The Methodist National Campaign

Prince Edward Island Methodists are joining with New Brunswick to raise the conference objective of \$150,000 in the National Campaign and to ougive Nova Scotia, which has the same allotment of the \$4,000,000 fund.

Although Nova Scotia has 17,000 members and the N. B. and P. E. I. Conference only 15,000, the contest is not too unequal, for organization is well advanced and enthusiasm high among the workers on the mainland and island.

Newfoundland is tackling a \$90,000 objective, while other conferences have allotments as follows: Montreal, \$475,000, and Toronto, \$1,100,000. The last-named conference expects over \$500,000 in special subscriptions; the city of Toronto is allotted \$850,000 and expects to "make it a million."

With the placing of the special subscription mark at \$500 and over, many Ontario farmers are entering the class of large investors, and their province may raise over \$3,000,000. Eleven Toronto men led off with \$455,000.

Although his salary has averaged only \$900 during the past 25 years, one Hamilton Conference pastor is giving \$300 from his 1920 salary of \$1,200.

Ladies Attention

All the women's Journals are advertising the famous 1900 ELECTRIC CATARACT WASHER WITH A COPPER TUB.

We have this wonderful machine in stock, call and see it operate in our showroom.

A. Horne & Co.

THE CENTRAL GUARDIAN

IT PAYS to buy in this Province.

VALLEYFIELD SERVICE.—Rev. James Heron will preach in Valleyfield next Sabbath, 8th inst.

CONCERT AND SUPPER in McDonald Consolidated School, Tuesday evening, February 10th. 6345-2-7ME21.

EVERYONE SHOULD PAY their January electric bill before February 10th as that date is the last to get a discount. 6849.

FRENCH—Reading, writing and speaking taught by an experienced French teacher. Apply to 48 Peake Street or to 13 Spring Park Road before Saturday 7th inst.

RESERVE THURSDAY the 12th for the Valentine Tea to be held in the Marshfield Hall by the Ladies Institute. Particulars later. 6851.

THE LADIES OF ST. MARK'S CHURCH, Kensington, invite you to supper in the Parish Hall on St. Valentine's Day, Saturday, February 14th. Prices 40c and 25c. 6855.

THE ANNUAL MEETING OF THE CHARLOTTETOWN DRIVING CLUB will be held in the Secretary's office, Monday evening, February 9th, at 8 o'clock. A full attendance of members is specially requested. 6824-2-6ME21.

TO DISCUSS POST WAR PROBLEMS.—Dr. J. W. Robertson, who is so well known in this Province, is coming down from Ottawa next week to discuss Post-War Problems with St. John business men. Dr. Robertson represented Canada in an official capacity at the peace conference and bears an important message. The Board of Trade, Retail Merchants' Association, Commercial Club and Rotary Club of St. John have agreed to cooperate in connection with Dr. Robertson's address.

W. S. HARKINS, ILL.—In writing to A. K. Munde, under date of Feb. 1st, W. S. Harkins announces that he has been laid up with what the doctors pronounced as "flu." At time of writing he was allowed up, but is under orders to remain in the house for at least a week. He only left here ten days ago, and was stricken the day after his arrival home. In his letter he mentions a particularly sad case of an entire family, consisting of father, mother, daughter, and wife, mother being wiped out by "flu" within five days. The family lived directly opposite Mr. Harkins, who resides in East Orange, N.J.—St. John Globe.

METHODIST FORWARD MOVEMENT—Special services in connection with the Forward Movement will be held tomorrow evening in the Methodist Church. The meeting will be conducted by laymen who will give short addresses on the different phases of the great campaign. Prof. W. E. Fletcher, A. B., M. A., of Trinity College, London, England, will preside at the organ. Special music will be rendered by the choir consisting of a male quartette, solos, etc. At the close of the service Prof. Fletcher will give a short organ recital.

MORE FOXES FOR JAPAN.—Dr. Leo Frank leaves this morning on a trip to Montreal and New York, accompanying a shipment of live foxes as far as Montreal which is destined for Japan. The shipment comprises five pairs of the very top-notch quality of Island silver black. Mr. Lawrence McInnis, of Southport, who was assistant caretaker at Rosebank ranch will go in charge of the shipment direct to Japan. His passage has been booked first-class both ways including pullman service. He expects to be absent until about the middle of April. Dr. Frank intends returning about the latter part of March. Mr. McInnis' many friends wish him a successful and pleasant voyage and many no doubt envy his good luck.

CRAPAUD.—The cold and rough weather has interfered with the people getting out their years' supply of fire wood and not much progress in that direction has as yet been made. Mr. Robert Williams has disposed of his farm in Westmorland and moved into Crapaud where he will work at his trade. As Mr. Williams is a first class carpenter he will be warmly welcomed as a citizen. Mr. W. B. Callbeck has moved to Tryon on his new farm and he has purchased a new motor. Callbeck he the former owner of his farm in Crapaud to Mr. J. H. Trowsdale returned soldier. Mr. Trowsdale is to be congratulated on securing such a beautiful and well situated property. The energetic milk driver Mr. Fred Wotton in spite of the cold weather and roads none to good has succeeded in making his trip to Bradal every day this winter so far, thereby keeping the people posted with the latest events of the day. Mr. John Parker is also giving good satisfaction in Crapaud R.R., finishing some days by star light. It is reported that Mr. Gordon Williams, Victoria is shortly to move into Crapaud where it is stated he will take up the butcher business. Mr. Robert Moore will have the sympathy of his many friends in his continued illness. The churches have been re-opened again after being closed for an epidemic of smallpox which was prevalent in the outlying sections of the community. Mr. George Balingall, Charlottetown was a regular visitor to Crapaud. Mr. Wesley Callbeck spent Sunday with friends in Tryon.

LET US SEE WHAT GROUNDS we have for believing the "Briscoe" to be the best car of its class in the world. Well, take the matter of the motor alone. It has been admitted by all that the famous Half-Million-Dollar motor (which is the heart of Briscoe motor car) is the greatest four cylinder motor manufacturing, giving uniform motor trouble and averaging upwards of 30 miles to the gallon of gas. And, when you stop to think of it, isn't the motor a matter of prime importance? Here, undoubtedly you have one very good reason why the Briscoe should have your consideration. Write the catalogue of models. Colin H. Stewart, Summerside. 6832-1-29-ME11

WALT MASON "ON THE DAIRY COW."—The dairy cow is a thing of charm; she lifts the mortgage from the farm, and makes the farmer's life more sweet, and sets him down on easy street. Where'er the dairy cow is queen, a country prosperous is seen, and dairymen, in joyful ranks, pay the taxes, and the rents; and her in Canada, agents, we have the climate and the feed, and all conditions dairies need. So let us boost the dairy cow, which beats the old breech-loading plow; the Holstein and the Jersey, too, as smooth as any cow in view. Let's talk up dairies, milk and cream, the safest money-making scheme.

The publisher of the best Farmer's paper in the Maritime Provinces in writing to us states:

"I would say that I do not know of a medicine that has stood the test of time like MINARD'S LINIMENT. It has been an untiring remedy in our household ever since I can remember, and has outlived dozens of would-be competitors and imitators."

DAVIS AND FRASER'S FRESH AND PORK SAUCES ON SALE NOW BY ALL LEADING GROCERS. GOVERNMENT STAMPED ON EACH WRAPPER. ONE OF THE CHOICEST MEAT-FOODS ON THE MARKET. AND ALSO THE CHEAPEST BECAUSE NO WASTE WHATSOEVER IN USING.

THE NEW OVERLAND

Rest as You Ride on Three-Point Suspension Triplex Springs

This beautiful Touring Car saves passengers from the swaying, bobbing and pitching due to ordinary road-jolts, IN ADDITION, its wonderful three-point suspension (Triplex) Springs Cushion the jars and absorb the shocks so that the passengers seem to GLIDE OVER rather than ride up and down the road's unevenness.

No previous motor car experience can convey an adequate idea of the improvement in riding comfort achieved, by this compact, yet roomy Overland Four.

THE CAR WITH A LONGER LIFE

Overland has more good VALUE hidden away out of sight than any inspection or trial ride can possibly reveal. Certain Buyers, trained by past ownership of many cars, are able the first time they drive an Overland to sense this superb quality running throughout the car. But even they are likely to make new discoveries DAILY of qualities, some of which they have ceased to expect in a motor car. As one common fault after another fails to appear, as month follows month of easy, trouble-free running, Overland owners come to feel that the description "the car with a longer life" is a mild one indeed, and it makes no difference how one drives, The Springs cannot be broken.

The Price \$1355.00 which includes a spare tire and tube, with complete set of tools, comes within the reach of every man.

A. W. CURTIS IS NEW PRESIDENT

The following is an extract from the Brockton Enterprise and Mr. Curtis referred to was formerly of Crapaud, P. E. I.

The annual meeting of the South-eastern Massachusetts Fish and Game Association was held in Pythian Temple Monday night following a dinner, which was attended by about 200 members and friends.

A. W. Curtis was elected president for the coming year.

Other officers chosen were: First vice-president, J. J. Jenkins; second vice-president, James T. Weldon; secretary, A. E. Randall; treasurer, C. B. Merrill; executive committee, J. T. Weldon, Charles E. Tribou, W. A. Cranton, Everett Jones and Roderick A. Taber.

The annual report showed a membership of nearly 500 and that 272 members were admitted during the past year. During the past week 55,000 trout eggs were "planted" in streams in and around Brockton.

President-Elect Curtis was toastmaster. The chief speaker was Orin C. Bourne of Boston, chief deputy for the Massachusetts Fish and Game Commission. He illustrated his talk with motion pictures of the fish hatcheries and breeding ponds showing the work of propagation and of transporting eggs and fingerlings to various sections. Massachusetts is doing everything possible, through the commission to stock streams, he said, and he urged the co-operation of the association.

Deputy Commissioner Charles E. Tribou of this city paid a tribute to the late W. B. Cross, who during his life had materially aided the commission. He said Mr. Cross did his work without publicity and was of great assistance to the State commission.

Pictures of the Cross gunning stand at Silver Lake were shown by Mr. Bourne, including pictures of flocks of birds on the lake and the shooting of wild geese.

Deputy Commissioner Orrin Steele of Hingham told of the work that is being done in Hingham to propagate smelt. Fish taken from Hingham bay are spawned and the eggs placed back in the bay, thus insuring a continuous supply of smelt in that section. He urged that the same thing be done at Plymouth and elsewhere. Other speakers were Charles A. McLellan, retiring president; Deputy Commissioner W. H. Leonard of Taunton and Deputy Elisha Ellis of North Easton.

To Fortify The System Against Grip Take LAXATIVE BROMO QUININE TABLETS which destroy germs, act as a Tonic and Laxative, and thus prevent Colds, Grip and Influenza. There is only one "BROMO QUININE." E. W. GROVE'S signature on the box.

MEDALS FOR HEROES

The Trafalgar medal was struck in pewter for the lower deck. The seamen were annoyed at its shoddy appearance, and most of the recipients threw their decorations into the sea.

The Soudan medal of 1896-7 has a ribbon in which yellow and black are separated by a narrow stripe of scarlet. These colors were chosen to symbolize the driving out of the black Dervishes from the yellow desert by the "thin red line."

Another ribbon which has an interesting significance is the yellow, blue, and yellow suspender of the khedive's Soudan medal. Here we have typified the blue Nile running through the sandy plains of Egypt.

The authorities have never been in a hurry over issuing medals; there are two instances on record when those entitled to rewards have been called upon to wait fifty years for their decorations.

The Victoria Cross was designed by Queen Victoria and the Prince Consort. For a long while it was made of the bronze obtained from cannons captured in the Crimea. Now, the maker, use cannon taken in the Boxer rising.

Jellalabad Medal

For Jellalabad a very ugly medal was struck, and those who received it were

terms. A really artistic piece was then provided and all who possessed the first were requested to exchange it for the second. Not one per cent. of the recipients applied for the better medal!

Until the year 1914, the Long Service ribbon for the army was similar to that for the Victoria Cross. The only difference was in width, the latter being a fraction of an inch wider. Such was official intelligence.

No less than eleven ribbons recognized by the authorities are entirely blue.

After Waterloo, the chief engraver of the mint was commissioned to prepare a fitting medal for presentation to the leaders of the victorious armies. He did so, but took thirty years to complete the work.

The medal for Culloden was the first to be provided with a ribbon of definite pattern. Before then, each wearer suspended his decoration with any sort of ribbon he pleased.

PILES

Do not suffer any day with itching, bleeding, protruding piles. No surgical operation necessary. Dr. Chase's Ointment will relieve you at once and as certainly as the sun. 60c a box, all dealers. Toronto, Sample & Co., Limited. Mention this ad. box free.
