Lots of other bargains at—McGowan & Wright's. 13 d & w 11

Mr. Charles G. Warren of Minneapolis arrived here by the Northumberland Thursday night. He has been absent from the island for eighteen years. He is accompanied by Mrs. Warren and son and will remain on the island about three weeks. Mr. Warren was formerly a resident of North River and is now in the carriage and horse shoeing business in Minneapolis.

## Farmers' Meeting at Eldon.

The Agricultural meeting held at Eldon Tuesday was well attended. Mr. Ross discharged the duties of chairman in a highly satisfactory manner. Mr. Alexander McNeill delivered an interesting and very practical address on the subject of "fruit growing." The speaker outlined briefly the progress made by the fruit growing industry in Ontario, pointing out the various steps which have led up to the present productive state of the orchards in that province. There are many details to be observed in handling an orchard successfully but the main requirements may be summed up under the following heads:—

1 The selections of suitable varieties. Only those varieties which are productive should be grown. The orchardist cannot make money by growing varieties which are sky bearers, no matter how good the quality may be or how high the price of the fruit may range.

Further the varieties selected should be those which will stand shipping, thus ensuring the arrival of the produce on distant markets in good condition. Only the winter apples can be grown profitably by the average farmer. To grow and market the earlier and softer kind more skill is required. Color and uniformity of size are important qualities in determining the market value. Flavor is a secondary consideration in apples intended for export purposes. Good flavor is desirable but not altogether essential provided the other qualities enumerated can be secured. Ben Davis, Baldwin Hesse, and Greening are the best paying varieties grown in Ontario. All of these can be grown here, the first named being particularly noted for its hardy character and productivity.

2 The proper cultivation of the orchard is essential to success. Clean culture similar to that given to corn, during the first part of the growing season followed by a cover crop such as peas and oats, clover or rye sown in August and plowed down the succeeding spring constitute the best method of orchard cultivation. Crimson clover, a fall annual, furnishes an excellent cover crop in districts where it is hardy. The hairy vetch too is rapidly coming into favor for this purpose among fruit growers in Ontario.

3 Lastly the orchard should be sprayed to keep in check fungus diseases and insect pests. Chief among these are the apple scab and codling moth. The first spraying should be given just before the leaves appear with a solution of copper sulphate 2 lbs. to 40 gallons of water. The second application this time of Bordeaux mixture is given after the leaves are well expanded, the third after the blossoms fall when the apples have formed and are about the size of peas and the fourth from ten days to two weeks later.

Four ounces of Paris green should be added to every forty gallons of Bordeaux mixture. In conclusion Mr. McNeill advised every farmer to plant an orchard and care for it in the best manner possible as fruit seems destined to become a very valuable export product with us in the near future. The speaker also pointed out the necessity of education for the farmer in order that he may be able to care for his orchards in a proper manner. The Institute system had provided the means of acquiring this knowledge in Ontario and might be expected to do as much for the agriculturist here.

Mr. J. McMillan then briefly set forth the provisions of the act providing for the organization of Institute Societies. The farmers require information in many lines of farm practice and should embrace the opportunity afforded for advancement. On motion it was resolved that a society be formed at Eldon. Almost all of the farmers present subscribed to the membership roll, a committee was appointed to canvass for members in the different districts and the meeting adjourned to meet again on Monday, July 15th.

BENTLEY'S is the best Liniment.

## FCCR JESSIE MORRISON.

ELDERADO, Kansas, July 10.—Jessie Morrison was taken to the penitentiary at Lansing to-day to begin her five year sentence for the murder of Mrs. Clara Wiley Castle. Miss Morrison, was accompanied by her father, Judge Morrison, and her brother, Hayward. Early in the day at the home of the Morrises, the aged father, step-mother, brothers and sisters, cried bitterly as Miss Morrison kissed them good-bye. It is the belief of her relatives that Miss Morrison will be released on bond by the Kansas supreme court and given a new trial.

## The Commonest Of All Troubles.

Dodd's Kidney Pills are used more for Backache than for any other Kidney Affection.

Bright's Disease not so frequently of late Years—Dodd's Kidney Pills Undoubtedly the Cause Diabetes also far less Prevalent.

MATANE, Que July 12 (Special)—Not only in this neighborhood but throughout the Province of Quebec there is a marked decrease noticeable in the number of cases of Bright's Disease reported. This fact is undoubtedly due to the wide use of Dodd's Kidney Pills in the earlier stages of Kidney Disease.

Bright's Disease at one time was the cause of a large proportion of the deaths in this province. It was considered incurable and until Dodd's Kidney Pills were introduced it was incurable. Not so, however, now. Dodd's Kidney Pills have almost wiped the disease out. Nor is Diabetes heard of now to any great extent.

The most common form by which Kidney Disease manifests itself is Backache, and here Dodd's Kidney Pills are doing their most active work. They are recognized as the surest and quickest cure for Backache ever invented. They work on the sound principle of going to the root of the trouble—the Kidneys—wherein they differ from all other backache medicines except imitations of Dodd's Kidney Pills. They do more than merely relieve. They positively and permanently cure, as thousands of people are ready to testify.

O. Dionne, a well-known resident of Matane, says, "Dodd's Kidney Pills have made a grand success in curing me of Backache and I recommend everybody to keep them in the house. They are a wonder as a remedy for Backache and Disease of the Kidneys."

## PERSONALLY CONDUCTED EXCURSIONS

To the Pan American Exposition.

The Canadian Pacific Ry. propose running four personally conducted Excursions to the Pan American Exposition at Buffalo, parties to be away from home about nine days, and have stop overs on route at Montreal, Ottawa, and Toronto, with three days at Buffalo and one day at Niagara Falls. The cost to be from \$80.00 to \$100.00 each, for the trip. Write for dates of starting and other particulars to A. J. Heath, D. P. A., C. P. Ry., St. John, N. B. 13 31.

## LOSS OF FLESH.

If you find yourself falling below normal weight there is danger. The use of fish oils can temporarily add fat, but will never build up health and tissue. Dr. Chase's Nerve Food acts through the blood and nervous system and carries new life and energy to every nook and corner of the body. It regulates the various organs of the body, makes the appetite good, adds healthy flesh, and replaces the tissues wasted by disease. Naturally and gradually this food cures, restores color to the cheeks, increases the weight of the body and thoroughly overcomes disease.

## HORSES NOT RIFLES.

BURGERSDORF, July 10.—The effects of Colonel Seobell's capture of the enemy's horses on the 6th instant were visible at Croser's Farm, in Stormberg district, a week ago, when fifty Boers passed that place all on foot. It is daily becoming more evident that the horse rather than the rifle is the principal factor in the prolongation of the war. Owing to the extreme cold it is probable that the commandoes will try to move southward into richer and warmer districts.

## ONLY A LITTLE BACKACHE.

That is the first unmistakable symptom of disease kidneys, an ailment which no one can neglect without inviting Bright's disease, diabetes, rheumatism and the most painful and fatal maladies. At the first sight of backache and urinary disorders use Dr. Chase's Kidney-Liver Pills and you can be certain of prompt relief and cure. One pill a dose 25 cents a box.

Saturday afternoon from 3 to 10 at Gay's market stalls fresh vegetables direct from their gardens, including Cauliflower, Cabbage, Carrots, Beets, Onions, Cucumbers, Green Peas, Lettuce, Radish, Strawberries and sweet pea bloom in bunches at 5c.

Fancy Shirts, worth \$1.50, for 80c to-day. John McLeod & Co.

Strawberries 7c a box to-day at Beer & Goff's.

Crash and straw hats at great reductions to-day. John McLeod & Co.

Extra fine large Pineapples at Beer & Goff's.

Summer Coats and vests at reduced prices to-day. John McLeod & Co.

## OF PERSONAL INTEREST

Mr. J. J. Hughes, M.P., Souris, is in the City.

F. W. Hazen, D. D. S., of St. John is in the City.

Miss Bertie Wiggington has gone to Tryon on a week's visit.

Mrs. D. Gordon, Georgetown, is among the guests at the Queen.

Major and Mrs. Rogers will come to the City this evening by the Princess.

Mr. C. Masters, representing the John L. Cassidy Co., Ltd., is in the City.

Mr. and Mrs. Hugh McInnis made the round trip by the Princess yesterday.

Mrs. W. A. Brennan was a passenger by the Princess yesterday evening.

Miss Alice and Winnie Perkins, left yesterday morning on a holiday visit.

Rev. R. J. Campbell of Grand Manan is in the Province spending his holidays.

Hon. Peter McNutt came to the City yesterday and registered at the Davies.

Mr. D. S. McQuarrie, of Crapaud, was among the visitors to the city yesterday.

Mrs. H. McPherson returned by the Princess yesterday evening from Halifax.

Mr. and Mrs. John Bentley went to Rustico yesterday on a visit to friends.

Mr. and Mrs. L. L. Beer left yesterday morning by the Princess, making a round trip.

Rev. T. H. Hunt returned from Sydney yesterday where he had been visiting Rev. J. W. Cox.

Stipendiary McQuarrie, Summerside, came to the City yesterday and registered at the Davies.

Miss Alma Robertson has arrived from New York, on a visit to her mother Mrs. Charles Robertson.

Corpl. May who has been taking a special course in engineering at Halifax returned last night.

Mr. Thos. Kiekham was in the City yesterday, and returned to his home in Souris in the afternoon.

Mr. and Mrs. John McLeod, nee Miss Maggie Brown, of Victoria, B. C., have arrived on a month's visit.

Rev. D. D. Morson and wife, who have been visiting in Dundas, crossed on the Princess to Pictou yesterday.

The many friends of Mr. Chas. Perkins will be pleased to learn that his condition was much improved yesterday.

Mr. A. L. Anderson, of St. Peters, was in the City yesterday and returned by the eastbound train in the afternoon.

## "ACKNOWLEDGEMENT."

That's a big word, isn't it? It must express a lot, that's why it is used. Have loved big words all my life. Where they emanate from, can't say. Gracious, how they flood in. Wonder if I will ever get credit for all those that are never given expression to. I am holding myself down even now, so that the dear children may understand what I wish to gratefully acknowledge.

Have often thought I would be a good hand to write out telegraph messages for the Island people. Think if you would give me a trial, you would pat me on the back, and say "Well, Louison, it comes high, but we got our 50 cents worth this time, sure." Without thinking very much (this is fortunate) could give you ten words that would most fill up an ordinary Island telegraph blank, and they are very roomy ones too. Perhaps the Company anticipated (there I am again) my coming to be a resident with you. If so, accept thanks.

Don't know how it is with you, but when I pick up a newspaper, and catch the headings "Proclamation," "Announcement," "Acknowledgement," I am spell-bound, and must read the article or advertisement, clear through to the finish. Anticipating that the reader is, by this time in breathless suspense of what the writer is driving at, without any further introductory remarks I (and big I at that) take pleasure in making public the following acknowledgement:

Have just made a trip of the Island. That little article on the "Pan-American" seems to have been appreciated by the Island readers of THE GUARDIAN from Tignish to Souris. If I had thought that so many would have read same, I might have made it longer and done myself justice. Now don't misunderstand me, I can never do myself justice without using words, all the way from 15 to 30 letters. And yet I love men and women who use little every-day words, who are perfectly natural in manner, and dress neatly and quietly. Don't you?

## THE WAY OF THE WORLD.

The whole world loves the modest man, Whether he be great or small, But yields up its plunks in very big chunks To a man with a surplus of gall.

The whole world loves the quiet man, Who's as silent all day as the owls, But it's needless to mention that it gives its attention To the fellow who gets up and howls.

The world loves the peaceful man, Who sees no occasion to bicker, But the full right of way, you'll permit me to say, It gives to the strenuous kicker.

How much children teach us. Saw something the other day in Black and White, in Charlottetown, and it wasn't in THE GUARDIAN either. A little fair-haired boy hand-in-hand with a curly little darkey. They seemed to be sharing each other's sorrows, sharing each other's joys. And why not? A man's a man for a' that. As I write these lines in train, a good friend has given me a piece of poetry which I pass on to you with pleasure. Perhaps you may cut it out, but don't you think it pretty?

If solid happiness we prize, Within ourselves the jewel lies, And they are fools who roam, This world has nothing to bestow, From our own selves, our joys must flow

And that dear spot, our Home. It is with a great deal of pleasure I acknowledge the kindness and appreciation of Prince Edward Island people. Our coming with you has been a happy one, and while my house is not large enough to give you all a welcome, yet my heart is, and you have a big corner in it, all for yourselves. I shall be most happy to write a few lines for you again some day, as time permits, but don't expect the large words, they are chiefly for the telegrams. Gratefully yours,

WILL S. LOUSON.

## ADVICE TO MOTHERS.

If your little boy or girl comes home with a sore throat, the first thing to do is to rub the throat and chest with Polson's Nerviline. Don't be afraid to use Nerviline freely—a whole bottle full wouldn't burn or blister the tenderest skin. Rub in until it is taken up by the pores, and just before the child goes to sleep give him a glass of hot water into which 30 drops of Nerviline has previously been stirred. This is a sure, pleasant and steady cure. Large bottles 25 cents.

## BRITISH ON THE CONTINENT.

Only 70,000 British reside on the Continent, while 200,000 Continentals live in England.

## MEDICAL SCIENCE ADVANCES.

It is not more than half a century ago that physicians considered a surgical operation with its risk, expense and pain as the only cure for piles. To-day it is only the out of date doctors that think of such treatment. It is cruel and extravagant to operate for a disease which is far more certainly cured by the application of Dr. Chase's Ointment. You may be skeptical, but for proof you are referred to tens of thousands of cases that have been cured by this famous preparation.

## THE FISH IN THE SEA.

Harbor, the great authority on fish, says that every square mile of the sea is inhabited by 130,000,000 fish—and still fishermen declare that fish are scarce.

For the masses not the classes, BENTLEY'S Liniment is the family medicine chest. Price 10 and 25c.

## FACTORIES OF GREAT BRITAIN.

Co-operative factories in Great Britain last year made profits aggregating over £200,000 on a capital of £2,100,000.

Bicyclists and all athletes depend on BENTLEY'S Liniment to keep their joints limber and muscles in trim.
