**—HOCKEY SPECIAL.—**The City Hockey Special will leave Summerside Friday, the 24th at 4 P. M. Return fare \$1.70. 1236-1-23-21

**—FOR SALE AT SEVEN MILE BAY** 1000 heads cabbage in excellent condition. Price reasonable. Lots to suit purchaser. Apply to Arnold McGrath. 1239-1-23-21

**—RACOONS WANTED—** Anyone having good dark females, adult or full grown cubs for sale, advise, stating price to Post Office Box 65, Summerside. 1250-21

**—PRETTY WEDDING—**A pretty wedding was solemnized at the home of the bride's parents, Mr. and Mrs. William Green, of Elmsdale, when their daughter, Miss Frances Reid Green, R. N., was united in marriage to Frederick Bruce McLeod, son of Mr. and Mrs. Everett McLeod, of French River, at 7.30 p. m. on Wednesday, January 15th. The ceremony was performed by Rev. G. A. D. Elliott, of Elmsdale. The bride, who was given in marriage by her father, looked very charming in a gown of ivory satin with silver slippers and the conventional veil and orange blossoms. She was attended by Miss Ethel McLeod, sister of the groom. The groom was supported by Mr. Trail Green, cousin of the bride. Mrs. Cameron beautifully rendered the Wedding March. A reception was held immediately after the ceremony at which the immediate relatives and friends were guests. The happy young couple left on a short honeymoon to St. John, N. B. On their return Mr. and Mrs. McLeod will reside at French River. The Guardian joins a host of friends in wishing them every happiness and prosperity.—S.

**—ANNUAL MEETINGS OF ANGLICAN CHURCHES—**The annual meetings of St. John's and St. Mary's Anglican Churches were held on Monday. The meeting of St. John's Church, St. Eleanor's, was held in the church at 2 p. m. There was a good representative gathering and an excellent spirit prevailed. After prayers Ven. Archdeacon White took the chair. The minutes of the last annual meeting were read and adopted. The reports of the various societies were read and showed very encouraging progress in all branches of the churches work. The financial statement showed a credit balance in the current account of \$28.79 cents. In savings account \$118.43 cents. The following officers were elected for the ensuing year:—Wardens, Messrs. Sidney M. Richardson, Horace J. Andrew; Vestry Clerk, Major F. May; Synod Delegates, S. M. Richardson, A. W. Tanton, Delegates to D. C. S. Benj. Pullman, Arthur Jones and R. R. Hunt. A hearty vote of thanks was tendered to the Sunday School, choir and other organizations in appreciation of the capable way that the work of the church has been carried on during the past year. Mr. Major May spoke in appreciative words of the rector and the faithful manner in which he has always fulfilled his duties in the parish. The meeting closed with prayer. The meeting of St. Mary's Church, Summerside, took place at eight o'clock in the evening in the new parish hall and was very well attended. Ven. Archdeacon White presided. The minutes of the last annual meeting and special meetings were read and adopted. The reports from the W. A. J. W. A., and other organizations were read and their books showed a balance on the right side which proved that they had had a very successful year. The ladies were highly commended for their untiring efforts in all branches of the work of the church. The financial statement showed a substantial increase over the previous year. Receipts from all sources for 1929, \$3,015.65; Balance credit, \$31.19; budget for 1930, \$1,982. The officers were elected as follows:—Dr. E. E. Tanton, and Mr. Ernest Mills were re-elected as Wardens for the ensuing year; Mr. L. A. B. Horne as Vestry Clerk was also re-elected; Vestry, Messrs. E. J. Hallet, George

Key, Wilfrid Lecky, Dr. E. T. Tanton, H. M. Downing, T. H. Scott, Jackson, Louis Romcke and Ernest Mills. Delegates to Synod, Messrs. H. M. Downing and George Key; D. C. S., Messrs. L. A. B. Horne, Vanlah Milligan and J. J. Enman; Parish Hall Committee, Messrs. Downing and Horne and Dr. E. T. Tanton; Sec.-Treas., Louis Romcke. Mr. Penwarden was re-appointed organist at the same salary. After the meeting the annual drawing of the bonds on the hall took place, conducted by Archdeacon White, \$750 being paid, representing three bonds and interest. A hearty vote of thanks was tendered to the wardens, Vestry and Hall Committees, for their splendid services during the past year. The meeting closed with prayer.—S.

**—PERSONALS—**  
 —Miss Noreen Johnston, Tignish, is visiting relatives at the "Dewdrop Inn," Richmond, T.  
 —Mr. Claude Morrissey, who has been visiting friends at the "Hub" returned to his home in Tignish on Tuesday, T.  
 —Mr. Emmet Callaghan, St. Louis, who has been visiting in Boston, returned home last week, T.  
 —Mrs. Michael Gaudet, who underwent a very serious operation in the Prince County Hospital, is now well on the road to recovery. Her Tignish friends wish her a speedy recovery and a safe return home, T.  
 —Miss Loretta Chalson, Chelsea, Mass., is visiting her parents, Mr. and Mrs. Peter M. Chalson, Tignish, T.

—Among those who attended the hockey match at Charlottetown on Friday last were Mr. Austin Ham-nill, John and Camdon Gardiner, Mr. and Mrs. Reggie Reeves, Harold Hollis and Earl Houston, of Free town.—S.

—Mr. and Mrs. Palmer and family of Conway, who have taken up their residence in Summerside are being warmly welcomed by their many friends. Mrs. Palmer is a sister of Mrs. Annie Hunter of Summerside.—S.

—Mr. and Mrs. Rowland Philipson of Marshfield, have now taken up their residence in Summerside. They are occupying the double tenement house on Summer Street opposite St. Paul's parochial house. Mr. Philipson, who has taken a position in Messrs. R. T. Holman's Ltd, has a very fine voice and will be a great acquisition to local musical talent.—S.

**SURVEYOR'S REPORT OF REPORT OF MEAT AND MILK YEAR'S WORK INSPECTION**

Submitted At City Council Meeting Last Night.

In his annual report to the Street Committee for work done from May 1 to December 31, Mr. H. A. Meserve, City Surveyor, stated that prior to this time the work was in the capable hands of Mr. J. P. Nicholson, veteran engineer of the city, who now fills the office of consulting engineer. The acknowledged position of Charlottetown, now in the van of municipalities anywhere near its size in Canada, as regards permanent pavements and municipal improvements in general is due to Mr. Nicholson's splendid work during his thirty years of service as city surveyor.

Throughout the summer and autumn, the customary street services, of sprinkling, cleaning, sweeping, etc., were faithfully carried out by those whose duty it was to perform them. Owing to the increasing menace to our shade trees from the attacks of caterpillars (chiefly the larvae of the tussock moth) the purchase of a power sprayer became imperative. This machine has given excellent service, and has done much to rid the City of obnoxious pests.

In December the large number of thaws and the consequent icy condition of our streets necessitated a considerable application of sand to the sidewalks. As far as circumstances permitted, clean Sours and North Shore sand has been used, and it is believed that this service has been generally satisfactory to citizens.

Itemized figures of street graveling work were submitted, showing that a total of 15,617 square yards had been done at a cost for material of \$2,779.80, for labor and cartage of \$1,722.78, or a total cost of \$4,502. The streets gravelled were: Granville, Bishop, Lower Euston, Sydney, Richmond, Lower Queen, Passmore, Chestnut, Escher (Euston to Fitzroy), Escher (Longworth Avenue to Euston), King, and Rochford Square.

A numerous list of streets on which extensive repairs were carried out was given, the total cost of this work being \$3,833.70.

A total of 22,550 feet of plank were used in wooden sidewalk construction and repair.

Detailed figures of street maintenance were given, the labor and materials of which cost a total of \$23,472.01.

The total quantity of the city's permanent work, as at December 31, 1929, was summarized as follows:

- Storm water sewers, 43,499 lineal ft., or 8.2 miles.
- Storm water brick catch basins, 470.
- Concrete sidewalks, 136,796 lineal ft., or 19.1 miles.
- Concrete curb and gutter, 101,200 lineal ft., or 19.15 miles.
- Concrete base for improved streets, 143,813 sq. yds.
- Asphalt wearing surface, 146,632 sq. yds., or 9.72 miles.
- Concrete base curb and surface, 7,323 sq. yds., or .52 miles.
- Water bound macadam, 7,738 lineal ft., or 1.48 miles.

Jan. 2nd with nine members and three visitors present. Meeting opened by singing the W. I. Ode and repeating the creed in unison. Roll call was answered with New Year's resolutions. Correspondence from the Institute Department was read. The secretary reported five dollars sent to each orphanage as voted at the December meeting and a letter of acknowledgement from St. Vincent's Orphanage was read. Ways of raising Institute funds were discussed but no definite plans were made. The program consisted of songs, readings and a contest, also Victrola selections. Lunch was served by the hostess and the meeting closed with the National Anthem.

The following report was presented by Dr. I. E. Croken, Meat and Milk Inspector:

Meat is inspected on market days (Tuesdays and Fridays) in the market building. The meat which is brought there is generally in a satisfactory condition. The interior of the market is kept in good condition by the market clerk.

I would recommend that a wash basin be placed in the market building and that a supply of sanitary paper towels and soap be kept on hand, so that the butchers and others who are handling meat, chickens and etc., can wash their hands.

Meat is inspected at the stores of all meat dealers on market days and as often as is required during the week. Some butchers kill their meat in their own slaughter houses within the city limits where it is inspected. Most of the meat is killed in slaughter houses outside the city.

Butcher shops and slaughter houses are inspected for sanitation. The shops are generally kept in a satisfactory condition. The slaughter houses require more attention and several owners have to be advised from time to time to keep their slaughter houses in better condition.

The following was condemned during the year as unfit for human consumption and destroyed:

- Tuberculosis—1 carcass, 1 portion carcass.
- Urticaria, 1 carcass.
- Septicemia, 1 carcass.
- Ostio analacia—1 carcass.
- Emaciation—1 carcass.
- Pyamia, 26 portions of carcasses.
- Parasitic, 52 portions of carcasses.
- Bruise, 2 portions of carcasses.

**MILK INSPECTION**

During the year 404 samples of milk and 48 samples of cream were analyzed for butter fat, total milk solids, milk solids not fat, specific gravity sediment, dilutions and preservatives, 14 samples of milk were found to be below the required standard of butter fat, 42 samples contained sediment, no preservatives or dilutions were found.

**DAIRY INSPECTION**

Fifty dairy farms were inspected during the year. The stables were inspected for cleanliness, light and ventilation. The yard for stagnant

Gravel streets, 76,201 sq. yds. or 0.07 miles.

Permanent Street Work. During the year asphalt surface was laid on Kensington Road, Hillside (Grafton to Euston), Richmond (Queen to Pownall) Church, West (Kent to Richmond), King, (Prince to Weymouth), Lower Queen (Water to Railway crossing), Grafton (Pownall to West). Making a total of 14,093 sq. yards of surface. In addition, a concrete surface, 6 inches thick was laid on Upper Queen Street from Euston to Douglas, making an additional 3,539 sq. yards of surface, or 17,602 sq. yards of permanent surface, together with 1,735 lineal ft. of storm water sewers on Upper Queen and Douglas Streets at a total cost of \$55,370.98.

Concrete sidewalk work was detailed, showing a total area for the year during the year of 1,033 sq. yards at a cost of \$3,258.83.

Other work performed by the City Surveyor's department included the cleaning out of the bed of Spring Park stream from Brighton Road bridge to its source, also the water course passing under Euston, Fitzroy and Kent Streets near the railway tracks at the east end of the city. A substantial breastwork was built across the western end of Sydney Street. A bridge was laid over the ditch on the east side of the railway track at the east end of Euston Street leading into the Prince Edward Island Hospital grounds. During the season, a man was employed to oversee and keep in good condition the dumps at the east end of the city.

**Of Course... you can serve it hot**

Most people want a hot breakfast dish for a cold day. Shredded Wheat is deliciously warming when eaten with hot milk. Crisp the biscuits in the oven and pour hot milk over them. The flavory shreds retain enough crispness to encourage thorough chewing—that's one reason it's so good for children. Delicious for any meal with fresh or stewed fruits.

**SHREDDED WHEAT**

WITH ALL THE BRAN OF THE WHEAT

THE CANADIAN SHREDDED WHEAT COMPANY, LTD.

taken to protect the people from a possible infection. I wish to thank Chief of Police Birtwistle and the officers of the Force for collecting the milk. I have the honor to be, Sirs, Your obedient servant I. E. CROKEN, D. V. S. Meat and Milk Inspector

water dirt and drainage. Water supply for location, milk house for sanitation. Milking utensils, bottles, and etc., for cleanliness and method used in washing and sterilizing. All dairy farms were passed this year, owners of certain dairy farms which were not satisfactory in 1928 made considerable improvement on their premises since then.

During the year the cattle of the province were subjected to the tuberculin test by Veterinary Inspectors of the Health of Animals Branch of the Dominion Department of Agriculture.

No reactors were found in the herds supplying milk to this city. The Pure Milk Co. and the Charlottetown Condensed Milk Co., were visited at intervals during the year and were found satisfactory.

A disease known as Undulant Fever in human beings which has been proven by laboratory workers, medical scientists and physicians to be due to Bacillus Abortus, a micro organism found in cattle suffering from a disease known as contagious abortion.

Undulant fever attacks adults more readily than children, it has a low mortality, but with a prolonged and indefinite period of recovery.

Cattle suffering from contagious abortion are a source of danger to human beings. The method used to positively diagnose this disease in cattle is known as the agglutinin test. This is an examination of the blood which has to be done by a trained laboratory worker and requires a modern equipped laboratory.

Pasteurization of milk at a temperature of 145 degrees Fahrenheit for 30 minutes will destroy this germ.

I have not seen or heard of a case of contagious abortion amongst the cattle of this province for several years.

However we must be on our guard, and if this disease should be discovered amongst the herds supplying milk to this city, steps should be
