The interest shown by the representative women who attended this meeting argues well for the success of Institute work at Milton.

INSTITUTE MEETING.—The enterprising and up-to-date women of Meadowbank held their first Institute meeting in the School House on May 3rd. The subject discussed was "The Improvement of the School House and Grounds" with a view to making both more attractive in appearance, and sanitary in condition. It was decided to write the Secretary of the Truetees asking that some minor repairs to the building be made at once. With a view to the development of a love for flowers among the children, several present offered to donate house plants to the pupils, which are to be kept in the School House, and it was further agreed to have a competition in flower raising. Each family is to receive a certain number of annuals, and at a date to be fixed, these flowers will be judged and a prize given for the finest collection. A pamphlet was read on "Gardening, The Improvement of Home Surroundings Roadsides," after which there was a very interesting discussion on the use of vegetables, the best kinds to grow, and the modes of cultivation. In this connection a bulletin on Gardening, sent out by the Dept. was found very helpful. Further details in regard to the improvement of the School Building were left over to the June meeting.

LATEST FROM THE THEATRE

EDEN MUSEE, NEW YORK CITY.

For many years the Eden Musee has been growing more popular. This is due entirely to the enterprise shown by the management in keeping up-to-date. Whenever something of importance occurs, no matter where it is, the Eden Musee force of artists immediately produce the same in a wax tableau. The latest figure is that of the late J. Pirpont Morgan. Every afternoon and evening there are concerts by the Eden Orchestra, and in addition the Cinematograph de Luxe moving picture subjects are seen every hour, and altogether a most pleasant two or three hours can be spent at this well known amusement house. The Cinematograph artists are now touring Europe in search of some of the most important scenes from Russia, London, Sweeden, India and many other countries, and will be shown at the Musee in a short time. Arrangements are being made to install electric cooling apparatus throughout the Musee for the summer months. In the World in Wax collection, many additions are being made to the many groups and tableaux.
