**Why look older than you are because of the wrong corset**

The rightly shaped corset will preserve the youthful lines of your figure—will mould it to the lines of beauty and attractiveness. Do not allow your figure to grow old—before you do, when so small a matter as the right sort of a corset will prevent it.

The right corset can make a poor gown much better, but no gown however elaborate can make up for a poor corset. This store stands ready to provide you with what is right in corsets, the largest stock of D & A and B & I corsets in the city is here for you to choose from 50c to \$3.50.

Brassieres in various styles and sizes \$1.00 each.

Women's and children's corset waists in the popular Gloria, here in all sizes. **THE MOORMAC DOLLAR CORSET** is just about the best little corset for one dollar that you have ever seen. It is smartly made of fine firm coutil, it has hose supporters attached, it is as nicely made as most corsets that are offered you at 1.25 and it is only **1.00**

The MOORMAC at 75 cents is another great value.

The handsomest papers we've ever had—in greater range than ever, ready now. 5c to 1.25 per roll

S. S. Campana arrived in this port early yesterday morning with a large freight. After discharging her cargo she proceeded to Picton to coal, returning this morning. She will load with general freight for Gaspe, Coast and Montreal, and will probably leave this port sometime Monday afternoon.

**SWEET PEAS.**

Most everybody is fond of sweet peas but how many fail to get them to bloom as they like them, it may be the fault of the seed. A prominent lady of this town called and said, "we had grand results with the sweet pea seed we bought from you last spring." She also added, that her neighbor's sweet peas were a failure. Of course we answered she made a mistake by not buying their seed from us. See our advertisement in this paper.

**SEWING MACHINE "NAMES" VS SEWING MACHINE "VALUES"**

Our experience has taught us that sewing machines are made of two classes. One class has the factory's name stamped on it, and in most cases are of the finest steel case hardened. The other is a commercial machine, which is manufactured with but one end in view, that is, to be produced at a price which will be so low as to sell at first sight. These are termed stencil machines, and the name is generally changed every few years so as to avoid the indignation of subsequent purchasers. The new name has none of the old faults to answer for. When you buy a machine which has the factory's name stamped on it, you feel safe for future use, as far as needles and shuttles are concerned, and if it gives dissatisfaction, the dealer and manufacturer suffer by the loss as well as yourself. When you are in need of a buy too old and reliable machines, such as New Home, Sew Ideal, New Williams and New Raymond. And also on the best method of using the fire escapes. After passing bills, the meeting adjourned.
