

HORRIBLE TRAGEDY IN NEW BRUNSWICK

ST. JOHN, April 19.—While suffering from homicidal mania, Paris Sobey, 23 years old, residing at Protonville, nine miles from Newcastle, in the northern part of New Brunswick, murdered Alfred E. Mullins, five years old and John H. Mullins, seven years old and later committed suicide by blowing the top of his head off.

The tragedy occurred Saturday afternoon. Sobey who was of a quarrelsome disposition had been drinking on Saturday night in Newcastle and drove out to Protonville with his wife Nell Mullin, father of the children he killed. Reaching Mullins' home he went into the barn while Mullins took some candy to the house to the children. The two little fellows, however, afterwards killed their way out to the barn. Sobey seized an axe and striking them over the head killed them instantly. Then he went into the house and picking up a rifle threatened to shoot Mrs. Mullin. She never begged for her life and the murderer returned to the barn where he found Mullin who was not yet aware of the terrible fate of his children. Grasping the same axe with which he killed the children Sobey struck at Mullin and cut him. The men clinched and Mullin took the axe from his assailant. Sobey then ran across the road to the post office, broke all the windows and seizing a gun made off to the woods in the direction of his home. In the meantime Mrs. Mullin had discovered the bodies of her murdered children and her husband weak and faint from loss of blood. She secured help and the story of the crime was sent into Newcastle. A posse went to Sobey's house and found him dead in bed with the top of his head blown off. The tragedy is the worst in the history of the North Shore.

MEXICAN CRISIS DRAWS ATTENTION

(Canadian Press) WASHINGTON, April 19.—Through out the day the Mexican crisis occupied the absorbing attention of officials, dispelling the usual calm. Secretary Bryan remained up practically all last night watching the situation. Shortly after nine o'clock the Secretary read two messages from Mexico City from O'Shaughnessy.

Autos Raced on Ice for Valuable Furs

EDMONTON, April 17.—A story of an 800-mile automobile race over the smooth ice of the Athabasca River comes from Edmonton. An incoming speculator brought a story of a fine collection of skins held by an Indian trapper, and the Edmonton fur buyers stampeded.

When the first report of the big cache of skins reached Edmonton, two motor parties set out to buy the Indian's stock. There had been no snow north of Edmonton, and the rivers and lakes were actually frozen. Both parties therefore took to the ice and attained high speed. Ten days after the first party had started, the owner of another car left Edmonton in the hope of overtaking the others. Following the same trail on the rivers and lakes, the man overhauled both of the other parties and reached the trapper, 400 miles from Edmonton, a full day ahead of the others. With the entire lot of furs stowed away in the tonneau of his machine, the successful speculator returned toward the city and found both of his rivals stranded at different points on trail. When the successful autoist returned to Edmonton the furs were sold at a profit of \$2,000.

MAY CANCEL APPLICATIONS

(Canadian Press) LONDON, CABLE—April 19.—Meeting of the Commission from the High Commissioner's office, to the Ontario Government Agency here, regarding the claims of the Central Railway of Canada for each subdivision from the Dominion, the Ontario and Quebec Governments' company now intimates that application for bonds already received may be cancelled at applicants' wish up to Monday evening.

C.P.R. STEAMERS FOR PHILIPPINES

(Canadian Press) MONTREAL, April 19.—Considerable interest is created in shipping circles by the announcement that the C. P. R. will enter the Philippines trade on June first when the S. S. Empress of Russia will make Manila a port of call. The fastest schedule hitherto from any North American port to Manila was 28 days by the Canadian Pacific with a fast-sailing fleet has cut this down to 17 days. This service, inaugurated at the request of business men and commercial interests in the United States and Philippines will undoubtedly bring Canada into touch with a valuable new market. The schedule will also bring considerable tourist trade from Manila as the Canadian Pacific carries a large percent of travellers around the world.

OUTLINE OF PEACE CONVENTION

(Canadian Press) WASHINGTON, April 19.—Sir Cecil Spring Rice and Secretary Bryan today discussed the outline of the Peace Commission to bind the United States and Great Britain to submit to a commission for the examination of any issues between the countries which will not yield to diplomatic adjustment. The ambassador visited the Department twice and on the last call was able to lay before the Secretary a tentative draft of the convention prepared by the British foreign office.

Secretary Bryan expressed his satisfaction with the British suggestion to adopt a basis for a British-American treaty. A convention has already been concluded between the United States and the Netherlands. They will have to consult each of Britain's five colonies.

HIGH COST OF LIVING. ST. JOHN, N. B., April 18.—The high cost of living commission is now here but the sessions are private.

VINCENT ASTOR IS WORSE.

NEW YORK, April 17.—Vincent Astor today took a sudden turn for the worse. He is in a very grave condition.

Shortage of Eggs due to Rooster

WASHINGTON, April 17.—Alas! the poor rooster. This is the plot the Department of Agriculture pronounces against him.

"In the interest of egg conservation the poultry specialists of the Department of Agriculture have started a campaign for the elimination of the rooster among poultry flocks during the season between May and Dec. 1. In this connection, Saturday, May 16, has been set aside as Rooster Day in Kentucky and Tennessee, when every poultry dealer in these states has agreed to pay the same prices for roosters as they do for hens and pullets. The department estimates that one-third of the tremendous annual loss of eggs is due to the rooster. The department asks the attention of the school authorities of the cities, counties and towns of Kentucky and Tennessee have been requested to announce Rooster Day to their scholars and it is expected that it will be observed. Other states will follow the ad, and 'Rooster Days' will be pretty generally established.

Provincial Constitution for China Pending

NEW YORK, April 17.—The provisional constitution of the Chinese Republic is still pending, according to a telegram received today by Professor Ardenah, W. Jenks, formerly financial agent of the Chinese Government, from Wellington Ku, secretary of Wai Shiao Pu or the Department of Foreign Affairs at Peking. A convention for the purpose of amending the constitution of the Chinese Republic has been in session at Peking since March 18. Despatches are published to the effect that the new constitution adopted purporting to give outlines of a cabinet from Secretary Ku Fong. "No constitution adopted yet. Revision of the constitution is still pending. The sole aim of President Yuan and cabinet is to secure a strong central government for the nation's welfare. Foreign advisors concur.

SUMMARY OF PROCEEDINGS IN THE LEGISLATURE

Saturday, April 18, 1914. The House of Assembly met this morning at 11:45. Hon. Mr. MCKINNON moved the further consideration of a bill for the incorporation of the Prince Edward Island Sheep Breeders' Association. For this purpose the House resolved itself into committee. (Chairman Mr. L. L. Jenkins). The bill was engrossed and ordered to a third reading. Hon. Mr. ARSENAULT, in the absence of the Commissioner of Public Works, moved the third reading of a bill to incorporate the Hillside Park Silver Fox Co. The bill was then passed.

BUDGET DEBATE IN LEGISLATURE

(continued from page one) broken new grounds. He did not think there was in any other Province a bill of that kind which provided in that way for the loss of sheep. It was true that in Ontario they had some sort of system of compensation, but it was not along those lines, it was along municipal right step. He thought that the sheep industry was directly interested in the losses, and in that way they might be assured that the matter would be justly carried out and that no frauds would be perpetrated. He thought that that was the best way in which the award of such compensation could be administered, as there would be no charge of partiality brought against the Association as would be the case if the compensation was apportioned by the Government. The funds would be more equitably administered by the Association than they could be by the Department of Agriculture. For his part he thought that that was one of the most important bills that had been before the Legislature since this Government had taken charge of the affairs of the Province and was one that should be discussed thoroughly and judiciously before being passed.

EXTENT OF COMPENSATION.

Among the methods to be employed by the Association in its object of encouraging the breeding and improvement of sheep was the following: provided in sub-section (g): "By co-operating with the Government of Prince Edward Island in insuring members of the Association against loss from sheep being killed by dogs and in compensating such members for such losses." In regard to this clause, Mr. L. L. Jenkins asked what proportion would be paid by the Government in the case where a man had a valuable imported sheep, worth, say \$100, and it was destroyed by dogs? Would the proportion of the cost the Government would pay be that of the cost of an ordinary sheep? What compensation for an ordinary sheep? Hon. Mr. MCKINNON said that he did not think they should put into the Bill the compensation that the farmer should get for the loss of sheep. They might find that changes would be necessary and the proposition was to leave that to the by-laws of the Association. That could be agreed to by the Association, and the by-laws would of course be submitted to the Government before they became law. As far as the compensation for imported sheep, or sheep supposed to be of high value was concerned, he did not know just how far the Association could go in that matter. He believed himself that the only thing that they could do was to give compensation to the extent of the market value of the sheep. Because there were sheep of a great many kinds these days. They would not have that those who owned them would not value them on a basis of \$2,000. They did not know that those sheep were worth more than the ordinary sheep in the barnyard and of course, they might be worth more than \$2,000. He put a worth value on the sheep would be as far as the Association could go, but it was a matter which would have to be left to the Association themselves.

DISCRIMINATION NEEDED

Mr. JENKINS agreed with what the hon. member had said who had brought that question up in reference to that particular sub-section was to find out what compensation would be made for the loss of sheep. If it was put down as market value, he thought that would be satisfactory. But where money was put into the hands of the Association and the Government was paying some part of it, such funds should be used with some discrimination.

MR. J. A. DEWAR

Mr. J. A. DEWAR asked why that should not be left to the sheep breeders' Association to settle? They could settle what was right to compensate a man according to his loss. Hon. Mr. MCKINNON said that the Association would take care that they used that money for the advantage of the industry and would not pay any man any more than he was entitled to by law. If hon. members thought it necessary he proposed amending that clause by adding to the concluding words, "and compensation such member for such loss," the words "such compensation not to exceed the ordinary market value of sheep."

A STRONG ASSURANCE.

The PREMIER said he thought that in the organization of that Association they should put a great deal of confidence in the justice and sense of fair-play that would be exercised by the officers of the Association. He thought they could be quite confident in entrusting to the association the adjustment of all the claims that might arise. He had this assurance that the Association was taking from its own funds for that purpose. Of course, the funds were partly supplied by the Government, but whether supplied by the Government, themselves or supplied by the Association, when those funds went into the hands of the Association they became the funds of the Association and it had power to deal with those funds in the way that it chose. So if the Association would fix a value that would be above the actual market value of the sheep, it would suffer twice as much probably as the Government. That gave the House a very strong assurance that in guarding its own funds the Association would guard the public funds also. It seemed to him that assurance was so strong that it was not necessary that they should place any further safeguards around that question. Besides that, the Government always had it in its power to call a halt upon the payment of funds and to consider the whole thing. He did not believe that that would be necessary. He believed that that measure was going to help not only members of the Association but all those who had the interest of the industry at heart. In doing that he thought that they might have every confidence that the Association would be placed in its hands in such a way as to guard the public interest and at the same time guard its own.

AN IMPORTANT MEASURE.

Hon. A. E. ARSENAULT said it seemed to him that that Bill was one of the most important that had come before the Legislature for some time, and if at that session of the Legislature they should do nothing else but pass that Bill, they would accomplish something that he believed was in the great interest of the farmers of this Province. He could remember how, for a great many years past, the great grievance of the sheep industry had been the loss of sheep by dogs. Unfortunately this loss was not spread over the whole area of all those who had sheep, but the loss when it happened was like lightning striking in one spot and doing all the damage there. Only last summer some three neighbors they had lost 29 sheep, and though that was to them a serious loss, if it had been distributed over twenty farmers, it would not have amounted to very much. That was the great trouble—does in attacking sheep contain their depredations to one flock and do all the damage there. So he considered that very important measure and one that commended itself to the attention of the members. This was a new departure. In executing that bill the Commissioner of Agriculture had

bill to incorporate the Hillside Park Silver Fox Co. The bill was then passed. The following bills were read a third time and passed: The Ideal Silver Black Fox Co., Ltd., The Grand River Rural Telephone Co., an Act to provide for the use of motor trucks on the public highways, an Act to amend the income tax Act, the School Supplies Act. A bill for the incorporation of the Dark Silver Patch Fox Co. of O'Leary was considered by the House then adjourned at 3 o'clock.

BUDGET DEBATE IN LEGISLATURE

broken new grounds. He did not think there was in any other Province a bill of that kind which provided in that way for the loss of sheep. It was true that in Ontario they had some sort of system of compensation, but it was not along those lines, it was along municipal right step. He thought that the sheep industry was directly interested in the losses, and in that way they might be assured that the matter would be justly carried out and that no frauds would be perpetrated. He thought that that was the best way in which the award of such compensation could be administered, as there would be no charge of partiality brought against the Association as would be the case if the compensation was apportioned by the Government. That was the great trouble—does in attacking sheep contain their depredations to one flock and do all the damage there. So he considered that very important measure and one that commended itself to the attention of the members. This was a new departure. In executing that bill the Commissioner of Agriculture had

CANADIAN COLLEGE AT ROME

(Canadian Press) LONDON—CABLE—April 19.—The Canadian College at Rome, which recently celebrated the silver jubilee of its foundation, received a letter from Cardinal Merry Del Val conveying congratulations from the Pope and the Rev. rector Perrin. The letter notes that 320 priests passed through the college since its inception. All have done well. The college recognized home visiting prelates to the Eternal City. It

HON. H. F. MLEOD FEARS NO CHARGES

(From Our Own Reporter) OTTAWA, April 19.—"I fear no charges that can be made," said Hon. H. F. McLeod, M. P. for York, N. B., and formerly Provincial Secretary of the Planning Cabinet, whose name has been mentioned in connection with the charges made by Mr. Dougal. "The man does not live," he said, "who can show that in the conduct of any office in the N. B. Government, I ever profited wrongfully by a single dollar. Then, no details of the charges from my record being clean, I laugh at any partisan attempt to injure me."

PEERY'S PEELLESS PLAYERS FARWELL

Those who were not in attendance at the Prince Edward Theatre on Saturday evening when Peery's Peelless Players put on Poor Old Benson the closing one of a repertoire of plays that drew big crowds during the whole week's engagement, missed a treat. From start to finish the performance was replete with comedy. There were no dry mounts, and Dan Mulloy was at his best, while Miss Gorline was equally as good. The play, a three-act farce comedy, was formed of intricacies and complications that rapidly developed and spun a web around each member of the cast, that looked difficult to unwind; but the unwinding was easy when the ball was set rolling. The vaudeville between the acts was very good and quite entertaining. During intermission between acts Mr. Mulloy conveyed the thanks of the company and himself to the people of Charlottetown. They surely will be welcome when they again visit the province.

SHOT AT THE MAYOR

NEW YORK, April 18.—Michael P. Mahoney was arraigned today on a charge of attempting to shoot Mayor Mitchell. He tried to shoot at the Mayor near City Hall but missed him and wounded Frank Polk, corporation counsel in the bay.

TORTURE OF DOGS

LONDON, April 18.—The Commons last night gave a second reading to the Bill to Prohibit all Surgical Experiments on Dogs either with or without anaesthetic. It is designed to prevent torture of one of man's best friends.

DEATH OF A PROMINENT DRUGGIST

WOODSTOCK, N. B., April 18.—Chas. A. McKeen, prominent druggist died today, aged 74.

FIVE AMERICAN BATTLESHIPS HEADING FOR MEXICO

WASHINGTON, April 12.—The Cabinet today is again discussing the Mexican situation and meanwhile the American transport arrived at Tampico today with 950 marines and five battleships were off Key West last night, heading for Mexico.

THE WEATHER THE TEMPERATURE, TIDE, MOON, ETC.

(Special to the Guardian.) TORONTO, April 20.— Fresh winds and cloudy with occasional showers. THE WEATHER.—Yesterday was clear in the morning; clouding up in the afternoon; with rain at night and a thunder and lightning storm early this morning. The highest temperature recorded yesterday was 50 degrees above zero and the lowest was 38 above. The lowest the previous night was 35 above. The tide will be high this morning at 7:39 and tomorrow at 8:20; it will be high tomorrow at 7:15, and tomorrow at 8:15. The sun sets this afternoon at 5:55 H. and tomorrow at 6:56; it rises tomorrow morning at 5:02 and Wednesday at 5. The moon sets this afternoon at 3:27. The last quarter of the moon was on Friday, April 17 at 3:52 a. m. There will be a new moon on Saturday, April 25th at 7:22 a. m. The length of today will be fourteen hours and one minute. He did not see that that amount would be too much. On account of that amount being liable to change, it was thought well to put it in the by-laws and not in the Bill. By putting it in this way it would be practically impossible to new damages where damages were not to be

IMPROVEMENTS FOR MURRAY HARBOR R.R.

The following telegrams were forwarded to Ottawa Saturday and explain themselves. Charlottetown, April 18, 1914 J. D. Reid, Acting Minister Railways Ottawa: Murray Harbor Branch Railway has an express one day in each week. The public want an express every day and, during summer months, to connect at Charlottetown with the morning express leaving for Summerside. At present telegraph rates are fifty cents for ten words on that branch; on all other branches thirty cents is charged. Two booking stations are wanted between Vernon Station and Murray River. These demands are urgent in the public interest and should be promptly attended to. The people demand same treatment as Timmins, Soudan, Deseronto and Montague are getting.

CHINESE FIREMEN IN FIERCE FIGHT

(Canadian Press) ST. JOHN, April 19.—A lively fight occurred on board the coal steamer Lingan here on Saturday afternoon when six Chinese firemen, said to be under the influence of liquor, attacked the engineers. A fierce attack took place. The second engineer was badly hurt and is under the doctor's care. A squad of six policemen, under Deputy Chief Jenkins, went aboard and arrested the Chinese after much trouble.

P.E.I. HORSEMEN'S ASSOCIATION MEETS

A large and enthusiastic meeting of the P. E. Island Horsemen's Association was held in Charlottetown on Thursday evening last. The Secretary, Mr. P. C. Edgett, gave a report of the year's work which was very satisfactory, the finances being reported to be in healthy condition. It was decided to recommend to the Charlottetown Division of the Association the following classes for their June Meet: 2 1/2 trot, mile heats; 2:24 trot and 3:00 pace, half mile heats. A lively discussion took place in regard to the existing freight rates in the transport of race horses and the committee consisting of Messrs. P. S. Brown, J. E. Woodcock and H. H. Horne were appointed to wait on Messrs. Hayes and Story to try and secure a lower freight rate. The Secretary was instructed to write to the various Horsemen Associations throughout the Maritime Provinces asking their co-operation in this matter. The meeting was also unanimous in the opinion that the time had arrived either to make a reduction in the entrance money or the amount deducted from the money winners. Horsemen, it was stated, felt that the cost of maintaining and raising horses had now advanced so materially that track owners should offer greater inducements in order to give the horse-owners a chance to come out at least square with the game. Various other matters were discussed by the members, and the meeting was then called upon to elect officials for the ensuing year. Following is the result of the elections:— Honorary President—Mr. F. B. Hearn; President—Capt. D. A. McKinnon; Vice-President—Mr. B. C. Frowe; Secretary—Mr. T. C. Edgett; Treasurer—Mr. H. Kelly. Directors for Kings County—Mr. H. H. Acorn, Souris; Mr. T. G. Ives, Montague; Mr. W. W. Jenkins, Georgetown. Directors for Prince County—Dr. J. A. Johnson, Tignish; Mr. Jas. A. McNeill, Summerside; Mr. P. P. Cahill, Tignish. Directors for Queens County—H. H. Steris, F. H. Horne, 2. Brown, Charlottetown; A. A. Fraser, Vernon.
