Elmsdale And Vicinity

A delicious chicken supper with all its accessories was served to the large number who attended at Elmsdale Hall last week. The success of this social affair was the result of the efforts of the ladies of the United Church. A neat sum was realized. A host of friends here extend heart felt sympathy to the bereaved widow and son of the late T. C. Bell, Alberton. Mr. Bell was well and favorable known in this community, as he was the popular manager of J. H. Myrick Store, Alberton for upwards of forty years. Mr. Charles Burke, who has been absent from this province for some time, returned to Elmsdale last week, where he intends to spend the winter months. Mr. and Mrs. Ernest Myers, Roseville were passengers to Elmsdale from Summerside Saturday. Mrs. Myers is recovering from a recent operation, performed at the Prince County Hospital. Her many friends wish for her a speedy recovery to her usual good health. Congratulations are extended to Mr. and Mrs. Emmerson Hardy 22, the arrival of a baby boy at their home in Elmsdale. His many friends are pleased to learn that the condition of Mr. Fraser Wells is steadily improving. Mr. George McKinnon, teacher at Poplar Grove, spent the week-end at the home of Mr. and Mrs. James O'Brien. Mrs. Basil McNeill recently spent a few days in O'Leary the guest of her sister, Mrs. Daniel McDonaid. The regular monthly meeting of the C. W. L. unit of Elmsdale and Alma, was held at the home of Mrs. J. A. Callaghan on Wednesday. The convenor, Mrs. John P. Wallace was in the chair. Meeting opened by prayer. Minutes of last meeting were read. Correspondence was read and fully discussed. The subject of Study Clubs was discussed, and plans were made to continue the Red Cross work. The postponed meeting of the Elmsdale Women's Institute was held on Wednesday, Dec. 4th, at the home of Mrs. Bruce Currie with a good attendance of members and several visitors. Meeting opened by singing "The Institute Ode" and repeating of the "Creed" in unison. Three members paid their membership fees. Reports from Sick Committee were favorably given. Secretary read correspondence and it was discussed. Mrs. Paterson gave a splendid report of her visit to a firm with whom the Institute had recently had some business dealings and the result of same was that a reduction in our bill was secured. The members agreed to give the usual Christmas treat for the school children, and several ladies offered assistance to Mrs. Wm. Matthews at whose home the parcels will be packed. The Questionnaire on "Legislation" was filled in at this meeting. Lunch was served by the hostess assisted by the ladies in charge. Mrs. W. A. Paterson kindly invited the members to her home for the next meeting. The National Anthem closed the meeting. E.

Gifts From Farm Good For Christmas

It's time to begin to get ready for Christmas and those who live on farms have probably been concerned about just what kind of present they can send to relatives and friends living in distant or nearby cities and towns. The farm has possibilities for Christmas presents which will be much appreciated by their kinfolk living under other conditions. There isn't a doubt but they often think longingly of the good food they had there and never more so than at Christmas time. They recall the home-made Christmas cakes and pies, the turkey and chicken, the home-cured meats, the apples and varied fruits, the maple syrup, the honey and other delicacies. If they could only have some of these good things again! Here, then, are suggestions for those in farm homes for Christmas presents that do not involve much outlay of cash. What could be nicer than a box with a fat turkey, a chicken or geese, with a jar of the family's famous jelly, jam or preserves—even a loaf of home-made bread, the very mention of which causes homesickness. With the jar of home-made jam, mince-meat, pumpkin or pickles, enclose a copy of the recipe from which it was made. Some dried herbs from the home garden and packages of bunches of dried seasonings—sage or thyme or dill or mint. Gifts such as these express the thoughtfulness behind the gift that touches the heart most and best expresses the true spirit of Christmas.

Export Situation Concerning Eggs

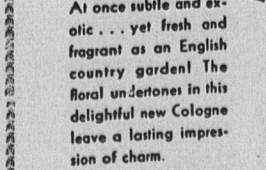

During the first ten months of 1940, Canadian shipments of eggs to Great Britain totalled more than 350,000 cases, the largest on record and more than ten times the volume shipped in 1939. There still exists this year an opportunity to ship an additional quantity under the last British Treasury sanctions for the purchase of eggs in Canada. These exports, made through regular trade channels and without any formal agreements between governments, have been a strong stabilizing factor in Canadian egg prices this year. Although in recent negotiations no formal contracts for the export of eggs were obtained, it is expected that during 1941 the British Ministry of Food will continue to purchase Canadian eggs in quantities comparable with those taken this year, according to the Minister of Agriculture and officials of the Dominion Government who recently returned from Great Britain. These purchases may even be increased, depending upon conditions which may prevail. While maximum prices for eggs (wholesale and retail) have been established in Great Britain since shortly after the war began, eggs have not been placed on the ration list, and as a result the United Kingdom Government has not ob-

C. S. Wood Honoured On His Retirement

On the occasion of his retirement from the position of Chief Inspector of Performance, Dominion Department of Agriculture, to go on superannuation after 29 years service with the Department, Charles S. Wood was, on November 26th, presented by his fellow workers in the Department and those with whom he has been associated in his work outside the Department, with a leather arm chair and footstool. The presentation was made in behalf of those connected with it, by R. E. Hamer, General Executive Assistant, Dominion Department of Agriculture. Mr. Hamer referred to the long, faithful and assiduous service Mr. Wood had given C. S. W., could very appropriately be interpreted as applicable to him as C. for character and courtesy, S. for service and W. for work. Mr. Hamer also referred to the high regard and even affection Mr. Wood is held by everyone who has been in any way associated with him. Dr. G. S. H. Barton, Deputy Minister of the Department, said that he readily and sincerely endorsed the sentiments expressed by Mr. Hamer as he had known Mr. Wood for more than 35 years. Mr. Wood acknowledged the gift and the expressions of esteem, in a brief appropriate reply.

FEED PROBLEM RESEARCH

The increased production of milk, eggs, and other animal products places a great strain on the constitution of domestic animals. The large amount of materials required by the animal body to produce human food makes it necessary that the ration for domestic animal contain much larger amounts of food constituents than is the case under natural conditions where production is limited. A balance must always be preserved between the ability of the animal to consume rough foods that are turned into human foods, and its disposition to remain in normal health and to produce economically. This raises research problems that require the utmost skill on the part of the Dominion Department of Agriculture, scientists in animal husbandry and chemistry.

Must Charlottetown Be Bombed (Like Coventry, Birmingham, Bristol) Before We Face Realities. Our cities could be bombed and might be bombed, unless we use all our strength, and marshal all our resources in men, material and money for defence. What a magnificent example of sacrifice and service the people of Britain's cruelly racked cities set for us! We Canadians must measure up to their standards of heroism. You ask: "What then can I do as a civilian to share in our defence?" The answer is: "All of us at least can save to the limit of our ability, and lend our savings to Canada to help carry on the fight against the Nazi menace". IF YOU ARE AN EMPLOYER, start saving and give leadership. Urge your employees to save. If you have not already done so, organize for them a War Savings Payroll Deduction Plan—the most convenient method for saving and lending to Canada. Get 100% of your organization to participate; EVERYONE must share in it to assure the \$10,000,000 a month needed. IF YOU ARE AN EMPLOYEE, start saving. Give whole-hearted co-operation to your employer in organizing a Payroll Deduction Plan. Use all your influence to persuade fellow employees to save and invest in War Savings Certificates. And keep on saving and investing until Victory is won. Just as the war is being fought day by day, so must the cost be met day by day. That is why the flow of saving and investing in War Savings Certificates must be continuous. No one need go without actual necessities to save, but we urge you not to buy things which compete for labour and material with war production. WAR SAVINGS COMMITTEE Full particulars regarding all War Savings Plans can be secured from W. H. Somerville and de Gaspé Beaubien, Joint National Chairmen, Ottawa. WAR SAVINGS CERTIFICATES \$5 for \$4 \$10 for \$8 \$25 for \$20 \$50 for \$40 \$100 for \$80 Provide a safe investment—a direct obligation of the Dominion of Canada. May be redeemed at option of registered owner, after six months from date of issue at an established scale of values. Provide a good return—your investment increases by 25% by maturity. EARNINGS PER WEEK SAVINGS PER WEEK MATURITY VALUES ON ANNUAL PURCHASES up to \$20 25¢ to \$1.00 \$15 to \$65 over \$20 to \$30 \$1.25 to \$2.00 \$80 to \$130 over \$30 to \$40 \$2.25 to \$3.50 \$145 to \$225 over \$40 \$3.75 to \$9.25 \$245 to \$600 \*limit for 1941 The above table shows the returns on an average basis of saving. These figures are only illustrative because the amount of saving possible varies with each individual's family and other economic circumstances. War Savings Certificates make splendid Christmas gifts. Ask your local bank or Post Office for information on Christmas giving.
