THE BUSINESS WE ARE ENGAGED IN.

Life Insurance ranks easily with the greatest businesses of the day. Its object is the protection of the home and loved ones something next to every true man's heart. Its keynote is Service, and the men who have labored to build up this great institution are among the world's benefactors. Think of the poverty, suffering and distress relieved by Life Insurance. Every Agent known by personal experience how the Policy of his Company has become a rainbow of hope to a home deprived of the breadwinner. The very soul of Life Insurance is the alleviation of suffering, the homes that have been kept up, the pathway of life that has been brightened for millions of widows and orphans, through the Life Insurance Policy. Although our Life Insurance Institution has grown to such tremendous volume, there is still a wide field for the service of the faithful Agent. It is stated that five million children in Canada and the United States are compelled to go out into the world to earn their own living. While we know work under favorable conditions can be a blessing, to expose young women and girls to the temptation of factory life, the degradation of the future motherhood of the race. There is need of greater insurance upon the lives of the fathers of America. Think of the thousands of widows and orphans, the homes that have been kept up, the pathway of life that has been brightened for millions of widows and orphans, through the Life Insurance Policy.
