Congratulations are being showered upon Neil Ferguson and bride of West River whose wedding took place at the Presbyterian Manse, Charlottetown, Nov. 6th. Rev. T. F. Fullerton performing the ceremony. The young couple are most popular in both West River and Hampton, where the groom formerly resided. It being quite recently that he located at West River having purchased a beautiful farm there where he intends taking his young bride to reside. The happy couple were unattended and after the ceremony drove to the bride's home at West River, where a joyous and numerous chivert crowd greeted them with rousing cheers. The Guardian joins with the many friends in extending to them the best of wishes for a happy and prosperous journey through life.

The steamer Nascopie, which reached St. John's, Nfld., two days ago, after a (three months) cruise about the Hudson Bay, brought news from the far north. An Anglican missionary, the Rev. Mr. Doughton, and his assistant, were taken on board the Nascopie at Luke Harper, the missionary suffering from the effects of frozen toes, fingers and nose. He was lost in a blizzard last March. After three weeks the Nascopie was able to transfer the sufferer to the Hydrographic Survey Steamer Minto, where medical treatment was available. The fourth engineer of the Nascopie, who was seriously ill, was also placed on board the Minto. Before leaving Charlton's Island on October 1st, the Nascopie heard from Indians that a three-masted schooner was on the west side of the island. This vessel was a Hydrographic Survey ship, *Christie Toumey*, which had been missing since early August. She had been caught by ice in Hudson's Straits and driven south from August 6th to September 20th.

The funeral of the late Mrs. William Bowman, North Wiltshire, took place on Monday afternoon, Nov. 4th, at 2 o'clock, to the North Wiltshire Cemetery and was very largely attended. The services at the house and grave were conducted by the Rev. Mr. Orman. The pall-bearers were her three brothers—William, John and Edwin Paynter of Kensington, Augustus Henry, and Albert Tremere, Hampshire, Nelson Rattenbury, Charlottetown, cousins of the deceased. Mrs. Bowman was a consistent member of the Methodist Church and was also a faithful worker in the W. M. Society. She will be greatly missed in the Church life, as well as in the home, for she was ever ready to respond to the call of duty, whenever it was needed. In the home she was always bright and cheerful, and her happy exemplary life will never be forgotten. She bore lingering sickness patiently and was never heard to murmur. She died trusting in Jesus as her Saviour and assuring those around her of her trust and confidence in the future. She leaves to mourn besides a sorrowing husband, one son and three daughters, viz: Aquilla on the homestead, Mrs. Frank Willis, Kingston; Jane at home and Florence, Stenographer in Winnipeg. She also leaves four brothers—Thos. Paynter in Annapolis, N. B.; William in Kingston, John and Edwin Paynter Burlington, and one sister, Mrs. Andrew McLeod, French River. Deceased lady was sixty-one years of age, and she was always ready and willing to dispense hospitality, friend and stranger were alike, bountifully entertained at her home.

A program of vocal and instrumental music, contributed by members of the company present, and recitations by others, rounded out the evening's entertainment. Mr. and Mrs. Trainor leave for their home Friday.

Next in interest to the Presidential election in the United States is the question—who has grown the largest turnip? The former question has been settled, the latter is yet being fought out. The latest claimant for the honor is John R. McLeod, Grand View, and his product is a turnip measuring 44 inches around the waist and weighing twenty-nine pounds. If anybody can produce a larger turnip The Guardian will be pleased to record the fact on submission of proper credentials. Claimants are not necessarily bound to send in the turnip.

GIRLS WITH LONG.

WASHINGTON, D. C., Nov. 7.—"Young women who have long finger nails with a vivid pink flush generally make good wives," today said Cosmo Blanchi, a New York manicure, before a meeting of Washington manicures. Recently a Philadelphia dentist declared girls with pink teeth made the best wives.

"This finger nail test is infallible, and psychologists will agree with me," continued Mr. Blanchi. "Young women who have short, stubby finger nails without very much color, are capable of only limited love."

"Young men who have both broad and long finger nails is generally a man of strong character and makes a good bread winner. This sort of man is very ambitious and is rather inclined to be selfish. They seldom have happy married lives, because they think too much of business."

"Engaged persons should take careful notice of these things. They are good signs to go by, and the manicure can aid greatly in matchmaking and has it in her power to rob the divorce courts of much work."

KING DIES POOR,
ST. PETERSBURG, Nov. 7.—Old, poverty-stricken, and by the world forgotten, there died the other day

in one of the public hospitals of this city, Michael de Lusignan, "King of Cyprus, Jerusalem and Syria, Prince of Armenia."

The title, an empty one in these days dates back to the crusades, for it was Richard 1 of England who, after participating in the Third Crusade, gave the island of Cyprus to one Guy de Lusignan, a valiant French knight, to rule it as "King of Cyprus."

For years the Turkish Government levied tribute upon the Prince's father, and when at length he succeeded to the title—this was before the seizure of the island by Great Britain in 1478—the Turkish authorities demanded that he should either embrace the Mohammedian faith or abdicate. He chose the latter, for his country was unprepared for resistance and he preferred to surrender his throne than abandon the Christian religion.

Collecting his large fortune he settled in Russia, his valor in war securing him promotion as aide-de-camp to the Czar.

The deposed ruler gained the ear of Napoleon III. in his plan to regain his lost kingdom, but the Franco-German War shattered his hopes. For ten years he was a victim of melancholia, and when he died he left a fortune of 20,000,000 rubles to his only son, the Prince.

The latter, then 20 years of age, squandered his fortune. His steward and his servants "robbed him faithfully," so that at the end of a year quite half of his money was gone.

TO KILL OFF BEAVERS
IN ONTARIO.
TORONTO, Nov. 7.—The woodsman in the employ of the Game and Fisheries branch of the Public Works Department are setting traps to conduct a slaughtering campaign against the beavers in the country bordering on Algonquin National Park. The protection given to the beavers in the Park has allowed them to increase at a remarkable rate and for the past few years they have been venturing abroad and setting up homes for themselves upon the great discomf of nearby farmers, whose fields are sometimes burned in to beaver ponds by the damming of streams. Last year nearly a thousand beavers were trapped and reports this year indicate a strenuous season for hunters. It is not unlikely that at this session, legislation may be introduced to pave the way for the killing of deer in Rondeau Park. Deer have been increasing steadily in this well-known southern Ontario game preserve, and they have been getting so bold that farmers' fields nearby have sometimes suffered from their visits.
