MARKET GOSSIP

(By Johnston and Ward's Special Wire)

MORNING MARKET LETTER

NEW YORK, N. Y., May 10—Yesterday's market opened strong on large volume. Good advances in the rails were regarded as significant in as much as the rail average recently had shown inability to confirm the upswing in the Industrials. However after reaching their best level about mid day the rails began to sag losing half their gains while the industrials continued up until the last hour. Volume was smaller on the reaction. Selectivity was again apparent and at this level we would look for more of it today rather than a broad general advance. The Industrials showed quite varying degrees of bouyancy while the rails and utilities relatively are a drag on the market.

Laidlaw and Company.

BANON SAYS

MONTREAL, Que., May 10—Plenty of enthusiastic buying appeared yesterday, but on the whole the averages showed no material progress as the session came to a close. The fact that Industrials have entered new high ground and generated a great deal of bullish sentiment may lead to the view that I should alter my attitude and recommend re-instatement of long positions recently surrendered. As long, however, as railroads refuse to develop decisive bullishness, I am inclined to suggest that the latest upthrust be viewed with caution. Gold shares moved rather aimlessly yesterday. Dome, however, was again an exception to the rule, the stock was well bought and closed at the top of the day. Dome may certainly be picked up on all minor dips. Continue to accumulate McIntyre, Hollinger, Teck Hughes, Central Patricia and Can Malartic.

BARING LETTER
Thursday Afternoon

NEW YORK, N. Y., May Wheat and corn rallied a fraction further and I still believe a good advance level has practically been reached within a few points. Would hold for about 30 points more.

Stocks rallied further and during the last hour, as predicted last night, reacted about a point. The Industrial averages got up to 113.92 and my long predicted 118 is not very far off. By the time that level is approximated, the rails should get active and advance at least 5 points on an average. I still advise keeping long of all the stocks recommended since the middle of March when the averages were 96.

Spiegel May was recommended last fall for at least 78 and when it got to 79 we advised profit taking. About six weeks ago we said to buy it back below 45 and it went to 43 7-8, the next day and to 44 1-4 thefollowing day. After it got up to 52 or 53 we said it could still be bought at or below 48 and it reacted to 47 1-4 week before last. Today it rose to 59, would still hold it.

Fairbanks Morse got active and rose to 23 3-4, closing at 23 1-2, which proves that its apparent bad action last week meant nothing at all. The stock will reach 40 as predicted ever since it was 18.

Amn. Tel and Tel got up to 119 5-8 closing at 118 3-4. A few months ago while it was acting badly around 103 and 104 I said it was a great bargain around 100 even if it did cut its dividend to 5 per cent. That advice was repeated several times and it made a low at 98 7-8 in March, which I said then still holds good, and I do not expect a cut to 5 per cent.

Col. Pictures made another new high at 52 1-4, but don't sell yet. DuPont rose to 99 1-2, McKeesport Tin Plate to 121 don't sell them yet. Phillip Morris earned near $5 the last fiscal year, but will show about $3.75 which is about 3 times more than any previous year, still a buy below 44. Case Threshing sold above 60 and can still be bought below 58. Johns Manville sold above 51 still a buy if it reacts to 49. Westinghouse sold above 47 and can still be bought at 45. Briggs recently recommended near 26 sold at 30, hold it. United Aircraft can be bought below 13, General Electric near 24, Commercial Solvents near 19. Rubber pfd near 30, McIntyre below 44, Atchison around or below 40 and Simms Pete 16.

BANON'S "NOON LETTER"

MONTREAL, Que., May 10—The market holds fairly well this morning under the leadership of utility shares. Decisive strength on the part of the rails, however, has so far failed to make its appearance. Henry I. Parrima, retiring President of the U. S. Chamber of Commerce pointed out last evening that business in the United States "can be speedily accomplished by assurance Congress will adjourn soon and that thereafter major reform measures will await a real revival of industry, an international stabilization of currencies at the earliest possible date, so that foreign trade may move with less hazard, a strong assurance that further devaluation of the dollar will not be used as a measure to restore prices, assurances of a definite and drastic reduction in government expenditures after present emergency appropriations have been spent." The odds are against the likelihood that the Patman Bonus Bill will become law. More important, however, is the fact that the attitude of Congress on this Bill is a strong symptom indicating the presence of an inflationary sentiment in Washington and a general desire in favor of putting more money into circulation.

Increased business for Chrysler during recent months has been a major cause of expanded sales for Electric Auto Lite Co. which for the first two and a half months of this year were considerably ahead of the corresponding 1934 period.

Montreal Power reports April production at 78,131,270 kwh. reduction of 6.67 percent from year ago. Collateral borrowings by Montreal Stock Exchange members firms totalled $18,243,169 on April 30, representing decrease of $568,-628 for the month.

McColl Frontenac's outlook remains satisfactory, President Irwin informs shareholders at annual meeting.

Weekly report of Bank of Canada shows substantial increase in Dominion Government deposits and decline in deposits from chartered banks.

Dividend declarations are announced for the half year of 25 cents regular plus 37 1-2 cents bonus for Imperial and 75 cents regular, plus 50 cents bonus for Int. Pete, both disbursements are payable June 1st to shareholders of record May 23rd.

CHICAGO, May 10—Fears that a bearish surprise might be contained in forthcoming government crop estimates led to stop loss selling of wheat late today, tumbling prices down.

Forecast indicating showers over a considerable area of wheat territory had a further bearish influence. Corn gave way with wheat and as a result of increased speculative pressure to sell.

Wheat closed weak, 1 1-8 to 1 3-8 under yesterdays finish, July 94 3-4-7-8; corn 7-8 to 1 3-8 down. July 81 1-8 to 1-4, oats 1 cent off to 3-4 up, and provisions unchanged to 5 cents decline.

PINEAPPLE BAVARIAN

Having talked of the charms of Bavarian creams, we include one example, a delicious dessert made with shredded canned pineapple. (If you should substitute, be sure to cook it first, or the mold will never set.)

2 tablespoons gelatine
1 can pineapple
1 tablespoon lemon juice
½ cup cold water
½ cup sugar
Whip from 3 cups cream

Soften gelatine in cold water. Bring pineapple (the pulp shredded) sugar and lemon juice to boil. Add gelatine and chill in bowl of ice or ice water stirring constantly; when mixture begins to thicken, fold in whip from cream. Turn into wet molds.

Even Rheumatic Pains Eased Fast Now!

BAD HEADACHES, NEURITIS PAINS OFTEN RELIEVED IN MINUTES THIS WAY

Remember the pictures below when you want *fast* relief from pain. Demand and get the method doctors prescribe—*Aspirin*.

Millions have found that *Aspirin* eases even a bad headache, neuritis or rheumatic pain often in a few minutes!

In the stomach as in the glass here, an *Aspirin* tablet starts to dissolve, or disintegrate, almost the instant it touches moisture. It begins "taking hold" of your pain practically as soon as you swallow it.

Equally important, *Aspirin* is safe. For scientific tests show this: *Aspirin does not harm the heart.*

Remember these two points: *Aspirin Speed* and *Aspirin Safety*. And, see that you *get ASPIRIN*. It is made in Canada, and all druggists have it. Look for the name Bayer in the form of a cross on every *Aspirin* tablet.

Get tin of 12 tablets or economical bottle of 24 or 100 at any druggist's.
