FISH SCHOONER SUNK BY STEAMER

Between Boston and St. John — One Drowned, Four of Crew Rescued.

BOSTON, July 3—(Special)—The Eastern liner Calvin Austin from Boston for St. John ran down and sank a small fishing schooner, the Chromo, in a thick fog off Boston Light this afternoon.

One man was drowned and four were saved by the Austin.

GOOD RACING AT SPRINGHILL.

SPRINGHILL MINES, June 30—The annual horse races at Springhill today were an unqualified success. The weather was delightful, and the track was in excellent condition. About fifty hundred people witnessed one of the most exciting series of heats ever seen on this track. The Association starter, Mr. Hatch, performed his duties in a manner that was above criticism.

The first race called was the 2.28 trot, in which there were six starters, viz., Little Ben, J. C. Larder, Sydney; Wilkes Boy, J. R. Sederquest, St. Stephen; Lady May, Gallagher Bros., Woodstock; Kitty T., William Teed, Sackville; May Parkside, F. Boutilier, Halifax, and Dewey Guy, Springhill Stables. It took five heats to decide this race, Wilkes Boy, May Parkside, and Dewey Guy, each winning first places.

In the second heat Little Ben, although speedy, broke badly and was distanced. Claudia Hal won the first heat, but owing to bad break at the beginning of each succeeding heat, finished third. Shamrock got first money, Claudia Hal second and Pearl Edison third.

THE SUMMARY

2.23 Trot.

Dewey Guy	1	1	3	3	2
Wilkes Boy	6	3	2	1	1
May Parkside	2	2	1	2	3
Little Ben	3	dis.			
Lady May	4	4	4	dis.	
Kitty T.	5	5	5	dis.	

Time 2.31½, 2.28, 2.29¾, 2.25½, 2.29.

Free-For-All.

Phoebon W.	1	1	1
Simasse.	2	2	2
Czarina	3	3	3

Time—2.16½, 2.16½, 2.16.

2.23, Trot and Pace.

Shamrock	2	1	1
Pearl Edison	3	2	2
Claudia Hal	1	3	3

Time—2.24, 2.20, 2.29½, 2.26½.

Minard's Liniment Cures Lumbago.

GOFF BROS.,

Sole Agents for Charlottetown.

PREPARATION FOR OLD HOME WEEK

Enthusiastic Meeting of the Committees Held Last Night The Work Well in Hand—Everything Breathes of Success—Some Some Items on the Program.

The meeting of the P. E. Island Development and Tourist Association was held last night for the purpose of finally arranging details of the program for the Home Week Celebration. Reports of sub committees were received and the program as published will be carried out in every detail, weather permitting.

Careful preparations have been made in order that the different events shall pass off satisfactorily, and our citizens and the visitors who are coming to the Island may rest assured that a grand celebration will be the result of the painstaking work that has occupied the executive of the Association for the past two months.

The parade of the societies will take place on Tuesday evening in conjunction with the firemen's torchlight procession; after reaching the park the societies will be disbanded so that the members may enjoy the fireworks display.

The children's parade will take place on Thursday at the same time as the military parade; the children will assemble at the Market Hall where they will be presented with their souvenirs and these souvenirs will be a gift from the Association for the children to keep for their own use and pleasure after participating in the parade.

The regatta Committee have their arrangements well in hand and they also will arrange for the parade of decorated sail boats on Tuesday evening during the fireworks display.

Some discussion took place regarding the regulation of horse traffic in the Park on the evening of the fireworks exhibition. It will be well for owners of horses to exercise care on that evening for the program includes a collection of combustibles that will turn night into day and while providing a delightful exhibition for the human spectators will probably cause horses to think it safer to be some miles away from the scene of action.

It is evident that a great many people are coming. A letter was read from the President of the P. E. I. Association in Boston saying that a poll taken at a recent meeting showed that one half of the members of that Association were coming to Charlottetown for Home Week. Arrangements were made re providing transportation from Pt du Chene, and accommodation for visitors on arrival in Charlottetown.

President Hughes has written regarding procuring free transportation of volunteers from country districts to Charlottetown for the military display on Thursday, the 27th inst., and also to have Canadian cruisers come to this port during Old Home Week.

DELEGATES TO THE CHURCH CONVENTION

The following are among those to attend the Church Convention and their entertainers.

His Lordship Bishop Worrell and Mrs. Worrell, Government House.

Rev. W. J. Armitage, A. B. Warburton.

LARGE MEETING OF NATIONAL COUNCIL

In the College Hall Last Night Listen to Able Papers and an Address on Tuberculosis.

The meeting of the National Council last night was the most successful of the week. The Assembly Hall of P. W. College was filled to the doors with an attentive and appreciative audience who listened with much pleasure to the papers and addresses of the evening.

The chair was occupied by His Worship Mayor Kelly who very happily presided.

The papers by Lady Drummond and read by Miss Derrick on The Council and by Mrs. Boomer on The Local Council in the Municipality were able expositions of the Council in its national and local spheres setting out the guiding idea of this great organization of women and its application.

The chairman appropriately introduced Dr. Bryce, Chief Medical Officer of the Dominion, in a neat speech.

Dr. Bryce before beginning his address referred briefly to the good work of the Council. Speaking of the death rate from tuberculosis he quoted figures showing it formed 18% of the total death rate of P. E. I. or rather more than in the other provinces. He pointed out the differences between smallpox and tuberculosis. The latter must be dealt with on a broader basis than the former. There are about 500 consumptives each year in P. E. I. It has been proved that each one of those can be cured. Shall we then do it? In Germany, which has led in this matter, over 50% of the patients are permanently cured. In P. E. I. where the people are much wealthier it can be more easily done. Where are the patients to be sent to be treated by the doctor? He pointed out that the remedy was the building of a sanitorium and explained how such are supported in other places. At the sanitorium the patient is given plenty of fresh air and massage by attendants, and he gradually grows stronger day by day. The disease must be treated on the basis of pure science. He asserted that the Women's Council for $1000 could start a sanitorium where a half dozen persons at a time could be cured. By establishment of such an institution 50% of those dying each year can be saved while further infection can be prevented. Another practical question was the cleansing of the houses where tuberculosis had existed. He outlined the way by which it could be done under the supervision of the Board of Health. The address was a thoroughly practical one and received hearty applause.

Appropriate music was also given during the evening.

A vote of thanks moved by Dr. McNeill and seconded by Hon. Arthur Peters, after remarks by others also, was unanimously passed.

With today's sessions the meetings of the Council close. The morning session opening at 9.30 will be for members of the National Council only.

A resolution was adopted at the Friday evening meeting of the National Council that the Historical Societies enter into correspondence with each other with a view of furthering historical research and an interchange of paper and that Miss Allan be appointed secretary to report at next meeting.

Saturday morning Mrs. Boomer's report on the Women on School Boards elicited an animated discussion before adoption.

Letters were read from Lady Aberdeen expressing regret and explaining her absence also asking for addresses of all the delegates. A standing vote of thanks was passed for her kindness.

Miss Peters and Mrs Gardiner also submitted reports.

The former made particular reference to Prince Street School grounds.

Dr. Ritchie was Convenor of a committee to correspond on the condition of the public health, etc.

When the vote of thanks was being passed for the delightful luncheon and attentive waitresses a vote was also coupled to D. Schurman for Tunnel Stamps and in hearty endorsation of the Tunnel project.

During the afternoon the Monday forenoon session's work was considered and further reports were submitted and adopted. During the afternoon the visitors were taken to the tennis and golf grounds and partook of the hospitality of these clubs.

THE BATTLESHIP KNIAZ POTEMKIN

Still At Large—Torpedo Sent to Sink but Could not Find Her—Crew out of Provision—Mutiny was Caused by Revolutionary Comittee on Board.

ODESSA, July 3—(Special.)—The fact that the battle ship Kniaz Potemkin remains on the high seas in the hands of the mutineers is causing so much uneasiness here that the Government has decided to show no further hesitation in the matter, even though the measures adopted involve the loss of the ship.

Torpedo boats here have been ordered to attack and sink the Potemkin and and other boats now here will be at once reinforced.

A sailor from the battleship who came ashore today states that supplies ran out some time ago and for the past three days the mutineers have been in a state of starvation.

It has been learned that the crew of the Potemkin were persuaded to mutiny by members of a revolutionary committee who were on board.

The torpedo boat Snetelay has sailed from here with the intention of sinking the Kniaz Potemkin but the latter has disappeared and it is not known where she may appear next.

PREMIER GOUIN REORGANISES

New Department of Colonisation Created—Three New Ministers Sworn in.

QUEBEC, July. 3.—(Special)—Premier Gouin reorganized his Cabinet this morning.

J. B. Prevost was sworn in as Minister of Colonisation, Mines and Fisheries.

Turgeon was re-sworn Minister of Lands and Forests and Jules Allard Minister of Public Works and Labor.

The Tunnel Tea at Cape Traverse tomorrow.

Today is Independence Day in the United States. The death of Secretary Hay will cast a shadow on the celebration.

OYAMA'S RIGHT MOVING.

TOKIO, July 1.—Field Marshal Oyama's right has begun an aggressive movement against Hailunchen.

LOST HIS LIFE.

UTICA, N. Y., June 30—Victor Vincent's hotel at Hinckley, in the Adirondacks, was destroyed by fire today entailing a loss of upwards of $5,000. Charles Hechez, who made his home there was aroused in time, and was seen outside of the building during the fire. After the flames had been extinguished, he was found dead sitting in a rocking chair in a hall. It is supposed that he went back after some of his effects and was overcome by smoke.

IN EXTREME MORTIS.

Guest (at summer resort)—Goodbye all; goodbye, wife and children; if I don't come back—

Wife—Mercy, what's the matter?

Guest (a. s. r.)—You know my heart is weak, my dear, and I am going to ask the clerk for my bill.

Man born of woman, and most men are, are of few days and full of trouble. Life insurance helps all cases and injures none. (See The Mutual Life of New York advt. in another column.) 30d 3j
