Starr, W. Kilrea, Bourgeault, Forslund, Howe, Milks.	
Referee—Ed Deigmearit and Odie Oglehorn.	

Gets Fast One

AMHERST, Dec. 15.—George M. Holmes, well known live stock exhibitor, today secured control of Rocky Mac, a promising stallion, sired by Melting Pot with Miss Isabel MacGregor, 208 as the dam. He secured the stallion from S. A. Rockford, who acquired the possession of three standard bred and a hackney. Miss Aubrey, Margaret Mapes and Minnie Stratton are the standard bred. All have had some track experience. Mr. Rockford is making his quarters in Amherst at the present time.

Employment Much Higher

TORONTO, Dec. 15.—Employment in Canadian tanneries is much higher than a year ago and it seems reasonable to anticipate steadily increasing numbers of employees during winter and spring as the fuller benefits of empire trade become effective," stated Aubrey Davis, of Newmarket, Ont., presiding today over the annual meeting of the Canadian Tanneries Association.

Mr. Davis listed exchange conditions as a disturbing factor, along with the demand for cheap merchandise. He was re-elected President.
