COMPLETELY CURED OF DYSPEPSIA

By Na-Dru-Co Dyspepsia Tablets
We are continually hearing from grateful people who have had experiences like that of Miss Alice E. Cooper, of Niagara Falls, Ont., who writes:
'I wish to express my gratitude to you for the benefit I received from your most wonderful Dyspepsia Tablets. Having taken other medicines without having received the slightest relief, I heard of your Na-Dru-Co Dyspepsia Tablets and thought I would give them a trial. I have been completely cured of dyspepsia. I will be only too pleased to advise any one troubled with dyspepsia to give them a fair trial.

HOUSEHOLD NOTES.

A cloth dipped in ammonia will often remove the stains from the collar of an overcoat.

Whip cream in a pitcher instead of a bowl, to do it in half the time and without spattering.

Paraffine rubbed on the heels of stockings will cause them to last much longer without wearing out.

Orange fritters are as delicious an accompaniment to broiled or fried ham as apple sauce to spare rib.

Dates stuffed with peanut butter and then rolled in sugar are a pleasing change from dates stuffed with nuts.

If certain oil portiere pole is rubbed with hard soap before being put up, the draperies will slip on easily.

Dates and figs cut in small pieces and served with plenty of sugar make a tasty accompaniment to a dish of rice boiled in milk.

Cheese may be kept soft and good for a long time if wrapped in a cloth wrung out in vinegar and wrapped again in a dry cloth.

Whole wheat or brown bread cut into very thin slices and spread with unsalted butter is tasty served with oysters on the half shell.

Strange as it may seem, beef may be kept for months if immersed in sour milk. The lactic acid destroys the germs of putrefaction.

Scraps of toilet soap should be saved, and when half a cupful or so is on hand it is a good plan to make the scraps into a jelly.

To use sour milk for griddle cakes never add baking powder, but instead, an even teaspoonful of baking soda to each cup of milk.

Stick a pin through the cork of every bottle that contains poison and this may save tragic mistakes when seeking medicine in the dark.

Some of the most attractive glass mustard jars come provided with glass spoons. Many prefer these to silver, as they will not tarnish.

When the squirrel bathes. I saw a squirrel take a bath the other day. It was raining, and this seemed to be an assistance to him. I was at a loss at first to understand what he could be up to.

He was in the crotch of a tree to which he attached the shelf that holds a drinking dish that the squirrels and the birds use in common.

Chippy would first lie on his back and pull himself along then he would roll to one side and do the same, and then to the other. Suddenly he sprang to his haunches, drew his paws along his wet sides, and then rubbed them over and over each other, as you may have a chance to see any one when he has been washing himself at the kitchen sink.

Has last performance was the most amusing of all. After he had got his body and his hands cleaned to his satisfaction, he began on his face. This process also reminded me of the man when he rubs the water over his face with his hands. The comical part was to see the squirrel use

both hands at once, just as the man at the sink does, except that the squirrels rubbed from his ears to his nose after the fashion of a cat. The impression that this gray squirrel was taking a bath drawn upon me when I realized that his fur must be wet through with the rain which was steadily falling. After every part of his body had been thoroughly gone over, Chippy scurried to the top of the tree and stretched himself full length upon a limb, waiting for the sun to come out and dry him.—The Visitor.

KITCHEN SUGGESTIONS.

Use hot milk instead of cold when mashing potatoes and they will be fluffier.

Cress minced as fine as possible and mixed with mayonnaise makes a delicious sandwich.

Chicken fat is far better than butter to use in making a white sauce when greaming chicken.

Try a paint brush when you are cleaning baseboards, window sashes, etc., and you will appreciate it. A paint brush will get dust out of cracks better than any duster will, or cloth cannot reach all the corners.

Always lower the temperature of the oven somewhat fifteen or twenty minutes after a roast has been placed in it. This will insure that the juices are retained.
