

CHEERS FOR SAM DOYLE, BOOS FOR HARRY BLAKENEY

NEW GLASGOW, April 1.—Cheers for Sammy Doyle, and boos for H. E. Blakeney of Moncton. That's the way Pictou County officials and fans feel about the latest "hot air bubble" now being sprung by the Moncton gentleman, who has called in the Canadian moguls to overrule Doyle's statements, the finest thing Sammy has done for sport since he took over the reins of the M.P.B.

Local fans believe they see the cause of Blakeney's irritation. It is blamed on the departure of Blair Carroll to Bathurst, from Moncton, Carroll was reinstated, signed to play with Moncton, and then jumped out, Carroll took away with him the Moncton hopes for a Maritime Hockey Title.

In letters to local officials early in the season Blakeney said he would do all in his power to secure cards for Nolan, Sullivan and McLean, Blakeney says the second man to sign the document favoring the return of the hockey stars to the shmon pure fold.

A GOOD JOKE In view of the sudden turn of events and the changeable manner of Blakeney, Pictou County sports are taking his sensational reports as little less than a joke.

The annual meeting of the M.P.B. will be held at Amherst shortly. It is likely that Roy J. Bennett, President of the local club, will represent New Glasgow at the gathering.

Pictou County fans are anxious to see a change in the rules governing amateur sport in the Maritimes. The way in which some towns have captured championships in the past by importing players from the rest of the Province, does not meet with the approval of local fans. They approve of the way the matter is handled in Ontario and it would please them to see the whole constitution changed to suit present conditions.

W. M. S. MEETING-The W. M. S. of St. John's United Church, Marle, held their Annual Meeting and Mite Box Opening at the home of the President, Mrs. K. A. Webster on Wednesday evening, March 29th.

There was a large attendance of members and visitors present. After devotional exercises led by the President the financial standing was reported and found to be the best in the history of this society.

The officers for the ensuing year were then elected as follows: Pres., Mrs. K. A. Webster, Vice Pres., Mrs. J. E. Dingwell; Treas., Mrs. Everett Webster; Sec'y., Mrs. Freeman Bowley. A short but interesting programme was rendered, consisting of piano and violin selections by Mrs. A. MacGregor and Miss Beards, a duet by Marion and Gordon Coffin, solo by Margaret MacGregor, music by the choir and readings by Mrs. James E. Dingwell and Mrs. MacGregor. Daily refreshments were served by the hostesses and the singing of "Blest be the Tie That Binds" and "God Save the King" brought a pleasant and profitable meeting to a close.

Before the company dispersed a hearty vote of thanks was tendered the host and hostess.

LEGISLATURE (Continued from page 1) and the House must by now be tired of them.

At the outset he wished to compliment the Premier of the Province on the Budget he delivered the other night. He felt sure that anyone listening to the address the other night would agree that it was a splendid effort, delivered in the characteristic style of Premier

McMillan. Hon. Doctor McMillan was here interrupted by a message calling him on an urgent case, necessitating the adjournment of the debate.

The House then considered bills and on motion of Mr. Saunders a bill for an act to incorporate the St. Eleanor's Electric Light Co., Ltd., was read a second time and committed. Mr. Dennis in the chair. The bill was agreed to with amendments.

On motion of Mr. J. A. McDonald the bill for an act to vest certain lands on Township Number 21 in James MacLean, was read a third time and passed.

House adjourned at 5:30 to meet again at eight o'clock.

On the House meeting at eight o'clock Hon. Dr. McMillan resumed his debate on the Budget. He took issue with it said long before the Premier had finished he was speak-

ing to empty seats. When the press had left no doubt in the minds of his hearers and would leave no doubt in those who read it that Premier Stewart when he delivers any speech in the House, at least, makes himself understood by all, and leaves no doubt as to his policy or attitude on any question.

That is why, he said, we are all proud of our Leader. It is one reason why the Government has been successful-why there is harmony among the existing Government. We don't stand with daggers drawn. The harmony which prevails in the Government stands in strong contrast to the spirit which pervades the late Liberal administration.

The saying that "A house divided against itself cannot stand" is well known. In a home where there is no harmony things do not go along very well. A crash sooner or later is an inevitable result. This holds equally true to Governments. There was the greatest discord in the Bell Government. This is not to be wondered at when the non-acceptance of the many things heard boasted of on the floor of the House, are considered.

The Honorable the Leader of the Opposition in opening his debate the other night extended sympathy to the Premier. The Honorable gentleman was but wasting his time. The Honorable Leader of the Government needs no sympathy. The man who stands at the head of the Government who is able to present records to the country as the Stewart Government can present now in its final session needs no sympathy. A man who can hold his pre-election platform in his hand and prove that there is not a plank in that platform which he has not endeavored to fulfill, stands in a very proud position and needs no sympathy. Compare that record to that of the late Liberal Government during its last session. Could they stand up and declare they had fulfilled their pre-election promises? Not so. On the contrary they violated them. The most important promises they made-the very ones by which they won the election were the first they violated when they gained the reins of power. You know, he said, what I refer. Premier Arsenault in going to the people said that \$75,000 additional was needed for teachers salaries. The Bell Government decided this, declaring that there was no need of \$75,000 extra taxation but that by economy they (the Liberals) could accomplish this without added taxation. This is one of the promises they broke. As for the promise of a road program, he said, the people on an improved and good roads policy, every opportunity was launched against that scheme, but when the Liberals came into power they adopted that policy.

The Leader of the Opposition says we can't initiate anything, that all schemes come from the Liberals. I might ask where did the Liberals get their good roads policy of 1919. It was adopted in its entirety from Premier Arsenault. A scheme-a damnable scheme-which they (the Liberals) said would ruin the country.

Hon. Doctor McMillan was here interrupted by a message calling him on an urgent case, necessitating the adjournment of the debate.

The House then considered bills and on motion of Mr. Saunders a bill for an act to incorporate the St. Eleanor's Electric Light Co., Ltd., was read a second time and committed. Mr. Dennis in the chair. The bill was agreed to with amendments.

On motion of Mr. J. A. McDonald the bill for an act to vest certain lands on Township Number 21 in James MacLean, was read a third time and passed.

THE MARKETS MONTREAL, April 1.-The export market in grain in the Montreal market today was rather inactive, there being only sales of a few loads of wheat overnight with foreign buyers for nearby shipments.

There was no improvement in the demand for cash grain in the local market but the tone of the market was firm and prices were unchanged. The flour market was without any new feature to note, business in spring and winter wheat grades being quiet and prices were steady.

The millfeed market was fairly active and the undertone was firm. The demand for standard grades of rolled oats was quiet and values were unchanged. The undertone to the egg market continued easy owing to the liberal supplies coming forward, but there was no further change in prices. The receipts were 2,663 cases. Owing to the continued very limited supplies of butter available from first hands on spot there is practically no wholesale market for present as the bulk of the sales being made have to be confined to lots ranging from ten to twenty five packages, and therefore it is very difficult to quote actual wholesale prices.

Sales were made in some cases at 45c and others at 50c per pound. The receipts were 322 packages. Extreme dullness again marked the cheese trade but prices were unchanged. The receipts were 160 boxes.

Maritime Stars Are Going Good BOSTON, Mass., April 1.-Johnny McIntyre, formerly of Glouce Bay, N. S., a welterweight boxer, is now making his home at Augusta, Me. McIntyre was recently knocked out in a Boston preliminary by Hilario Martinez, a Spanish fighter. He had been previously stopped by Buddy Clark of Salem and Harry Kid Brown of Philadelphia. Billy Groff, who appeared in a number of bouts in the Maritime Provinces, including Halifax, is also located in Augusta.

Government. Hon. Dr. McMillan gave a forceful expose. The professors and teachers are not fair enough, he said, they should be given a living wage and hoped the day would come when the Government could be in a position to deal favorably with them.

Speaking of Public Health, he said, he had been one of a committee that went to a caucus of the Bell Government asking for \$500 for the Children's Aid Society. They were met with refusal.

When the returned men went to the Bell Government for a grant to entertain the help to the British "Crows" they were refused. The first function of a Government is the education, health and safeguard of the people. That is the Policy of the Conservative Government.

Mr. MacNitt the next speaker spoke very briefly and said he would postpone his remarks until a later date, as the hour was growing late.

House adjourned at 11.30 to meet Monday afternoon at 3 o'clock. When the House met at 8 o'clock Mr. Saunders objected to Hon. Dr. McMillan continuing his debate, quoting rule 30 as proof for his objection. The Honorable speaker overruled the objection.

Everybody but one man, the Premier, is entitled to the credit of the Province receiving the \$80,000 grant is the statement of the Leader of the Opposition. The act under which this was obtained was passed in 1919. The same opportunity of getting it was when the Liberals were in power. They should have got it but they said they were doing nothing. They could accomplish nothing. When they wanted money they took a different plan, they went into the pockets of the tax-payers. It is nonsensical for them to have this money come into the province when the Stewart Government is in power.

The Leader of the Opposition says that every year something was done in regard to these claims. Only once when they were in power, he said, was it discussed on the floor of the House. It ended in the Speech from the Throne. The Honorable speaker then proceeded to prove that by a statement by Premier Bell "that he received very little help from the legal minds on this side of the House" that the Liberals did very little in regard to the claims of the Province.

He next dealt with the criticism aimed against the Government for having no Minister of Agriculture. The Premier assumed more work with no pay. This Government does not believe in paying themselves first as did the Liberals. The Premier's explanation is sufficient for the people. We hear no complaints from those most interested in the farmers, he said. This differs from the days of the Bell Government when indignation meetings were held by the farmers.

The Honorable Leader of the Opposition deplored the non-existence of the seed sirs. These, he said, stated Dr. McMillan, were cut out by the Government of which Mr. Saunders was a follower.

Continuing his debate, the Honorable member from Charlottetown highly eulogized the work of the Women's Institutes, 133 of which now exist on the Island, and fifty or sixty of which were organized since the Conservatives came into power. They are a wonderful institution, especially on account of the interest they take in education.

He objected to the Leonardwood Farm being maintained as an Experimental Farm and corrected figures submitted by the Leader of the Opposition.

In discussing the closing up of the Technical School, and the criticism aimed against the Dairy Superintendent, Dr. McMillan showed that the quality of butter and cheese has gone up in the past few years. He defended the short courses and showed how results have been obtained thereby.

On the dismissal of returned men, Honorable Dr. McMillan informed the Leader of the Opposition, that if he wanted, to know
