Bowel Troubles

Liver pills, cathartics, mineral waters, often make Constipation worse. They merely irritate the bowels and force them to move—stop taking purgatives and the bowels become "tight" again.

"Fruit-a-tives" are the one certain cure for Constipation

because their action is upon the liver, "Fruit-a-tives" are a liver tonic. They stimulate the secretions of bile by the liver, this bile causes the bowels to move in the natural, regular way and completely cures Constipation.

"Fruit-a-tives" are fruit juices with tonics and antiseptics added. La "Fruit-a-tives" one atom of bitter replaces one atom of sweet in the fruit juices, forming a new compound which is many times more active, medicinally, than the fruit juices could possibly be. 50c. a-box—\$2.50 for 6 boxes. At all dealers.

THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and rural edition over about \$100,000 and growing from day to day, it has broken all records as a daily publication in a small community.

Charlottetown has a population of 12,000 and Prince Edward Island has 103,000. The Guardian's daily circulation is therefore \$1 to 14 of population in the city which it is published, or 1 to 13 of the population of the Province. This is the management believes unequaled by any daily newspaper published in Canada.

Take one or two comparisons with other leading newspapers in other cities and Provinces.

St. John has a population of 40,000 and the Province of New Brunswick 320,000. St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 8,000 or say as 1 to 5 of the population of that city and 1 to 40 of the population of the Province.

Or again, Toronto has a population of some 250,000 and the Province of Ontario about 2,250,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 50,000. That is as 1 to 5 of the population of Toronto and 1 to 45 of the population of Ontario.

The point is this that The Guardian covers the field of its circulation three and a half times as well, if compared with population of the city and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertising patrons alike. They have a right to know how completely their favorite Journal is endorsed by the reading public among whom it circulates and how completely it covers the field as an advertising medium in this City and Province.
