## BLOCKADE FORMULA DRAWS NET TIGHTER

### Allied Conference Said to Have Decided on Requiring Neutrals to Turn Over Surplus of Metals to Entente Countries for Their Own Ships.

(Canadian Press Despatch.)  
WASHINGTON, Oct. 22.—Neutral nations and particularly those in Europe, must be prepared to share even greater deprivations and burdens made necessary by the war under the decision of the recent allied conferences at London.

Details of the conference are beginning to reach Washington through official channels. They show that the allies are determined to support their armies in the field by cutting off as far as possible, all supplies for the German army from neutral sources through a tightening of the blockade.

Attention was called at the conference to the necessity of preventing Sweden from supplying Germany with metals and the general opinion was

that hereafter the neutrals, should be compelled to furnish the allies with goods of their own production which they cannot consume in exchange for supplies from the allies. Further they will be required to use their own ships for this trade.

"Such is the new blockade formula, which must be strictly applied and which will make it impossible for Germany to continue the struggle," said one declaration of the conference. The extent to which the United States will be influenced by the decisions of the London conference has not been revealed, but that this government is in accord with them is evidenced by the rigid restrictions placed upon exports to the European neutrals from this country.

## NO PEACE TERMS IN SIGHT THAT WOULD LEAD TO PEACE

### Premier Lloyd George Outlines Progress and Prospects of the War. Peace on Any Terms Now in Sight Would Mean An Armed Truce Ending in a Most Frightful Struggle. Brute Force Must be Dethroned Forever. Optimistic Outlook, Submarine Menace a Failure, America's Entry into War a Great Factor.

(Canadian Press Despatch.)

LONDON, Oct. 22.—"I have scanned the horizon intently," said Premier Lloyd-George today, "and can see no terms in sight which will lead to enduring peace. The only terms now possible would mean an armed truce ending in an even more frightful struggle."

The Premier said he had hoped the enemy's terrible power might be broken this year but that the temporary collapse of the Russian military power had postponed this hope. But time was on the side of the Allies, he said. Time once was neutral but two things had changed this, namely the advent of America and increasing failure of

the death of civilization. Brute force must be dethroned forever. To realize what the advent of America meant, the Premier went on, it was necessary only to look on the rapid growth of the little British army. America was now starting and its resources in men were twice those of Britain. British shipbuilding, said the Premier, has increased four fold and America had done likewise. Germany laughed at the war. More than twice as many German submarines were lost in the first ten months of this year as in all of last year, the Premier asserted. The British tonnage lost monthly now is not much more than one third of the total destroyed last April.

## RINGING SPEECH BY DR. MICHAEL CLARK

### Felt it His Duty to Support any Government Which Would Keep Up Reinforcements for Boys at the Front. Paid a Tribute to Liberals Who Joined Union Government.

EDMONTON, Oct. 22.—At two big meetings Friday night, where Dr. Michael Clark, of Olds, Alberta, was the principal speaker, strong endorsement was given to the principle enunciated by the Win-the-War League. He had always been a strong follower of Sir Wilfrid Laurier, he said, until the last two sessions, when he differed with him on the bilingual question and on conscription. He felt it his duty to support any government which would keep up reinforcements for the brave boys at the front. He had favored a National Government ever since the war began and, although it looked doubtful that it would be realized, he was glad now that a strong government had been formed. When such a Liberal as Frank B. Carvell, whom he predicted would be the next Liberal leader, set aside partyism and entered a Union Government he was assured that such a government would meet with the endorsement of the Liberal party.

patronage evil abolished and already there was indications that patronage was being lessened. Taking up the question of conscription Dr. Clark said that this was the big question for Canada. "We must have the men," he said, "and this is the only way to get them. Voluntary means of getting recruits has failed, and conscription is now the only way." Voluntarism as advocated by Sir Wilfrid Laurier would lead to more profiteering for those who remained at home. The Military Service Act and the proper handling of the man-power of the nation does not mean that every man of military age will be sent to France; it means that those who ought to have been there would be sent to France, while those who never ought to go to France, will be kept at home.

"Let those who say they are opposed to conscription remember they are the worst conscriptionists. They would force the men who have gone to France to remain there without furlough and without relief until the last man is killed off. This is what they mean by their attitude," asserted the speaker.

Dr. Clark paid a tribute to the men of Quebec who had already gone to France and said if Quebec would send her proportion, there would be no conscription in Canada. If Quebec would do her part there might be union in all parts of Canada, but he objected to union at the price of deserting the boys who are fighting in France.

The speaker closed with an eloquent peroration, asserting that Canada would remain in the war until victory was accomplished and freedom and liberty restored to the nations.

## HO! ALL ABOARD FOR THE BIG CAMPAIGN

Send in your application today before some more enterprising person gets started; otherwise they may obtain votes which are rightfully yours. More participants entered the race yesterday for The GUARDIAN several thousand dollars' worth of prizes. If you have not been nominated or if you have not sent in your application, see that your name is sent to the Campaign Manager at once.

Then get out and obtain all the promises that you possibly can before your friends are pledged to other candidates. Organize your friends into a hustling brigade, and have them organize their friends along the same lines, and your chance of obtaining the prizes of your choice will be materially advanced.

Many people are wondering how The GUARDIAN can afford to give away such valuable and expensive presents. If it was not for the great amount of advertising received the venture would be unprofitable. Publicity of the proper kind always pays, and there is little doubt in anyone's mind that the majority of the people living in the territory covered by the Campaign will be discussing the generosity of The Guardian as never before. What helps the paper is the mutual benefit of its advertisers. What helps the advertisers helps the whole community. This is The GUARDIAN explanation why it can give such liberal presents and still come out ahead on the proposition.

### A RARE OFFER.

The Guardian never does anything by halves. There never was offered a better opportunity to the people of Prince Edward Island to receive such valuable rewards for such little work. Consider what it will mean to receive one of these big prizes in such a short time! Enthusiasm is growing keener each day, and by the time the first list of candidates is published the prospects are that it will be at fever heat with interest. The entire Campaign territory is living to the issue, and as the campaign progresses you will find everyone posted and informed. It will be a jolly campaign with hundreds of people taking sides and boosting for the different candidates. Every Candidate should go at it with confidence and a determination to win. Notify your friends and get busy as you want them to ride with you in your automobile.

### WHAT ARE YOU DOING?

What are you doing towards helping some favorite wins one of these prizes? If your friend has not been nominated, see to it today. Clip a nomination blank from a Guardian or obtain one at the office; then fill it out with the name of the person you wish to see win and send it to the Campaign Department of The Guardian with a subscription for six months or twelve months. (The last

is not absolutely necessary but gives your candidate a start in the race.) By sending in a nomination you may put someone in the way of winning a handsome present, and may be win \$25.00 in Gold if he or she wins the first prize. It is really no effort to nominate someone for the prizes. The prizes must be won by someone—why not by your favorite friend.

### BE A CANDIDATE.

It may be that you have not the confidence in your ability. It may be the lack of confidence in your friends. Perhaps you think they are not loyal to you. The chances are that you are doing them an injustice; for they may be waiting for just this opportunity to prove their loyalty.

You should at least give them the chance. Go among them and ask them to subscribe for The Guardian which will give you their votes.

They will be only too glad to help you, especially as they are getting value received for every dollar expended. They are saving time and trouble by paying in advance. Explain this to them. You will find it easy to get them to subscribe.

Read all the details of the contest which have been published in The Guardian and send in your application before someone else does it for you. Then show your activity.

The dread of having to endure another winter in the trenches and then having to face a new army from the United States is probably the chief reason for the desertions, but the suspicion is beginning to take hold in Holland that these desertions may mean something different and that the Germans are allowing the men to pass the lines for a hidden purpose.
