(Canadian Press.) MONTREAL, Aug. 11—Events moved rapidly today in the struggle between the priests of St. Marie College at St. John's and the Ecclesiastical authorities, who interdicted them for refusing to move the institution from that town and return to the diocese of Ste Hyacinthe, where they were located under Bishop Bernard's jurisdiction some years ago and before the disastrous fire destroyed the buildings and caused them to decide in favor of removing to some more favorable site.

TO TAKE LEVEL OF GREAT LAKES.

OTTAWA, August 9—For years the Canadian government in any business requiring authentic information as to the levels of the Great Lakes, has been obliged to rely on United States records. The American government has been taking the levels for years while the department of public works has attempted the work in a haphazard manner. This dependence was especially marked in the proceedings relating to the Chicago drainage canal. The naval service department has now made arrangements to take systematic records of the levels so that henceforward Canada will have her own statistics on the subject.

CLOSE CALL FOR SACKVILLE FAMILY.

SACKVILLE, Aug. 9—The house and barn of Edward and William Ogden situated near the town line on Main Street were struck by lightning during a very heavy thunder storm Wednesday afternoon, and almost wrecked. Edward Ogden and his wife and a child, two or three years of age, were in the sitting room when the bolt struck. The older people were standing in the bay window facing the street and the child was sitting on the floor a few feet away. Mr. Ogden says he remembers a crash and nothing more, until his brother William, who was sitting in another part of the house at the time, tried to pick him up from the floor where he had fallen. He was badly stunned and for a time his legs seemed paralyzed. Dr. Knapp was summoned but stated he would probably come around all right in a short time. The ports has also appointed a commission to inquire into the Kotschana massacre.

CLAUDE MCCABE WAS DROWNED IN MARSH YESTERDAY AFTERNOON

The Son of Layton McCabe-Seized With Cramps in 15 Feet of Water

Seized with cramps while bathing at Cullen's Marsh, Alexandria, yesterday afternoon, Claude McCabe, aged 20 years, son of Layton and Mrs. McCabe, lost his life. The young man had just finished his dinner and, in company with his brother Alvah, aged 14 years, went for a last walk around the place previous to his departure. Arriving at Cullen's Marsh, about three quarters of a mile from home, the two decided on a swim and accordingly doffed their clothes and went in. The spot chosen was a hole about eighteen feet square with abrupt edges and fifteen feet in depth. They had only been in a few moments when the older boy was attacked by cramps and called for assistance. This the younger chap manfully rendered and experienced great difficulty in getting his brother toward the bank. He became exhausted when only about three feet from the shore and had to allow his burden to drop. Claude immediately sank. Hurriedly putting on his clothes Alvah ran home for assistance. His father harnessed a horse and drove by the road to the scene. Owing to the distance from the marsh the unfortunate young man was in the water about half an hour. Arriving on the scene his father prepared to go after the body. James Cullen, who resides about 100 yards from the marsh, and Bruce Wood and Austin Judson, who arrived about the same time, lent their aid in the recovery of the body. Fastening a rope around his body, the other end being held by James Cullen, the father went to the bottom for his son. This attempt failed and, with Austin Judson holding

This race brought five starters to the wire, viz., Miss Wrigley, Krennut, Perfection, Score Card and Winnie M. The Souris horse captured first heat in splendid form and style, and looked good for the race. To the astonishment of all, Winnie M. acted bad and her admirers were disappointed. It turned out she had thrown a shoe, and she proved herself an easy winner in the following three heats. Perfection, owned by P. C. Brown, made a good race in the first heat, but owing to a former accident, he showed lameness and his driver was obliged to drive him easy. Miss Wrigley was on her bad behavior and Score Card did not shine as brilliantly as on former occasions. It must be remembered that Krennut has not had any training this season, and his beautiful trotting was the centre of attraction and favorable comments. It is understood that Krennut goes to Tunnel Park Stables for the remainder of the season where he will be trained by Mr. Irving.

A DISASTROUS EARTHQUAKE IN TURKISH ASIA

(Canadian Press.) CONSTANTINOPLE, Aug. 11—Reports here today indicate that a great earthquake, which was felt through a greater part of Turkey yesterday, was accompanied by a much heavier loss of life than was at first indicated. The newspapers estimate the number of victims at a thousand killed and 5,000 or 6,000 injured. The disturbance was widespread, thousands are homeless and outbreaks of fire occurred in many towns and villages. Shocks were felt by warships anchored in the Dardanelles. The Captain of the American steamer Virginia reports that the light house at Sanes Hora in the sea of Marmora has disappeared and that villages in the surrounding country are in flames. She was unable to anchor and render assistance owing to the violent movement of the sea.

THE PATRICIA WAS DEFEATED

(Canadian Press.) CHICAGO, Aug. 11—The first honors in the series of yacht races between the United States and Canada at the water carnival and naval parade went to the United States today in a thrilling race, the best flying colors of Chicago Yacht Club defeating the Patricia, representing Canada, flashing over the finish line three lengths ahead of the Canadian challenger.

Just twenty-two seconds of time separated the two 30 foot sloops at the finish. The official time over the ten and three quarter mile course was 2:47.12.

William Vooborg, of the University of Illinois, won the annual Chicago River Marathon swim. He was captured in easy style by Laura, who in every case held second position to the three quarter mark. Laura also finished first in the fourth heat, but broke on the home stretch, fouling Devilish Dorothy and the judges penalized her to second position. The fifth heat proved the most exciting race of the day, Laura Merrill and Devilish Dorothy came down the stretch neck and neck amid deafening cheers. Laura won by a nose, thus winning the heat and first money. Devilish Dorothy, second position and second money, and Ginger had to be contented with third money. The time was slow considering condition of track and past record of races.

The Winners Of Saturday's Contests

(Canadian Press.) MONTREAL, Aug. 11—In a field little better than a quagmire the Nationals whipped the Irish-Canadians by a score of 12 to 0.

The last two games between these two teams have been overtime encounters and the crowd turned out in expectation of another hot contest.

After a scoreless first quarter, however, the French Canadians won in six straight, and though the attack was ineffective in the third period, they captured another half dozen in the final spasm.

The game was a rough one although only one major penalty was inflicted, the guilty party being Gagnon, who was fined \$25 and put out of the game for deliberately cutting down Dussault, who had to be carried to the club house for repairs.

Sir Wilfrid, when asked for an interview laughed, and said he was simply on a vacation and would not talk for publication.

HOW LONG WILL THE KING STAND IT? LONDON, Aug. 9—"How long can King George keep it up?" is the question that is being asked in court circles. Those who know how far from robust the King really is declare that he will collapse before long, unless he escapes up the straits of Dover, which he set for himself, as head of the state, as soon as he came out of mourning for his father, King Edward, and which he has kept up ever since, with hardly a day's interval. The succession of varied and tiring duties that the king has carried out, apparently by his own wish, has included many things that no other King of England ever has done, such as a sea trip in a submarine, and going down a coal mine and actually heaving coal there. It is no secret, too, that when the king inspected the Army Airship Factory, at Aldershot, and watched the feats of the airmen at Portsmouth, he was keen to see how it felt to be off the earth, and yielded most reluctantly to the advisors who begged him not to risk his life.

The King has taken his position as Sovereign very seriously—a great deal more seriously, when it comes to the performance of actual duties than did his father, though it has to be remembered that King Edward was an elderly man when he ascended the throne. After it had been made fairly certain to the then Prince of Wales that he must soon succeed his father, he was to be found almost nightly, in the peer's gallery of the House of Lords, listening attentively to the debates.
