STEEL INDUSTRY BEING REVIVED

CONNELLSVILLE, Pa., July 26—Thousands of glowing fires are to gleam again on Western Pennsylvania hillsides, reflections of industry's gradual emergence from the darkness of depression.

Row on row of flames are due to spring up from row on row of "beehive" coke ovens, suppliers of fuel to his majesty—steel. For as steel production hovers around the 50 per cent of capacity mark the demand for coke rises and the "beehives" get their opportunity to share in the industry's returns.

Many of the ovens have been dark for two or three years because the more modern ovens, which save by-products in the process of making coke, were able to meet steel's greatly decreased needs for fuel.

The H. C. Frick Coke Company, one of the big producers of this type of fuel, has begun the overhauling of its standard plant at Mt. Pleasant, Pa., the largest beehive coke plant in the United States. With its 999 ovens, the plant will employ 500 men. It has been idle for a year.

TWO PRISONERS "FIGHT IT OUT" GIVEN FREEDOM

GRISFIELD, Md., July 26—Magistrate Fred N. Holland has saved this community \$30 in dispensing justice in a unique manner.

Two negroes, Algie Crippin and Louise White, were brought before the magistrate on charges of drunkenness and disorderly conduct. The negroes displayed antagonism to each other. Realizing this, the magistrate ordered them to "fight it out."

Boxing gloves were provided, and a ring marked out at the waterfront. Crippin was declared winner on points after fighting for more than an hour.

Customary imprisonment for five days would unnecessarily cost the community \$30 and it was decided that justice would be satisfied and county funds protected at the same time.

1,124 STITCHES FAIL TO KEEP LIFE IN NEGRO

Police said another negro, Monroe T. Young, 38, who was arrested and slashed Judah on the head, neck, arms and body with an ordinary pocket knife in a fight over a small amount of money.

BRAVES RIOT TO CALL ON WINNIPEG MAYOR

WINNIPEG, July 26—A riot in front of Winnipeg's City Hall did not deter Miss Katherine Spence, school teacher, of Goose Creek, Tex., from paying a courtesy call on Mayor Ralph Webb.

Regardless of tear gas bombs and flying bricks, she made her way through a mob yesterday to the City Hall where a police guard halted her.

"Don't you all be afraid of me," she said, wiping tears from her eyes. "I just came to pay my respects to the mayor."

She saw the mayor. But before that she was decorated "for bravery" with a medal bearing the seal of the City of Winnipeg.

—AUTO ACCIDENT—What might have been a far more serious accident occurred at Ross' Bridge, Bedeque, on Tuesday morning. A truck was about to cross the bridge when a car decided to cross at the same time. In order to avoid the car, the truck turned aside and crashed into the bridge almost going headlong into the water below. The driver of the car continued on his way without ascertaining what trouble the other man was in. It is very dangerous for two cars to attempt to cross a small bridge at the same time and a little courtesy on the part of auto drivers would go a long way to avoid accidents.—S.

—PARKING AT NEW ANNAN RACES—There will be good facilities for parking cars on the outside of racing oval on Western side, also for a limited number on East side—also in fields at north end. The first arrivals will naturally get the vantage points adjacent to the race track. Parking will be free. No cars will be allowed on inner part of racing oval. It will be advisable for intending spectators to come as early as possible especially those wishing to remain in their cars as there is a big entry list and great racing is expected. There will surely be a big rush at both gates. The grand stand is being thoroughly repaired, new planks and posts are being put in place of those showing signs of decay. A competent man has been engaged for the past week carefully overhauling and repairing it. 2040-7-27-11.

—ST. ANNE'S DAY—The Indians of Lennox Island are making their usual preparations for the fitting celebration of the feast of their patroness, St. Anne, which this year will be held on July 30th. High Mass will be celebrated by their pastor, the Rev. John A. McDonald at 11 a. m. and the sermon for the occasion will be preached by the Rev. Robert McDonald, C.S.S.R. —NEW ORLEANS, La., July 26—(A.P.)—Strange apes reported seen in Spanish Honduras and Wyoming may provide the key to the mystery of mankind's beginning, believes Gregory Mason, archaeologist of the University of Pennsylvania museum.

Arriving here preparatory to a trip to Central America, Mason said he hoped to begin a new line of research which will show that the Western Hemisphere, and not Asia, was the cradle of mankind. He said scientists already have reported observing anthropoid apes in Spanish Honduras and that there has been found in Wyoming a creature known as Tarsius, half ape and half tree shrew.

100,000 IN NARCOTICS FOUND IN RAG BALES

NEW YORK, July 26—Six Federal agents, searching a shipment of 104 bales of rags on pier 4, in Hoboken, yesterday reported that they found 100 pounds of assorted narcotics valued at about \$100,000. They found time to open only four of the bales. They expect to find \$1,000,000 worth of smuggled narcotics in the rest of the shipment.

Once the contraband was discovered, the agents lost no time. They re-packed a couple of bales and forwarded them to a paper mill in Paterson, N. J., whither, they said, the entire shipment had been consigned. When two brothers, Lorri and Anthony Damato accepted the bales, they arrested them on charges of smuggling and conspiring to smuggle narcotics. Each was held in \$225,000 bail and in default of bail, they went to jail. A third brother, Joseph Damato, is being sought.

—SCHOOL CLOSING On the afternoon of June 29th the pupils of Savage Harbor assembled in the school room to display to their parents and ratepayers the knowledge which they had imbibed during the scholastic year. As the pupils were examined in turn in the various grades, the quick and ready answers showed that they had not failed to grasp the knowledge so carefully prepared for their learning by their teacher Hazel Corbett.

After the examination eulogistic remarks were tendered the teacher and urged the pupils to follow on with the splendid work which they had in the past.

At the conclusion of the program the pupils presented the teacher with an address and an appropriate gift.

Dear Teacher:—As the finish of the school year has arrived it is with regret that we the pupils of this school realize that our connection as teacher and pupils must now be severed. During the past three years you spent with us you were ever solicitous as to our welfare and never failed to grasp an opportunity regardless of the work entailed which would be an educational benefit to us, and it was through your assiduity and perseverance in your profession that enabled us to overcome many obstacles which we ourselves would consider insurmountable. The names of some of us will be recorded in greater institutions of learning but notwithstanding this we will be ever mindful of the knowledge which we imbibed in this school under your careful instructions. In conclusion we ask you to accept this gift as a remembrance of your association with us and we also ask you to accept the wish that the light of success as a teacher may shine on you in the future as it did in the past.

Signed on behalf of the pupils Catherine Pigott, Bernice Murphy, (Patriot Please Copy)

These are Fond du Lac river, draining to Lake Athabasca and thence to the Arctic ocean, and Cochrane river flowing to Reindeer lake and through Reindeer and Churchill rivers to Hudson Bay.
