He will receive the certificate and also gets one for his classroom. In speaking of this however there is no intention to discourage other workers, because whatever they are successful in obtaining will all help. Perhaps even their 25cts, 30cts, or 40cts as the case may be will be of much value, and it requires the interest of all our school children, to secure another kitchen.

INSTEAD OF PAINT DON'T paint your pretty home this season, but use instead Velvex Creosote Shingle Stains. By so doing, you can bring out all the beauty of the wood. And think of the preservative value. Velvex Shingle Stains contain Creosote, the greatest wood preservative known. This means prolonged protection against wind and weather. It therefore means economy.

Velvex Creosote Shingle Stains Half the Cost — Twice the Wear Velvex Creosote Shingle Stains cost about half as much as paint. And they wear much better because they penetrate the wood. They do not evaporate or dry out and of course they cannot peel off. These stains come in any color you want. They are very easily applied. You ought to investigate them. We have the complete line and we know you will like them. Write us for a sample of wood stained with Velvex Creosote Shingle Stain. Carrite-Paterson Mfg. Co., Limited Halifax, N. S. St. John, N. B. A large number were present in uniform and some in full. The singing of the National Anthem, "Onward Christian Soldiers," "Soldiers of Christ Arise," and "Stand up, Stand up for Jesus," was splendid. Miss Madge MacPhail ably rendered a patriotic solo. The pastor, Rev. George Orman in unweaving the roll pointed out that all denominational and creed distinctions had been ignored. It was thought that they were Island patriots, eager and willing to respond to their country's call. The discourse delivered was in keeping with the object of the service. Text: "A Good Soldier of Jesus Christ." The names were written out by Mr. John E. Heartz who also read them out to the large congregation assembled.

### Automobiles

Sir.—Judging from the subsidence of talk antagonistic to the running of automobiles in this part of P. E. Island, it would appear that a great many people who were decidedly "against" may be experiencing a revulsion of feeling on the question, or at least willing to admit that the defenders of the automobile as a means of transportation have rights which, if ridden over roughshod by a majority might amount to tyranny. People are beginning to realize that the Anti-Automobile law puts us a bit behind the times, puts us in a false light, leaves the impression with foreigners that we are a hard headed, reactionary class of people, whom it would be better to keep away from, and this

misunderstanding is deplorable, considering the fact that P. E. I. is known over the United States and Canada as "a land flowing with milk and honey."
