Some of the residents of the eastern end of the city, especially in the vicinity of the P.E.I. Station, have been somewhat alarmed recently by a vibration in their water pipes, the direct cause of which cannot be located by them. On Sunday night, or in the early hours of the morning, one householder heard a curious tapping in the lower part of the house which he, in his semi-waking state, decided must be a burglar. He tip-toed down stairs and found he had been deceived by this vibration in the water pipes. In order to get sleep he had to block up the pipes. The same effect has been produced in the Station itself and also in other dwellings and boarding houses around that section.

Despite other attractions the People's Theatre was exceedingly well patronized last night. The pictures were especially good. "The Master's Son," the new reel for the evening being an interesting story silently told. Miss Fredwin opened her engagement as vocalist and captivated her hearers on her first appearance. What she lacks in stature she certainly makes up in musical volume, possessing a voice of rare quality and it is claimed she takes a half note higher than the famous Madam Yaw. Miss Fredwin's range is two notes over three octaves, from B below middle C to G, three octaves higher. If the first night is a criterion of what is to follow, the patrons of this popular theatre have a treat in store for them and the management is fortunate in securing such a singer.

THE BRIDE.

The orange blossom crowns her the bridal satin gowns her the happy anthems ring; Girlhood's gay reign is over She goes to meet her lover Waile Eden's voices sing.

The marriage vow is spoken The wedding bread is broken With blessings and with tears; These two set out together Through storm and sunny weather To journey through the years.

Fate send you choicest dower Great joy and plenty shower From blue and kindly skies; Earth's music and its laughter And gladness ever after And love that never dies!

So life goes on forever Hands join no more to sever The roses crown in June! And down the aisle-a-swinging We hear the angels singing A joyous hymnal tune. -Kate Masterson, in June Columbian.

REDUCED TO A SKELETON DOCTOR SAID SHE WOULD DIE "Fruit-a-tives" Saved Her Life

RIVIERE A PIERRE, QUE., May 9th 1910. "I look upon my recovery as nothing short of a miracle. I was for eleven years constantly suffering from Chronic Dyspepsia, Indigestion and Constipation. The last two years of my illness, I was confined to my bed nearly all the time. I was so thin I weighed only 90 pounds, and I vomited everything I ate. Even water would not stay on my stomach. The doctors gave me up to die as the stomach trouble produced heart weakness and I was frequently unconscious. At this time, a lady friend strongly advised me to try "Fruit-a-tives" and how thankful I am that I did so. When I had taken one box, I was much better and after three boxes, I was practically well again and had gained 20 pounds. I have taken thirteen boxes in all and now weigh 150 pounds and am absolutely well-no pain-no indigestion-no constipation-my heart is sound and complexion clear." MADAME ANTHUR TOURANGEAU, 50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers, or from Fruit-active Limited, Ottawa.

CHRONICLE SIXES Some Important Facts Briefly Told. In view of the large subscription and advertising clientele secured as the result of the publishing of the "Nova Scotian," "Chronicle" and "Echo," the Good-Will is alone worth more than twice the amount of the bond issue. The equity in the Chronicle Building is valued at the amount of the bond issue. The plant and other assets covered by the mortgage by which the bonds are secured are worth several times the amount of the entire bond issue. Thus the investors' principal is secure. The average annual net earnings for the past five years, after making liberal allowance for depreciation, were more than four and a half times the amount necessary to pay the entire bond interest.
