The Equity behind a Bond.

BEFORE investing in a bond, be sure to consider thoroughly the equity behind it.

The strong equity back of the 5 per cent. First and Refunding Mortgage Gold Bonds of the Ottawa Electric Company makes them a peculiarly valuable purchase.

Not only is the stock paying dividends of 5 per cent., but a large surplus is being piled up in addition. The net earnings of the Company for 1907 were $139,975, while the interest charge on all outstanding bonds and mortgages amounted only to $66,300.

Conservatism, the key-note of the Company's management, ensures a continuation of the policy of keeping up a surplus and of keeping down the rate of dividends on the stock—factors which make for the safety of these bonds.

INSURANCE IS THRIFT

Insurance is thrift, nobler than other forms in that it is exercised not for self but for others.

It is the most indispensable and the most beneficient institution of our day. It is a very practical and at the same time a most ingenious method of equalizing the hazzards of life. To secure its protection men toil and deny themselves the full fruit of their labor; they give up, in some cases almost the necessities, in all cases some of the comforts and luxuries or pleasures of life, that those to come after them may be protected from adversity and want—that children may be educated and brought up to lives of usefulness. Founded on a care for the future of others, a care which can only be exercised by present denial and sacrifice, the determination to insure represents the best and most unselfish qualities of human nature.

The Company that is offering the best value in Life Insurance in Canada today is the Great-West Life. Their rates are the lowest consistent with [illegible] security. Their high interest earning power have enabled them to make most gratifying returns to their policy-holders; Consult Hyndman & Co., Managers P. E. I. 12—9d2i.

THE LATE REV. RODERICK M'LEAN.

The death of the Rev. Rod. M'Lean, which took place early in this year at Milan, Quebec, has brought to many the sense of a distinct loss. A native of the Isle of Skye, Mr. M'Lean studied at Edinburgh University and New College, and took licence in 1885. During four years of his course he carried on very successful mission work in Haddington. In 1885 he went out to Canada, and was settled as pastor at Valleyfield, where he continued for twenty-one years. He was a man of powerful physique, great personal courage, and persuasive evangelical fervour. An awakening took place under his preaching some twenty years ago, resulting in large accessions to the membership of the church. In 1906 he accepted a unanimous call to Hampden, Quebec, and there he laboured until cut off in the very midst of the usefulness of his prime. His remains were laid in Hampden, in order that, as he said, his grave might preach to those to whom he was allowed to minister only two short years. His friends give thanks to God at the remembrance of his life, and pray that the God of all comfort may sustain his widow and family.

(The above is clipped from the Missionary Record of the United Free Church, Edinburgh, and is a tribute to a faithful minister of the Gospel who had many friends in this Province by whom he will be long affectionately remembered.)

If You Have Rheumatism

Read This Offer. A Fifty-Cent Box Mailed Free to All

MR. JOHN A. SMITH,
Discoverer of the Great Rheumatism Remedy, "Gloria Tonic."

On the theory "that seeing is believing," John A. Smith of Windsor, Ont., wants everyone to try his remedy for the cure of rheumatism at his expense. For that reason he proposes to distribute fifty thousand 50 cent boxes among all persons sending him their address. Mr. Smith had suffered all the agony and torture from rheumatism, tried all the remedies known and yet utterly failed to find relief.

At times he was so helpless that he had to take morphine and after considerable doctoring he gave up in despair. He began studying into the causes of rheumatism and after much experimenting, finally found a combination of drugs which completely cured him. The result was so beneficial to his entire system that he called his new remedy "Gloria Tonic." These of his friends, relatives and neighbors suffering from rheumatism were next cured and Mr. Smith concluded to offer his remedy to the world. But he found the task a difficult one as nearly everybody had tried a hundred or more remedies and they couldn't be made to believe that there was such a thing as a cure for rheumatism. But an old gentleman from Seguin, Texas, wrote him saying if Mr. Smith would send him a sample he would try it, but as he had suffered over thirty years and wasted a fortune with doctors and advertised remedies, he wouldn't buy any more, until he knew it was worth something. The sample was sent, he purchased more and the result was astonishing. He was completely cured. This gave Mr. Smith a new idea and ever since that time he has been sending out free sample boxes to all who apply. At National Military Home, Kansas, it cured a veteran of rheumatism in hips and knees. In Hannaford, N. Dak., it cured a gentleman who writes: "Since taking "Gloria Tonic" I am a supple as a boy." In Stayner, Ont, it enabled a lady to discard her crutches. In Westerly, R. I., R. R. No. 1, it cured a farmer, 72 years old, In Fountain City, Wis., it cured an old gentleman after suffering 88 years, and after seven physicians had tried in vain. In Hull Quebec, it cured a gentleman of chronic inflammatory rheumatism which was so severe that he could not walk a block without sitting down. In Lac Valley, Ont., it cured a gentleman 80 years of age.

Mr. Smith will send a 50 cent box, also his illustrated book on rheumatism, absolutely free of charge to any reader of The Guardian who will enclose the following coupon, for he is anxious that everybody should profit by his good fortune. Don't doubt, fill out coupon below and mail today.

THE Dominion Cook Book
By Anne Clarke.
Preeminently the Best Collection of Cooking Recipes Published.
A Household Necessity.

HOW to cook, and what to cook, are the two topics discussed in this volume. The suggestions given are not such as an inexperienced editor might collate and combine in quantity, regardless of quality; but they are the results of long and careful domestic experience in houses where these two arts were studied and practised. Skilled housekeepers of large experience are responsible for every recipe and hint here given. They have tried and tested these matters of which they write, and happy is the young housekeeper who can profit by their wisdom.

In order to profit thus, care is needed and much study. This book on a shelf in the kitchen will not act as a charm to prevent burning the beefsteak or toughening the pie crust. Nor will the mere reading of it transform the careless girl into a thrifty manager of the home. The book must be read, studied and obeyed. Do the things here directed and realize the benefits here portrayed. "Practice makes perfect,"—provided it be wise practice. Otherwise it spoils everything.

Cook books are numerous, but it is believed this, the latest and best will surpass them all. A valuable chapter is given entitled "The Doctor," in which are recipes selected from eminent authorities, and which will be found invaluable where the doctor is not readily available.

Each Recipe Prefaced by List of Ingredients—A New Feature in Cook Books.

This work is a veritable ENCYCLOPEDIA, containing 1000 Practical Recipes WHICH ALWAYS COME OUT RIGHT!
