ENGAGEMENT.—Mr. and Mrs. Ernest Duchemin announce the engagement of their daughter Helen Gertrude, to Mr. Roland G. Loughlin, of Fredericton, New Brunswick. The marriage will take place this month. 6971-12-8-11.

CALEDONIA AND MURRAY HARBOUR PRESBYTERIAN CHURCHES—On Dec. 11th, the services will be as follows: Caledonia at 11 a.m. and 7 p.m. both in English. Sabbath School at 3 p.m. Y. P. S. at 7 o'clock Thursday. Murray Harbour service at 3 p.m., Sunday School and Bible Class at 2 p.m. Rev. Allister Murray, minister.

ARTISTIC DISPLAY.—Up to usual, and perhaps better than any previous year, Worth's Drugstore, Prince Street, presents a most attractive holiday appearance. The decorations, Santa Claus, lights and the lovely goods giving it the real Christmas spirit. The store is to be congratulated on having such an attractive appearance.

NEW RESIDENT WELCOMED.—The many friends of Mr. and Mrs. Tom Mason who have come back to Charlottetown, to re-open their permanent wave parlors are being cordially welcomed by their old friends who have kept in touch with them for the past eleven years. They have numerous customers who will be pleased to learn they have now taken up their permanent residence in the basement of the Hughes Drug Company. They are graduates of Munson's School of Permanent Waving of Illinois, and were the first to introduce the permanent wave in Eastern Canada. Mr. Mason is an overseas man, having served with the 85th Nova Scotia Highlanders.

VISITING MT. ALLISON—Taking for his subject, "The voice of experience to youth," Rev. Chester N. Brown, M. A., associate minister of Trinity United Church, Charlottetown, P. E. I., gave an interesting and forceful address at Mount Allison vespers service Sunday night in Charles Fawcett Memorial Hall before a large congregation. Rev. Dr. E. R. M. Brecken presided and special music was rendered by choral class, under the direction of Prof. H. S. Hamer. An anthem "The Heavens are telling" (Creation) Haydn, was well rendered and a solo "I know that my Redeemer liveth" (Messiah) Handel, was nicely sung by Miss Isabel Munroe. Rev. Mr. Brown took his text from Ecclesiastes ch. II, v. 9, and ch. 12 v. 1—"Rejoice, O young man, in thy youth" and "Remember now thy Creator in the days of thy youth." The preacher pictured the opportunities for rejoicing in youth, with its freedom and gladness, before the responsibilities of maturity have been placed upon its shoulders; and he also emphasized the importance of "remembering God in one's youth," in order to realize true happiness and satisfaction in mature years.—Sackville Post.

ces there were 150 grasshopper eggs to the square foot in some places, Mr. Cridde said, predicting that next summer the "plague" will be worse than ever.

Scout News and Notices

SCOUTS HEAD LOCAL RELIEF At Duncan, B. C., the local winter relief work was organized under the initiative of the local Scout leaders. Plans included a surplus vegetable and fruit survey carried out by Rover Scouts and collection and repair of clothing by Rangers and Girl Guides.

PEACE PARK OPENING FEATURES BOYS A colourful feature of the opening this summer of the Waterton-Glacier Peace Park on the Alberta-Montana border was provided by a group of 24 Canadian and American King and Eagle Scouts, bearing their respective flags. Repetition of their respective Scout obligations also was included in the ceremonies.

480 ACRE ESTATE FOR U. S. SCOUTS A magnificent New Jersey estate of 480 acres has been presented to the Boy Scouts of America by Mrs. Jacob H. Schiff, as a memorial to her son, Mortimer L. Schiff, the late President of the American Scout organization. The estate will be made a national training centre for Scouters similar to Gilwell Park, England.

SANTA CLAUS' CHAIN OF WORKSHOPS Santa Claus branch workshops operated by Scouts and Girl Guides in all parts of Canada are again at work reconditioning broken and discarded toys and dolls, to help help Old St. N. ch's bag at Christmas. Last year a coast-to-coast chain of 158 shops provided gifts for fully 75,000 needy children, including many on farms in the west. Baden-Powell has called such work "Happilyfing."

DROWNINGS AND RESCUES The up-curve of drownings during the present year was reflected in a recent report of the Medal Board of the Boy Scouts Association. The report cites 10 Scouts for rescues made at serious risk and 11 for saving from drowning with less risk. A Rover Scout was credited with a swimming rescue of three persons, and a 10 year old Wolf Cub with saving two other small boys who had broken through ice in the spring. Water rescue is part of Scout training.

Some 1400 people crowded Brandon's Winter Fair building to witness a Boy Scout and Wolf Club "Jamboree."

Over 2,000 Toronto Wolf Cubs took part in a spectacle, "Aaddin in Cuzland" given before huge crowds at the Arena.

AUSTRALIAN AND CANADIAN BOYS SWAP An offer to swap kangaroo skins and boomerangs for Indian Canadian basket and bead work and carving has been made to Canadian Boy Scouts by Scouts of Queensland.

KIWANIANS EAT SCOUT FLAP-JACKS The making of flapjacks on a heated stone was demonstrated by Calgary Scouts at a Kiwanis luncheon. A couch of poles and rope was constructed, and numerous improvised camp conveniences shown.

OFFICIAL DATES OF WORLD SCOUT MEET Next year's world gathering of Boy Scouts at Godollo, Hungary, will officially open on Wednesday, August 2nd, and close on the 15th. Scout contingents from other countries are expected to arrive July 31st an deave August 16th.

Christmas Gifts...

First Aids to Optimism...

Every gift you send this year is more than a gift... it's almost a hostage to faith in yourself, your friends and in the future.

It's a good way to tell the world that even though it has been a rough voyage you still have your hand on the helm of the good ship Optimism.

And whether your gift is large or small, it tells the same story and expresses the good old-fashioned wish for

—a Happy Christmas

prohibit the Company from borrowing money, buying on margin or selling short.

The Board of Directors has announced the policy of distributing quarterly in dividends on its outstanding shares approximately their pro rata share of net cash income, including proceeds of sale of regular stock dividends. Profits and losses realized on the sale of securities will not be taken into income account.

Subject to the control of the Board of Directors, the Fund is supervised by the firm of Calvin Bullock, New York. The firm of Calvin Bullock established 1894 has long and successfully been identified with the supervision of investment funds. It operates nine American trust company funds. The firm has recently made the statement that not one has ever passed a quarterly dividend, that since the beginning of the panic over \$11,000,000 in dividends have been paid to shareholders, that the record of each fund has bettered market averages, that not one owes a dollar and all have substantial cash balances.

World Famous Bird Collection
(Canadian Press)
NEW YORK, Dec. 7.—Gathered by Lord Rothschild a bird collection of 280,000 specimens, considered the most famous in the world, has been presented to the American Museum of Natural History by Mrs. Harry Payne Whitney, widow of the financier and sportsman.

It contains many rare and extinct specimens and constitutes the largest single gift ever received by the museum, said Prof. Henry Fairfield Osborn, president.

The Rothschild collection was built about the famous group of birds collected by Buller in New Zealand, four in the Galapagos Islands and Brehm in Europe.

DON'T TRIFLE WITH COMMON CONSTIPATION

Kellogg's ALL-BRAN Brings Relief

Constipation gets its grip on a person almost unawares. It often starts with such little things. Headaches. Listlessness. Bad complexion. Unpleasant breath. If unchecked, it may seriously impair your health.

Fortunately, you can avoid this danger by eating a delicious cereal. Laboratory tests show that Kellogg's ALL-BRAN provides two things needed to overcome common constipation: "bulk" and vitamin B. ALL-BRAN is also a rich source of iron for the blood.

Biological tests demonstrate that the "bulk" in bran is similar to that in leafy vegetables. Inside the body, it forms a soft mass, which gently clears out the intestinal wastes.

How much better than taking unpleasant patent medicines. Two tablespoonsful of ALL-BRAN daily are usually sufficient. Serious cases, with every meal. If not relieved this way, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in London, Ontario.

Salt Gushers In Cape Breton
(Canadian Press)
SYDNEY, N. S., Dec. 7.—Two wells, spewing up 100,000 gallons of liquid salt every 24 hours, are interesting sights for visitors to Bucklaw, Victoria County, but receive little attention from the people who live there.

Hour after hour, day after day, the solution rises ten feet in the air and spreads over the land. It gushes through holes made by prospectors several years ago. The prospectors drilled three wells. Two of them became gushers, and it is estimated that they produce 70 gallons a minute. There are 12 natural brine springs in the vicinity. Commercial development may be undertaken soon.

COLLECTION IS REALISTIC
MONTREAL, Dec. 7.—(By the Canadian Press)—McGill University Library, peaceful sanctum of learning, has been invaded by guns, gas-masks, bombs, colors and decorations, horns of their glory, content to lie quietly in exhibition cases but at least free from dust and still the object of public attention.

The occasion is an exhibition entitled "The Great War in Retrospect" and has been assembled from McGill property and private Montreal collections.

Punch's history of the war and specimens of Balmisfather's cartoons give a humorous touch. Books dealing with the war and various branches of Canadian activity, together with collections of war pamphlets, supply a scholarly viewpoint. Artistry and a pale shadow of that great art known as heraldry come in with an astonishingly beautiful and complete collection of Canadian war badges, classified by provinces. And the regimental contributions are the guns, gasmasks, bombs, uniforms and living utensils. Photographs help to construct a mental picture of the famous "four years" but this last collection is strangely incomplete, made up as it is mostly of official photographs and ordinary views of battle grounds and lacking the living touch, the horrors and brutalities set sharply side by side with heroism which those in actual conflict recall and which the motion picture camera had occasionally succeeded in rendering. War scenes by Canadian artists add to the photograph collection.

PEST OF GRASSHOPPERS TO BE WORSE IN 1933
OTTAWA, Dec. 7.—Warning that the grasshopper pest in the prairie provinces will be worse next year than it was this summer was voiced today by Norman Cridde of the Entomological Laboratory, Treasbank, Man., who is in Ottawa today attending the annual convention of the Entomological Society of Ontario.

Mr. Cridde characterized the combat waged against the insects last summer as "the biggest battle ever waged in Western Canada."

"Even the wars with the Indians cannot compare with it," he added. "Between \$8,000,000 and \$10,000,000 had been saved to the country as a result of the conflict, and 29,000,000 bushels of wheat had been saved from the ravages of the pests. At present in the prairie provin-

SCOUTS AND A CHOLERA EPIDEMIC
According to a British missionary publication, Hindu and Christian Boy Scouts took charge of a panic-stricken village in Hyderabad during a cholera epidemic, and saved 102 out of 135 cholera cases. They disinfected houses, buried the dead, provided medicine and food and treated the wells. Previously the villagers had opposed the Scouts; now the troops has full support in maintaining sanitary conditions and in carrying out other progressive measures.

Mansion To Go Ghost May Stay
NORTHWICH, England, Dec. 7.—Dutton Hall, a fine old gabled Elizabethan mansion that has the reputation of being haunted, stands on a hill-top between Northwich and Runcorn, but it is to be moved nearly 300 miles to East Grinstead, Sussex, and be re-erected at the home of J. A. Dewar, racehorse owner, who has bought it. The idea of the new owner is to have the ancient building put up as a new wing of his place, "The Homestead."

Every man engaged on the work is an expert, for this is no ordinary demolition job and great care has to be taken that not a single brick or rafter is damaged. As the old mansion, which was built in 1539 is pulled down, each piece is marked so that it can be set up again in its original form. Many of the pieces are packed in cases. Every piece is carefully indexed and dozens of drawings are being made. The demolition work is a slow job. Most of the woodwork is carved and great care is necessary to remove it without causing damage.

Local folk declare Hutton Hall to be haunted. Once a month a Roman soldier is reputed to ride across the paddock in front of the hall. Tradition has it that there is a hidden underground passage which leads to Dutton Lodge, nearly a quarter of a mile away. The workmen are rapidly approaching the east wing, where this passage is believed to begin, so that the mystery will soon be solved.

A chamber which was bricked up many years ago because it was said to be haunted yielded nothing but a cloud of dust.

AUSTRALIAN AND CANADIAN BOYS SWAP

Husband Does No Heir Policy
(Canadian Press)
LONDON, Dec. 7.—A husband who takes out an endowment policy for the benefit of his wife by name cannot claim the benefit of the policy if his wife dies before him. That has been decided by the Court of Appeal, which allowed an appeal by the Sun Life Assurance Society and the trustees under the will of Mrs. Lilian Cousins from a judgment of Justice Evc that Stanley Cousins was entitled to a policy for \$75,000 and another policy for \$15,000 taken out on his own life for the benefit of Lilian Cousins, his wife.

Advises All Kidney Sufferers To Try Them
Nova Scotia Lady Recommends Dodd's Kidney Pills

Mrs. Gordon Meister is Very Satisfied With the Results Obtained by Taking Dodd's Kidney Pills

New Ross, N. S., Dec. 8.—(Special)—Advice is often wasted because it is given free. Mrs. Gordon Meister, a well-known resident here, offers some good advice that ought to be taken heed of because it concerns your health, and what is a more valuable asset than good health? Mrs. Meister writes: "I am thirty-three years of age and the mother of three children. I have used Dodd's Kidney Pills for many occasions and find they give me quick relief. I keep a box of hand always. I think Dodd's Kidney Pills are just wonderful and would advise anyone suffering from kidney and bladder trouble to give them a trial."

Mrs. Meister is not repeating what someone has told her, but something she knows from her own experience. She feels that she owes it to other sufferers to tell how Dodd's Kidney Pills relieved her.
