Another Delusion Of Films Smashed

NEW YORK, May 18—Commissioner Cortlandt Starnes, of the Royal Canadian Mounted Police, who is here attending the International Police conference, had ruthlessly squelched the popular United States conception of Canada's riders of the plains, as presented by Hollywood.

Irish Free State

DUBLIN, May 18—President Cosgrave, of the Irish Free State, addressing the annual convention of the ministerial party organization today, passed lightly over the events of recent years, except to refer to the effects they have made upon present conditions here.

CONSTIPATION!

A congested colon, inactive lower bowel, result in harmful clogging, and prevent the daily movement so necessary to good health.

CHAMBERLAIN'S TABLETS

Take one to-night, and you will find there is more real relief from physical distress, more health, happiness, vitality, mental and bodily vigor in just one bottle of CHAMBERLAIN'S TABLETS than you ever dreamed of.

Eastern Guardian

CADETS IN TRAINING.—The Georgetown High School Cadet Corps is now having daily training under the guidance of Sergeant Major Ford of Halifax in preparation for the inspection which takes place on Friday, May 22nd.—A.

BASEBALL.—At a meeting of those interested in baseball held in the council chamber on Tuesday night at Georgetown, Mr. Earl Lavens was elected manager and Mr. Cecil Brehaut, secretary treasurer. The boys expect to meet the Souris Nine on June the 3rd when a real game may be looked for.—A.

A BUSY CITIZEN.—From time to time in the Press we read of different districts loudly acclaiming the achievements of people long since having passed the allotted age, in this respect we might refer to one of the residents of Georgetown. Mr. Jerriero who not only has passed the three score and ten mark, but has long since passed the four score and ten mark. On Wednesday Mr. Jerriero rowed out from Georgetown to what is commonly called the middle ground a distance of about six miles, where he spent some time fishing cod fish, landing some twenty or thirty excellent specimens, after which he rowed back to Georgetown. Having rowed in all about twelve miles.—A.

SOURIS R. R.—Farmers are well on with the planting of their potatoes. A good large acreage is being planted, but very little fertilizer is being used. Nor are there many cases of seed plots being planted. The weather is very favorable. Little or no grain has yet been sown. Oats are scarce this year with the Eastern farmers and many are forced to purchase seed oats and the price is high. The quality of the bulk oats in the merchants warehouses is not high, and unless well fanned and graded will make very poor seed oats. It is not likely the acreage of oats to be sown, will be large this spring as not much imputed seed wheat is being purchased. The cost is too high but many farmers have their own seed wheat, and of good quality too, with the high price of flour there is big inducement to sow wheat. The fishing though slack is constant, the weather being so favorable fishermen have been able to haul their traps every day, with the steady fishing the packers are accumulating quite a number of fish. At Johnston's factory, Hay River, the catches for the past week ran from 200 to 400 lbs. per boat. This factory is however doing some what better than some others. Fishermen are waiting for a storm to stir up the lobsters. They claim the weather all spring has been too calm. Quite a breeze came up Thursday evening which may help matters—Owing to the fact that the phone-holders almost all have refused to pay rental any longer, the Company at this week being forced to take up the posts and scrap the line. This line starting from Souris, North to the North Side, seven miles, was one of the finest telephone lines on the island. Great, large posts, sunk four to five feet in the ground, wires rigid, seems to have been a ploy to destroy and scrap it, but the packers, owing to unprecedented bad times, did not feel like supporting what they thought a luxury, though a necessity in other parts. Rural conditions, around about Souris, are by no means good, probably were never worse.—Joseph Currie, late Road Inspector, who spent the winter with members of his family in U. S. A., arrived at his home last week. The summer months. The improved roads are in good shape though the spring drag might be much more generally used by the roadmasters.

She Was Obligated To Take To Her Bed

Then Mrs. J. Derocher Used Dodd's Kidney Pills
Quebec lady suffered from kidney trouble and found complete relief in Dodd's Kidney Pills.

South Stukely, Que., May 18.—(Special)—That relief can be obtained from all kinds of kidney distress by using Dodd's Kidney Pills is again evidenced by the testimonial received from Mrs. J. Derocher, a well known and highly respected resident of this place. She writes:

"I was attacked with a malady that at first I did not think was serious until about the beginning of last March, when it became evident that I could do nothing. I consulted a doctor and he told me I was suffering from kidney trouble."

"I was obliged to take to my bed. I had a Dodd's Almanac in the house and read a few of the testimonials. I then bought 3 boxes of Dodd's Kidney Pills and a box of Diamond Dinner Pills."

"I can assure you that they have made me well, and the pain in my back between the shoulders is gone. I am completely relieved of my trouble."

BRINGING UP FATHER

I PROMISED MAGGIE I WUZ GONNA GIT RID OF YOU AN' I'LL GONNA KEEP MY WORD. I DON'T KNOW WHERE YOU ARE GOIN' BUT YOU'RE ON YOUR WAY.

ISN'T THAT A PRETTY CAT? MAY I HOLD HIM FOR JUST A MINUTE?

OH! LOOK AT THE DARLING LITTLE KITTEN! DO YOU MIND SIR IF I PET IT?

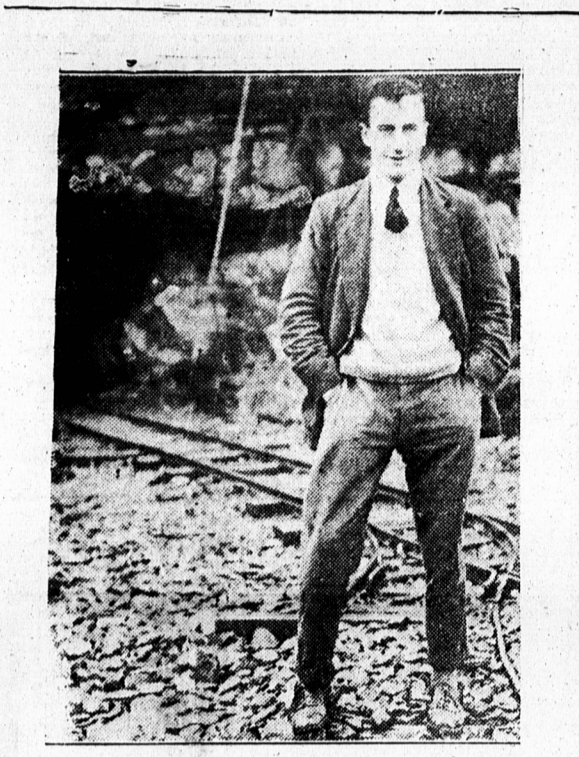

ISN'T HE JUST TOO CUTE FOR WORDS?

I THOUGHT YOU TOOK THAT CAT OUT TO GET RID OF IT.

AH! MAGGIE, I HAVEN'T GOT THE HEART TO TO PART WITH THE LITTLE DARLIN'.

DISCOVERS GREAT CAVE IN YORKSHIRE

J. H. Churchill, of Trinity College, Cambridge, at mouth of great cave system he has discovered under Ingleborough, Yorkshire. It is now possible to reach in comfort beautiful waterfall, but beyond this is a large subterranean lake and beautiful stalactite formations.

THE PRICE OF COAL —John Bull

Mr. W. Dennis

(Continued from Page 7)

putting on these taxes, the Liberals were sure to carry on, perhaps not so well as they would like, but as well as they could under the circumstances. The present Government is not howling very much now about the amount of taxes the Liberals put on. They are finding it difficult enough to make ends meet; in fact, they are not able to do it. Looking at it from a common sense standpoint, did the Liberals make the tax too high? All must admit they did not.

A great issue in the last election campaign was the seasonal indemnity. The Liberals were condemned for increasing it, and it was said that had they done the same in other business they would be behind the bars. There were men in the then Opposition who pledged themselves before their districts to resign if they did not succeed in getting the seasonal indemnity reduced from \$500 to \$200.

MR. McNEVIN: Name them. MR. McARTHUR: You can't, you are not allowed to.

MR. DENNIS said he could whisper the names if wanted. When New Brunswick was paying \$1,000 of seasonal indemnity to their members and every other Province was paying between that and \$2,000, the Bell Government thought it only fair and proper to raise the amount here to \$500. It was done at a time when the farmers were receiving \$3.25 for their potatoes, 65 cents a pound for their butter and \$23 a ton for their hay, with every other agricultural product in proportion. Today the indemnity is \$400 with butter 25 to 30 cents, potatoes 25 cents (at the present time), hay at \$11 and other products the same. Which party, then, could be charged with placing the seasonal indemnity at the highest figure?

It was claimed that when the present Government came in they found the public works in a deplorable condition. Mr. Dennis said his condition existed in 1919, when the Arsenal Government went out, and not in 1923. In the speaker's district, in Tyne Valley, the Bell Government had to build a new bridge before they touched any new projects. He referred to other bridges built at Victoria West and a lot in Lot 11. He was not blaming the Arsenal Government because they did not have the funds to look after the public works. The Commissioner at that time (Hon. Mr. McNeill) was a conscientious man, but it was impossible to keep up the work. No axes were being collected. That was the condition the Bell Government found.

HON. DR. McMILLAN: How much was expended on capital account that year? Just \$5,000 on all those bridges. MR. DENNIS: I will just pass that over to the man who will be speaking next.

HON. MR. McDONALD: Some of those bridges were not built at all. MR. DENNIS: In regard to that I might say this: We did the work that we found absolutely necessary, and we found an awful lot that was absolutely necessary. You did not find the small bridges and byways of the country in the same condition in which we found them when we came in.

VOICES: That's right. (Laughter.) MR. DENNIS: I will submit my case to the present Government engineer, Mr. Shaw, as to whether I am right. If he says I am right I will apologize to the House and the country.
