- *Livestock Marketing Board loading hogs during week of April 17th as follows: Monday afternoon; Montserrat, Carleton Place, St. Theresa, St. Mira, Souris, St. Peter's, Morell, Mount Stewart, Bedford, Murray Harbour, Murray, Ugg, Millville, Charlottetown, North Wilshire, Hunter River, Breadabane, Kinross, Supernade, Kensington and Albany. usual hours. All Clubs in Western Prince as usual. 4-14-11.

TORONTO, April 13 (CP)—European invasion rumors floated about Toronto tonight in the wake of reports that a purported German broadcast had said an Allied landing had been made at Canada, France.

The broadcast was not reported from the usual listening posts in Canada, the United States or elsewhere.

There was no Allied confirmation of this reported enemy statement. The fact the report was only heard in a few places in Canada led to some belief unofficially that the broadcast might be some kind of hoax.

A report sent to the dominion meteorological bureau at Toronto from a northern weather station reported receiving a broadcast saying a landing on the French coast had been made by a large number of Canadians.

A similar report came from London, in western Ontario, where a listener reported hearing a broadcast purporting to say a landing had been made by Canadian forces near Colaport, France.

Another report along the same line came from a listener at Malton, Ont., near Toronto.

Such a transmission had not been heard on regular German stations, and this raised a marked question as to the authenticity of the purported German broadcast.

However, the Germans in the past have issued reports of invasion a number of times in the occupied countries to reveal their secrets.

On the other hand, the Allies have warned of such tactics. They are using the radio steadily as a weapon in the war of nerves leading any invasion attempt.

There was some belief that the report of a Canadian-led invasion had been made by a German radio station in an effort to see what Nazi managers would be able to do to meet such a threat.

Prime Minister Churchill warned that the invasion of Europe would be a long and bitter struggle, and that the Allies would be many false alarms, many hits and many dress rehearsals.

New Coal Order Is Coming Soon

OTTAWA, April 13 (AP)—Munitions Minister Howie said tonight in a statement that a new order affecting coal consumers and dealers in the central and eastern provinces will be announced within a few days, and added that sufficient coal will be available for every Canadian home next winter if householders repeat their "spend" cooperation of this winter.

The supply of Canadian and U.S. coals will be approximately the same as last year, but the receipts of low volatile bituminous coal (Pocahontas type) in household sizes will be lower because of increased war demands.

In New Brunswick, Nova Scotia and Prince Edward Island sufficient Maritime coal will be available for all householders using bituminous, and it is expected that sufficient anthracite and coke will be made available to carry the consumers of such fuels over the colder months of the winter.

Island Member On Tourist Committee

OTTAWA, April 13 (AP)—Personal tourist advisory committee for Canada was announced today by the minister of tourism.

Speaks In Support Of 6th Victory Loan

See Many Encouraging Factors But Hard Fighting Ahead.

TORONTO, March 13 (CP)—The war, United States Navy Secretary Frank Knox warned tonight, "is far from won."

In fact, "the period of greatest sacrifice still lies ahead," he said at a dinner connected with Canada's sixth victory loan which opened April 12.

The two major Axis powers still hold their main fortresses intact and the roads to Berlin and Tokyo will be "long and bloody," he said.

The Navy Secretary, introduced to the gathering by Canada's Navy Minister Angus Macdonald, conceded that great encouragement was to be found in the current trend of the war.

Now is the time, he said, for the peoples of the United Nations to put forth "our utmost effort" while we have the run on the run.

He stressed the need for continuation of such inter-allied cooperation into the post-war era, particularly between the British Commonwealth of Nations and the United States.

Responsibility for nurturing this relationship among English-speaking peoples lay largely with Canada and the United States.

Mr. Knox said he advised that all similarities, rather than differences, between the British and American peoples be emphasized by writers and public speakers.

"For the peoples of England or Canada to regard those qualities of Americans which you don't like, and, of course, they are numerous, serves no useful purpose now."

"In unity and understanding we have met the challenge of global war. In unity and understanding we must meet the challenge of global peace."

Hull In Favor Of St. Lawrence Seaway Project

WASHINGTON, April 13 (AP)—State Secretary Cordell Hull was disclosed today to have thrown his official support behind a move to win congressional approval at this session for the \$421,000,000 St. Lawrence seaway and hydroelectric project.

Chairman Josiah Bailey of the Senate commerce committee reported Mr. Hull has written him recommending enactment now of legislation that would authorize construction of the huge development, immediately after the war.

"The enactment of this bill now," Mr. Hull wrote, "would provide the authorization for undertaking which would make an important contribution to the post-war period in providing for the expansion of waterpower development and for greater efficiency in transportation, as well as providing employment on useful and essential public works during the period immediately following the war."

In making the letter public, Senator Bailey said he personally believed the project involved a treaty between the United States and Canada, and as such could not be legally sanctioned by Congress through passage of a pending bill introduced by Senator George Aiken (Rep., Vt.).

A treaty requires two-thirds approval of the Senate and the Senate rejected the St. Lawrence project in treaty form in 1934.

VERSATILE FISH

War Situation Last Night

By Kirke L. Simpson, Associated Press War Analyst

Nazi hopes of halting the Russian four-army Ukrainian juggernaut at the Galati gap entrance to the Danubian plain in Romania are reflected in an otherwise gloomy summary of the east front military situation broadcast by the authorized spokesman for the German high command, Lt.-Gen Kurt Dittmar.

His analysis as picked up by American radio listening posts tends to confirm the impression that the decisive battle of the opening Red Army Balkan invasion campaign will come along a 40-mile stretch of the lower Siret River between Galati and the Carpathian foothills west of Teceu.

Dittmar vigorously challenged what appear to be rumors current in Germany that Romania and Bulgaria are to be left to their fate. He reported "stiffened" Nazi resistance west of the Prut although admitting the difficulties of establishing "a firmly connected and continuous front line" in the face of the spreading Russian pressure.

The lower Siret line is the natural barrier against which the Russian plume into the Balkans via the Danube Valley must crash in time. Red forces now stand within 150 miles of Galati. They are in a position to push down both banks of the Prut and Siret. There is no other defense although the Galati-Teceu line has the marking of a powerful road-block front to guard the entrance to the Danube Valley and the main Romanian oil wells.

It seems obvious that Russian plans call for a quick cleanup in the Crimea in order to concentrate at least three of the four massive Ukrainian armies for the Balkan invasion drive. It could have another meaning, however, suggested by the Russian air bombardment of Constanta, chief Romanian Black Sea port.

Once the Nazis have been rolled back behind the Danube-Galati gap line as the German military command expects they will be, leapfrog operations along the coast to gain a foothold in rear of the lower Danube should be possible. An attempt to turn the sea flank of that line might prove less costly than a frontal attack.

Russian bombers hitting Constantinople also were ominously close to Bulgaria. They tended to serve notice on Rumania that Russian-Bulgarian peace in the midst of war is on its most precarious footing.

Two R. C. A. F. Fighter Pilots Awarded D. S. O.

OTTAWA, April 13 (CP)—Award of the Distinguished Service Order to two top ranking R. C. A. F. fighter pilots, Wing Commanders R. W. (Buck) McNair of North Battleford, Sask., and Hugh Godefroy of Toronto—both of whom already have won multiple decorations—was announced tonight by the R. C. A. F. with a series of lesser decorations.

McNair already has won the D. S. O. and the Victoria Cross. Godefroy has won it twice. McNair becomes the most decorated flier who has spent his entire operational career in the R. C. A. F. and is topped only by Flt. Lt. George Beurling of Verdun, Que., who won most of his decorations while a member of the R. A. F.

Also announced was the award of the Bar to the D. F. C. to Sgt. Ldr. George G. Keefe of (167 Squadron) Charlottetown and the award of D. F. C.'s to Flt. Lt. J. A. H. De La Faudon of New York; Flt. Lt. K. R. Sinton of Plaster Rock, N. B.; PO V. I. Gerrill of Oreston, B. C.; PO R. H. Whitt of Winnipeg; and PO J. E. Williams of Grand Rapids, Mich.

Award of the D. S. O. to McNair and Godefroy tops the careers of the R. C. A. F.'s highest scoring fighter pilots.

McNair, who for the past few months has led a fighter wing, has bagged 16 Nazi planes himself, while his wing has brought down 13 since he took over. McNair won his first decoration after shooting down five planes over Malta. After a six months' leave in Canada, he returned to England, quickly shot to the top.

He was awarded the first bar to his D. S. O. after he had bagged a score of 15 victories, and his second bar shortly after he took command of his fighter wing.

Godefroy also leads a fighter wing, which has shot down 28 enemy planes while he has been in command, one of which he bagged himself. Before assuming command of the wing, Godefroy accounted for at least eight enemy aircraft, and three enemy locomotives picked off on sweeps over occupied territory.

Flying Spitfires, his wing has been giving fighter cover for American daylight bombers.

U. S. OPINION

WASHINGTON, April 13 (AP)—Nine pages of the official congressional record published while Congress was in recess are devoted to 106 messages urging that the clocks of the United States be set back an hour—and the man who received them said they are "only a drop in the bucket."

Representative Clarence Cannon (De., Mo.) termed the reaction to his proposal for abolition of daylight saving time "the most amazing demonstration in my legislative career." He is receiving hundreds of approving letters and telegrams, he said.

LICENSED TO PREACH

TORONTO, April 13 (CP)—Four graduates of Montreal Presbyterian College at a service here last night were licensed to preach. They now will spend a year in mission fields. They are: J. E. Andrews and G. Faraday of Ottawa; J. G. McDonald of Mahone Bay, N. S.; and John G. McBride of Montreal.

Annual Dinner Of Federation Last Evening

The annual dinner of the P. E. I. Teachers Federation took place last night at the Charlottetown Hotel and was lavishly attended.

The guests of honour were the Rev. Father O'Hanley of St. Dunstan's University, Dr. Steele, Principal of Prince of Wales College, and Mrs. Steele; Professor Blanchard, Vice-Principal of Prince of Wales College; and Mrs. Blanchard; Mr. E. Bradley, Secretary of the Board of Education; and the guest speaker, Dr. J. A. MacMillan.

President J. Pius Callaghan presided. Dr. MacMillan gave an inspiring address on the future of education.

In his opening remarks, the Doctor pointed out that Canadian democracy was no accident but the direct result of the high intellectual level of the people. This high level, he asserted, had been brought about by the educational system.

However, this system was far from what it should be. It is in the same position now, said Dr. MacMillan, as it was when the Royal Commission made a study of it back in 1929. It is still conducted "by one man, the principal, and one secretary, and one stenographer."

It is useless, the speaker maintained, to expect any great improvement so long as public opinion is the Educational Board. A Board to be efficient must be non-political and non-biased.

But he did not consider the situation hopeless. He did not believe that a people who spent \$150,000 last year in education, and nearly \$1,000,000 in intoxicating liquor, were unwilling to spend more money for the education of their children.

He placed squarely before them, "Few people were aware," he said "that our Provincial Government paid out more money last year for Old

News Briefs

ZURICH, April 13 (Reuters)—Hitler and Mussolini have met at Hitler's headquarters to discuss evacuation of German troops from North Italy, the Lugano newspaper, Corriere Del Ticino, said today.

QUEBEC, April 13 (CP)—More than three thousand sailors and strikers will march here Sunday afternoon in honor of Major Paul Triquet, V. C., Brigadier Blais, officer commanding military district No. 5, announced today.

EDMONTON, April 13 (CP)—Edmonton's four packing plants were forced to close their gates today against further receipt of hogs. S. J. Sheppard, supervising grader of the Dominion Markets Service, announced that the plants were forced to close today because of a labor shortage and a rush of receipts.

MEXICO CITY, April 13 (AP)—With the abortive assassination attempt against President Manuel Avila Camacho, the government closed incident, federal authorities today investigated what they described as an entirely different plot against the president involving at least six persons, all more than 60 years of age.

Teachers Present Brief On Salary Grievances To Provincial Gov't

A tense feeling which pervaded the atmosphere of Prince of Wales College hall as yesterday's morning session of the Teachers Federation opened, subsided when the meeting got down to business. The proceedings were conducted calmly and without friction. The attendance was large.

After the previous day's minutes were read, it was moved and seconded by Mr. MacDonald and Miss Estelle Bowness respectively that they be adopted. The motion carried unanimously.

The brief and the salary scale schedule, both to be presented later in the day to the Government, were then read by the President, Mr. Pius Callaghan. Some explanation remarks on the salary scale schedule were made by the general secretary, Mr. J. Reginald MacDonald in the course of his comments.

Mr. MacDonald stated that he, as a possessor of a second class teaching license, had been teaching school for eighteen years and could not, by reason of his meagre salary, save enough money to take even a summer course, much less to take another year in College for a teacher's first class license.

Miss Jacqueline MacDonald advocated equality of pay for teachers of equal grade irrespective of sex. She thought also that parent-teacher requests being refused by the Government. This question, he said, was one for them to decide later.

In the event of the Government refusing their requests Mr. Nathan Beers, Murray Harbour, thought the teachers should refuse to re-open school for eighteen years and

Gets Bar To D. F. C.

SQDN. LDR. GEORGE C. KEEFER who has been awarded a bar to his D.F.C., according to an official announcement last night.

His citation said: "Keefe—'Sqn. Ldr. Keefe has always performed his duties with untiring coolness and courage. On many occasions he has escorted large formations of bomber aircraft over enemy territory achieving much success. Since the award of the D. F. C. he has continued to take part in operations with the greatest keenness and has engaged the enemy many times."

OTTAWA, April 13 (CP)—Brig. H. W. Foster, 41, of Picton, Ont., serving with the Canadian Army Overseas, has been awarded the American Legion of Merit by the United States government.

G. O. Spencer, Moncton, became organizing secretary and Mrs. R. V. Limerick, Fredericton, was appointed assistant secretary. Other officers were re-elected. Miss Augusta Mahoney, Moncton, was appointed representative on the council of mental hygiene.

I. O. D. E. In N. B. Elects Officers

FREDERICTON, April 13 (CP)—Mrs. A. T. McMurtry, Fredericton, was re-elected provincial president of the Imperial Order Daughters of the Empire at the annual meeting of the New Brunswick chapter held here tonight.

The decoration was presented as a mark of appreciation for his participation in co-operation with the United States forces in the occupation of Kiska Island in the Aleutians.

Britain And U. S. Get Tough With Neutrals

LONDON, April 13 (AP)—Britain and the United States acting in concert before the opening of the western front to choke off neutral trade with Germany—will force a showdown with Sweden tonight on that country's export of war materials to the Reich.

This further demonstration of a new "get-tough" policy swiftly followed protests against increased chrome shipments from Turkey to Germany and the seizure by Spain of German ships at Tetuan, Spanish Morocco.

The economic isolation of Eire was tightened. The United States secretary of state on mutual preferences, including the question of barrier steel and modern machinery, indicating that the Nazis still felt they could spare these items in their strained economy in exchange for vital raw materials such as wolfram and currency for foreign trade.

The moves were made amid confidences here among British joint office officials and the secretary of state on mutual preferences, including the question of barrier steel and modern machinery, indicating that the Nazis still felt they could spare these items in their strained economy in exchange for vital raw materials such as wolfram and currency for foreign trade.

The moves were made amid confidences here among British joint office officials and the secretary of state on mutual preferences, including the question of barrier steel and modern machinery, indicating that the Nazis still felt they could spare these items in their strained economy in exchange for vital raw materials such as wolfram and currency for foreign trade.

Unless these chrome shipments are suspended, the Allies will consider their entire trade policy with Turkey in addition to the recent suspension of lend-lease shipments of arms to that country.

Nazis Fight Back

Neutrals reports to London indicated that the Germans were not taking Allied moves lying down and were sending delegations to Turkey and Portugal to preserve or boost purchases.

A report from Lisbon said that Portuguese trade papers contained advertisements of German offers to barter steel and modern machinery, indicating that the Nazis still felt they could spare these items in their strained economy in exchange for vital raw materials such as wolfram and currency for foreign trade.

Thunderbolt Drive Still Speeding On

LONDON, April 13 (AP)—The Red army drove within 25 miles of Sevastopol today in the sixth day of a thunderbolt reconquest of the Crimea that brought the fall of the big ports of Feodosiya and Yevpatoriya and the capital city of Simferopol and herded the shattered German and Romanian forces into the southwest quarter of the peninsula, the Russians announced tonight.

More than 600 other Crimean towns were taken today by three speedy Soviet columns, and great additions were made to a bag of war prisoners that totalled 20,000 Wednesday night, a Soviet communiqué said.

A Leningrad Moscow dispatch said the Russian troops were speeding within 25 miles of Sevastopol, chief prize of the entire campaign without a shot being fired. The Russians said the remaining Axis forces were in mad flight to Sevastopol and Yalta, in what seemed to be a hopeless effort to escape the Soviet vengeance.

On the other far-flung Russian battle sectors there was a comparative pause except south of Odessa, where the Russians announced capture of Ovidiopol and drove the Germans across the broad Dniester estuary.

Britain And U. S. Get Tough With Neutrals
