### Tweeds of Strength.

To combine durability in Tweeds with beauty, lightness with firmness, is no easy task. But in Hewson Tweeds it has been accomplished with entire satisfaction. Hewson Tweeds don't get shabby after a month or two. They're fine, soft wool to the last shred—and when that last-shred time comes, after long and constant use, they look wool because they are wool. There's a quality about them that commands respect even among people who never wear their clothes to anywhere near the last-shred time. Hewson "Bannockburn" Tweeds are an especially strong weave—just the thing for work about the farm—or hunting, mining and other rough, outdoor use. Made by special machinery that turns out invincible cloth for hard wear and tear. With these Tweeds a man exposed to changing climatic conditions, to rain, frost, snow, dampness, finds a ready health-guard. Your dealer will be glad to show you Hewson Tweeds. If, for any reason, he should not have them in stock, send us his name, and we'll supply him, and send you samples.

AN HONEST MAN—  
Wrote and told us that Ozone had not cured him of Stomach trouble. He did not say what kind of Ozone so we wrote and asked him if he was sure he had been taking solution of Ozone, the kind that contains a coupon entitling the purchaser to one full sized box package of Celery King free of cost. He replied that he had unknowingly taken some other brand, and was sorry that he had treated us unjustly. Then he commenced to use Ozone (the coupon kind) with Celery King—he is a well man to-day. You can be cured just as easily if you are careful to ask your druggists for Ozone (the coupon kind) made by the PUBLIC DRUG CO., BRIDGE ST., ONT.
