

**That Tired Feeling**

That comes to you every spring is a sign that your blood is wanting in vitality, just as pimples and other eruptions are signs that your blood is impure.

One of the great facts of experience and observation is that Hood's Sarsaparilla always removes That Tired Feeling, gives new life, new courage, strength and animation; cleanses the blood, clears the complexion, builds up the whole system.

This is one of the reasons why Hood's Sarsaparilla is the Best Spring Medicine. Accept no substitute for

ARTHUR WRIGHT,  
3-26dwelt twmfimo New Dominion.

**DISCUSSION OF POTATO CULTURE**

And Agricultural Education at Farmers' Institute of Lots 28-29.

The Farmers' Institute of Lots 27-28 held a meeting at Albany, March 18th. There was a large number present, and keen interest shown.

President Cameron presided. W. Arnett suggested we discuss potato growing; does this crop exhaust the soil more than grain?

A. S. Wright spoke of a meeting held in Sarsaparilla at which the statement was made that a crop of potatoes took more from the soil, than one of grain, and he (Mr. Wright) asked how it was there was better grain and hay after potatoes than any other crop, but he could not explain it.

Chas. Craig said we should discuss this subject and ascertain the best varieties of potatoes to grow, as it seems we are not producing the right kind for the best market. It is important also to know if it is an exhaustive crop on the land. He thought potatoes probably if we got 25 cts. per bus.

W. C. Lea claimed that we should grow about half of our potatoes of the blue variety, as the Sydney market did not want any other kind for winter.

W. Arnett said he wanted the opinions of the farmers. He believed it paid to grow them, and that they did not exhaust the soil as much as grain.

Jos. Noonan said that as a rule the farmer who was growing six to eight acres of potatoes yearly, was most successful. He did not think they exhausted the soil as much as grain but we should feed the most of our crop on the farm, if we have the right kind of stock.

J. Arnett said he understood by his reading that the potato plant fed from the soil to a large extent; he always had a good crop after a liberal dressing of barnyard manure and some mussel mud on the very poorest of his land.

The President also gave it as his experience that potatoes did not take as much from the soil as grain.

The consensus of opinion was that potatoes are a profitable crop to grow. A short talk on winter dairying, and the growing and feeding of turnips followed, during which it was urged that cattle should never be allowed on the root fields in the fall, after the crop is taken off.

Mr. Harvie, school teacher, was invited to speak on the subject of "Agricultural Education." He asked for the opinions of the farmers present on this important matter and a lively debate ensued, taken part in by W. Arnett, A. S. Wright, Jas. Arnett, D. J. Thompson, the President, Chas. Craig, Jos. Noonan and others. Mr. Harvie said it was difficult for country school teachers to find time for this branch, when they had so many classes to teach. Better results would be obtained if schools were consolidated and parents sympathized and co-operated more with the teachers.

The discussion waxed warm but it was conceded that we should have more Agricultural Education in our schools.

The Secretary read a circular from Prof. Readey re Institute Convention to be held in Charlottetown, April 10th, 1906. Delegates were appointed from this Institute viz G. W. W. Cameron, Chas. Craig, A. S. Wright, Jos. Noonan and T. H. Smith. This closed the winter series of Institute meetings. They are believed to have benefited our members, and others who have attended them.

JAMES E. HOWATT,  
Sec'y.

**BROKEN SLEEP-TIRED NEXT MORNING.**

Sleep not only rests, but builds up the body. Cut down the hours of sleep and you cut down health in the same proportion. Rebuilding then ceases, nerves go to smash, you grow tired, weak and wretched.

To restore sleep you must get more bodily strength, more nutritious blood, healthier nerves. Ferrozone solves the whole problem, makes you sleep soundly, gives endurance, vim, ambition. No more morning weakness—instead the fire of youth will run in your veins, supplying abundance of energy and vigor. Witchery expresses the instant effect of Ferrozone; try it.

**WITH CANADA'S FORCES.**

LONDON, March 25.—Captain D. D. McInnis, D. S. O., and Lieutenant P. H. French have been selected for employment with the Canadian forces.

**THE ROYAL TOUR.**

Train De Luxe to be Furnished by the Grand Trunk Railway System for H. R. H. Prince Arthur of Connaught for His Tour Through Eastern Canada.

The Royal train that the Grand Trunk Railway System will furnish for Prince Arthur, the distinguished visitor who is coming to Canada next month, will be the finest and most luxurious in the world. It will consist of four cars including a Pullman composite buffet smoking car, a Pullman dining car, Pullman compartment sleeping car and the Grand Trunk private car "Violet."

The entire equipment will be a revelation to those accustomed to railway travel. First in order will come the "Viceroy" composite car. Twelve deep-leathered upholstered chairs invite the smoker, rivaling in luxurious comfort the lounge in an alcove of the same apartment. Conveniently joining the smoker is a buffet with a barber shop and white tiled bath-room annexed to it. The architecture of the interior of this car is a simplified treatment of the German "Modern Style," the finely grained "Koko" wood being dark brown with a conventional flower motif in marquetry to lend color to the panelling. Blending harmoniously with this the furnishings are of deep olive and brown with the burnished gold metal lamps contrasting effectively with the tout ensemble. A portion of this car is provided for the storage of baggage.

No less attractive will be the second car, the diner "Munroe" which in architectural design and beauty is entirely different to the "Viceroy." Here the Flemish style prevails; the richly carved oak, stained and Antwerp brown, extending in a wainscoting to the lower portion of the ceiling which is squared off, making the car seem like a dining hall of a palace. The lighting of this car is also unique, for besides the electrolights in the ceiling, a small candelabrum branches over each of the ten tables, and antique lamps are hung at intervals along the sides of the car. Third in succession, but equal in beauty will be a Pullman compartment sleeping car containing seven rooms. Each compartment has its individual color scheme and furnishings and its complete toilet appendages each rivaling its neighbor in exquisite furnishings. Covering the floors of these three cars is heavy "Wilton" carpet of exquisite designs and of a color to harmonize with the surroundings.

The three cars referred to above were awarded the Grand Prix at the World's Fair at St. Louis in 1904, and are conceded to be the handsomest, most luxurious and comfortable in the world. The last car on the train will be the "Violet," the handsome private car built for Sir Charles Rivers-Wilson, K. C. M. G., C. B., president of the Grand Trunk Railway System, and will be occupied by Prince Arthur and his entourage. In addition to its beautiful architectural design, the richness of its furnishings, the large, comfortable bedrooms, the "roomy" dining-room and spacious cosy observation end, and its interior air of elegance, it is a car which offers all the requirements for comfort and ease in travelling. Two of the rooms in the "Violet" are supplied with baths, cleverly concealed from view in the floor of the car. A library containing the latest books has been installed, and everything that will tend to make the Prince's visit while on the Grand Trunk a pleasant one has been done, while a trip over the only double track line in Canada will give the visitors a good impression of Canadian railways.

The entire train will be electrically lighted from power generated in the baggage compartment of the composite car, special turbines and dynamos having been installed for the purpose. A telephone system will be provided, whereby communication can be had by phone from one car to the other while train is en route, and while train is standing connection will be made, giving the opportunity of using the local circuit or long distance lines at any point.

The Prince will take the train at Ottawa on April 20th, and will be conveyed by the Grand Trunk from Ottawa to Toronto, Hamilton and Niagara Falls, then back to Montreal; from thence the party will proceed by the Intercolonial Railway for the tour through the Maritime Provinces.

**More Terrible Than War!**

More terrible than war, famine or pestilence is that awful destroyer, that hydra-headed monster, Consumption, that annually sweeps away more of earth's inhabitants than any other single disease known to the human race.

"It is only a cold, a trifling cough," say the careless, as the irritation upon the delicate mucous membrane causes them to hack away with an irritable tickling of the throat. When the irritation settles on the mucous surface of the throat, a cough is the result. To prevent Bronchitis or Consumption of the Lungs, do not neglect a cough however slight as the irritation spreading throughout the delicate lining of the sensitive air passages soon leads to fatal results. If on the first appearance of a cough or cold you would take a few doses of

**Dr. Wood's Norway Pine Syrup**

you would save yourself a great deal of unnecessary suffering. Dr. Wood's Norway Pine Syrup contains all the life-giving properties of the pine trees of Norway, and for Asthma, Croup, Whooping Cough and all Throat and Lung affections it is a specific. Be sure when you ask for Dr. Wood's Norway Pine Syrup to get it. Don't be humbugged into taking something else. Price 25 cts.

Miss Lena Johnston, Teleda, Ont., writes: "I have used Dr. Wood's Norway Pine Syrup for throat troubles after taking numerous other remedies, and I must say that nothing can take the place of it. I would not be without a bottle of it in the house."

We have a good stock of both hard and soft coal in round, nut, run of mine and slack sizes.

**HERE'S A MESSAGE**

**CHRISTY HATS ARE HERE.**

Come right this way sir, with any Spring Hat idea you may have. Among the new Christies we've every shape that's going, that's correct. There are higher priced hats than the Christy, but there are no better ones.

If you want the best hat that your money can buy, it's here for you at \$1.00, \$2.00, \$3.00 the hat.

The Hard and Soft Hat styles are sensible and becoming. We hardly need tell you that our entire showing is prettier than ever you saw before.

We can't tell you whether you'll choose a soft hat or a derby—so we have both kinds.

We don't know what shape you'll prefer—so we have all shapes.
