The Peps way of treating coughs, colds, bronchitis and lung and throat troubles. How? Well, up to now people with these chest and throat troubles have swallowed cough mixtures, sickly syrups and the like, into their *stomachs*. Sore lungs and throat get no good by dosing the stomach. Peps work differently.

Peps are tablets made up of Pine extracts and medicinal essences, which when put into the mouth turn into healing vapors. These are breathed down direct to the lungs, throat and bronchial tubes—not swallowed down to the stomach, which is not ailing. Try a 50c. box of Peps for your cold, your cough, bronchitis or asthma. All druggists and stores or Peps Co., Toronto, will supply

NOW IS THE TIME

to send some Zam-Buk to your soldier friend at the front. With the coming of cold weather, the men in the trenches all suffer, more or less, with chapped hands, cold cracks, chilblains and cold sores, and the soldier who has some Zam-Buk on hand to apply immediately any of these painful ailments make their appearance, will be saved hours of suffering.

Pte. E. Westfield of "C" Company, 3rd Worcester Regiment, writes: "We wish our friends would send us out more Zam-Buk. It is splendid for sore hands, cold cracks, cold sores, etc.

Nothing ends pain and heals so quickly as Zam-Buk, and being germicidal, it prevents blood-poisoning.

STRIKING CURES IN WAR HOSPITALS.

—LONDON, Nov. 8.— Lieut.-Col. Clarence Starr, of Toronto, who has had charge of orthopoedic work in Canada, is now at the Canadian Special Hospital, Ramsgate, preparing for setting up in Canada several institutions.

Col. Robert Jones, Director of the Military Orthopoedic work in Great Britain, is establishing hospitals similar to the Canadian Hospitals at Ramsgate all over Britain.

Canada has thus led the way in one of the most successful medical enterprises of the war.

Among recent striking cures at Ramsgate is Corpl. Hogan, a former employe of the Grand Trunk, who had been twice wounded at Ypres. He was buried alive during the Somme operations, whilst following the tanks, and when rescued he had lost his speech, hearing and taste.

After ten minutes' treatment, through mental suggestion at Ramsgate, his deafness and dumbness had vanished, and he has since recovered the sense of taste.

Another man named Villeneuve was struck blind by a star shell, and went fourteen months from hospital to hospital fruitlessly. Eventually he reached Rumsgate, where special treatment restored his sight, and he is now on active service again in France.

Thin People Can Increase Weight

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay there" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal— for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think The scales and the tape measure will tell their own story, and many thin men and women we believe can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

Sargol does not of itself make fat, but mixing with your food, it aims to prepare the fattening strength-giving material of what you have eaten, into rich, ripe fat producing nourishment for the tissues and blood— prepare it in an easily assimilated form which the blood can readily accept. Much of this nourishment now passes from your body as waste. But Sargol works to stop the waste and do it quickly and to make the fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive, leading druggists in this vicinity sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back as found in each large box. If you find a druggist who is unable to supply you with Sargol, send send $1.00 money order or registered letter to the National Laboratories, 74 St. Atoine St., Montreal, and a complete ten days treatment will be sent you postpaid in plain wrapper.

STRANGE JOBS ARE DEVELOPED BY WAR.

One is desruction of three and a half million condensed milk cans each month.

The present war has developed unusual employment for a large number but probably a group of Americans in Belgium has the king pin of all strange jobs.

Fancy finding employment in the counting of about three and a half million empty condensed milk cans each month and seeing that they are reporting the same to the British Government. This is what a detail of the Belgian Relief Commission has to do and its job is a serious one, humorous as the aspect may be from this distance.

When things were running smoothly as far as the importing of food into Belgium was concerned so that the seven million people there might be kept from starvation there was a sudden order from Great Britain that the importation of condensed milk could be tolerated no longer as it had been found that the empty cans were being used by the Germans for the manufacture of bombs.

Here was a serious condition but the Belgian Relief Committee had become accustomed to such things and mastered it. Cows were few in Belgium and children many and milk a necessity. The cutting off of the supply would mean starvation to thousands of these tots so the committee agreed with Britain that if the importation of the milk were permitted the cans would be destroyed.

One ton of condensed milk means 2100 cans and the importation in one section by the committee consisted of 1650 tons or 3,465,000 cans— all to be destroyed after being emptied and that each gets. That is why the Belgian Relief Committee, 59 St. Peter Street, Montreal, iterator and reiterates its appeal to the people of Canada to give and give more to this through the local Belgian Relief Committee or director.

The Committee men attacked the job. They count the cane, dump them in trenches and destroy them beyond the possibility of their ever being used by the German for bomb casings.

This is but one of the numerous difficulties that this immense organization has overcome. These men and women working without compensation, making many sacrifices, are carrying on the greatest work of humanity the world has ever known and they balk at no details and no reserve that presents itself. Their only regret is that there is not more food, more relief, sent to make their duties heavier.

They know the conditions, they know that Belgians are starving and that they are getting but half the ration that is dealt out to a soldier. The weak, the sick, the strong must be fed alike and it is little enough

LAZARO

"The Greatest Tenor since Rubini —a Greater than Gayarre!"

THE voice that swept whole *countries* into adoration. And you can hear it on Columbia Records before the great tenor makes his first appearance on the opera stage in this country.

In Lazaro, the world is listening to a voice that will be recalled in future generations as the great world tenor. Not only is there no voice of greater power, but there is no tenor with such range or control.

12-inch—$3.00 each

48762 AÏDA—CELESTE AÏDA. (Radiant Aida).

48741 LA BOHÊME—CHE GELIDA MANINA. (How Cold Your Hands).

48747 L'AFRICANA—O PARADISO! (Oh Paradise on Earth).

48783—I PURITANI—A TE O CARA. (Often, Dearest).

Imagine a tenor voice that shades down to a whisper, to an exquisite, scarce-breathed shadow of sound—then is carried higher and yet higher; swelling, sustained, a mighty organ-note—until the very *air* seems ringing with its power.

Your dealer has Lazaro's records *now*. Ask him to play them—and hear a tenor who has no equal in the world.
