—PROGRESSIVE KENSINGTON—Work that bears a suspicious resemblance to future intentions is in operation in Kensington. The vacant lot in front of Kennedy Bros' store is being graded up above the level of the street and a rumor is abroad that a bowling institution will be established thereon. This is one of the best evidences we have of the increasing prosperity of this aggressively progressive town. The business in finance has so grown that increased accommodation must be provided. Though the applications for building lots are multiplying and most all available prospects are secured.
