Few people know of the splendid qualities of Olive Oil or it would be used in every home. Olive Oil is a splendid article for both external and internal applications. Taken internally it strengthens the system, tones up the appetite, and gives the body

the necessary oils needed to lubricate the human machine. It has been used for toning massaging and external applications ever since the Roman era, and for good according to size. MacKinnon Drug Co., Cor. Great George and Keat Streets, Mt.

The traditional means of conveyance for the incoming and outgoing Canadian Governor General is a regular passenger liner. The Duke of Connaught came to Canada on such a boat. Bread remains at the old price, although flour has increased thirty cents a sack.

P. E. IS PART AS FOOD PRODUCER

More perhaps than such armed help as she can give, Canada's great assistance to the Motherland in the present struggle would naturally be her food-producing resources. In that respect Prince Edward Island will play an important part, as is manifested in the data which was supplied yesterday by the Provincial Agricultural Department as to the Island's agricultural activities. Of the Department the Canadian Countryman made some inquiries upon the subject. The question was first asked: "Do you expect the prices of farm products to advance?" The reply was: "Yes, we expect them to advance sharply—in fact, they have already advanced." The next question was as to what products, and in what quantities, could the Island be depended upon to supply. The answer to this was that P. E. I. was capable of producing under normal circumstances, in each year, two million bushels of oats, five thousand tons of hay, three to four million pounds of meat and five million dozen eggs.
