

1930 Stocks or Bonds

The forward looking investor today desires a good return with the opportunity later of obtaining stocks or bonds, whichever future developments may make more desirable.

Associated Gas and Electric Company \$8 Interest Bearing Allotment Certificates—\$120 each with 8 "Rights," provide precisely such an opportunity. They are exchangeable after July 1, 1930 for Stock with a present cash and stock dividend yield of over 7% or for Convertible Debentures.

The Associated System is one of the oldest public utility groups in the United States. Earnings, number of customers, sales of electricity and gas—all have been increasing over a long period. The large growth achieved, coupled with the even greater future possibilities make an Associated investment attractive at this time.

\$10 with Subscription—\$10 a Month

Investment in the Allotment Certificates may be made by monthly payments of \$10. "Rights" to subscribe, for those who do not have them, can be purchased from security dealers, banks, or the nearest Associated System office. Ask any employee.
