It's false economy to starve the shingles by neglecting to give them a timely coat of some reliable preservative. The best way to make them last is to treat them thoroughly with

Anchor Shingle Stain

It is made from coal tar creosote oil, famous as a preventative of decay in wood, combined with permanent colors. There is another important ingredient; the creosote and colors are held firmly to the surface of the wood by our Special China-Linseed Binding Oil; thus Anchor Shingle Stains have a permanency unknown to average stains.

In them you get a rare combination - thorough protection of the shingles and lasting colors, hence greater and more enduring satisfaction.

Ask your dealer or write to us for colors and details.

CARING FOR CANADA'S WOUNDED SOLDIERS

In view of the fact that it has been arranged to send wounded Canadians to Cliveden Hospital in England, the following letter from Dr. R. A. Bowie, of Brockville, which contains a description of the institution, will be of interest, Dr. Bowies being second in charge:

"I reported to Headquarters at the Canadian Training Depot, Tidworth, the 14th March, and on the 18th I received orders to report at Cliveden, got under way in two hours and next morning reported for duty to Col. C. W. F. Gorrell, O. C., of this Hospital, who was expecting me. Gen. Jones and Col. Hodgetts *in charge of Canadian Red Cross in England) arrived in a motor a couple of hours later and both were particularly nice, discussing my new situation and laying out the details of work required.

MAGNIFICENT HOME.

"This hospital of 135 beds is the indoor tennis court building on Major Waldorf Astor, M. P.'s beautiful estate called Cliveden. This estate, on the bank of the Thames, just above Maidenhead, is 22 miles from London, It lies betwen estates owned by Lord Desborough and Lord Boston, and is celebrated in England as one of its finest show places. The building is magnificient, with great winding drives through beautiful groves and velvety lawns, past a great marble fountain, as you approach it. Tennis courts, golf links, a football ground, baseball ground and lawn bowling greens surround the hospital and to see the convalescents out in their sky blue flannel coats and trousers (hospital garb) playing football or rolling the bowls, while from a row of beds, placed in the sun for a few hours each day, rise shouts and exclamations of criticism and encouragement directed towards the players, would excite the interest and sympathy of the most confirmed stoic.

WHERE OFFICERS LIVE

The house of the manager of the estate, situated within 50 yards of the hospital, is palatial almost itself and is given over for the home of the officers (8) and nurses (18), furnished. It is a large roughest ivy covered house (considerably larger than 124 ing street east), with annexes and outbuildings, which cover a considerable area and surrounded with beautiful lawns and magnificent trees. One-third of the house is occupied by the medical officers, two-thirds by the nurses, and all provided by one English M. P.

HOSPITAL STAFF.

As to personnel, in every day Canuck parlance, Charley Gorrell is boss; if away, I try to put his boots on. Captains Sutherland, Chown of Kingston, Neff of Edmonton; McCoomb, a great friend of Jimmy McGlade; Dean quartermaster; Lieut. Osler, son of Sir William and a coming duplicate of his dad, all hard at it here. Our matron is a sister of Bob Campbell's, formerly in the Bank of Montreal in Brockville. Like Bob, none better for their laid-out work. Another nurse here is Miss Greenwood, sister of the polite young accountant in the Metropolitan Bank. The nurses are a superior body of women and are sincerely anxious to fulfil their mission. One hundred and thirty-five is our present capacity and is being increased to 500. Periodically the convalescents are sent on to their respective units and a fresh lot arrive direct from the war zone. The patients on the whole are a fine, civil and respectful lot.

SENSE OF SERIOUSNESS.

One thing which struck me about their demeanor was a perceptible sense of the serious nature of the terrible drama in which they had been participants. They had as it were come through the Valley of Death and it has made them think and reflection has exposed realities the import of which they had never before recognized.

This is where we are and what we are trying to do and that little Red Cross kindly recognize, as their effort is the mainstay of our work here on behalf of our heroes.

TORTURED BY CONSTIPATION

"Fruit-a-tives" Cured Paralyzed Bowels and Digestion

ST. BONIFACE DE SHAWINIGAN, QUE. Feb. 3rd. 1914.

"It is a pleasure to me to inform you that after suffering from Chronic Constipation for 2½ years, I have been cured by "Fruit-a-tives". While I was a student at Berthier College, I became so ill I was forced to leave the the college. Severe pains across the intestines continually tortured me and it came to a point when I could not stoop down at all, and my Digestion became paralyzed. Some one advised me to take "Fruit-a-tives" and at once I felt a great improvement. After I had taken four or five boxes, I realized that I was completely cured and what made me glad, also, was that they were acting gently, causing no pain whatever to the bowels. All those who suffer with Chronic Constipation should follow my example and take "Fruit-a-tives" for they are the medicine that cures".

MAGLOIRE PAQUIN

"Fruit-a-tives" are sold by all dealers at 50c. a box, 6 for $2.50, trial size, 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

IMPROVEMENT AND INCREASE.

The advice given in the most recent announcement of the Department of Agriculture at Ottawa to make your land produce more, cannot be overemphasized. Millions of bushels rather than the cultivation of excessive acres, should be Canada's aim. Improved production is only possible by the use of good, pure seed and by assiduous and knowledgeful attention to the soil. Experience is undoubtedly in farming as in all other objects in life, the best instructor, but just as fertilizers help the soil, so does acquiring the results of experiments made by others make the road easier to the lesson that is to be learned. Never was there so much necessity for thoroughness and earnestness as now when the markets of the world are wider open, when they are being shifted and former occupants are receiving notice to quit.

As proof that there is abundant room for increased production by improvement, an official statement as follows is presented of the average yield of various products last year, and of the average that is possible:

	Average	Possible
Fall wheat	20.43	52.
Spring wheat	14.84	33.
Barley	16.15	69.
Oats	36.30	91.
Corn, grain	70.	200.
Corn, Ensilage (Tons)	12.	19.
Peas	15.33	37.
Beans	18.79	50.
Potatoes	199.40	450.
Turnips	421.81	1000.

By "possible," it is explained, is meant results actually obtained at the Experimental Farms and by many farmers under intensive cultivation.

While such results may not be obtained in every case on the average farm, strict attention to the selection of seed, the use of fertilizers and thorough preparation of the soil will accomplish mush. It is estimated that in this way the value of the crops of Canada might be increased in a good season by $150,000,000, which would be more than enough to meet interest on all the money borrowed by the Dominion from Great Britain or invested in this country.

This is not a burden placed upon the agricultural community. It is a task it is asked to undertake for self-interests and to make the Empire more self-sustained. It is the unity of patriotism and production, for the encouragement of which Bulletins and Pamphlets giving results of actual experiments by practical men, as well as vast stores of useful information, can be obtained free on unstamped application to the Publications Branch, Department of Agriculture, Ottawa. The best method of procedure is to send for a catalogue and then forward your order, but, to save time, it is announced that Bulletins on wheat, oats corn, barley, peas, beans, potatoes, turnips, onions or live stock will be mailed immediately on notification of those wanted.

THOSE DEAR GIRLS.

Miss Oldum—I'd just like to see any man kiss me.

Miss Young—What a hopeless ambition

HOW THE GERMANS USE GAS IN FIGHTING.

LONDON, May 2.—Additional information has been received by the Times regarding the use by the Germans of asphyxiating gases. It says the fumes are emitted from cylinders 54 inches long, sunk in the German trenches, and to which are connected pipes six feet long, leading in the direction of the Allies' lines.

Some days, the Times asserts, before the gas is employed, and while waiting for a favorable wind, the Germans are supplied with respirators made of damp towels enclosed in bags of waterproof cloth.

In spite of these precautions, however, it is believed that a considerable number of men working the gas apparatus were asphyxiated when empty cylinders were sent back to the rear to be refilled.

WILL DOUBLE PRICE OF RUM AND GIN.

LONDON, May 2.—The general opinion of liquor wholesalers is that the new tax will not affect the retail price of beer, but will compel all brewers to brew below the specified specific gravity of forty-three, at which the surtax begins. This gravity is equivalent to containing seven per cent. of alcohol. Most London beers now range from 43 to 58.

The new whisky tax, which amounts to five shillings ($1.25) a bottle, will result in a virtual doubling of the retail price. Most wines will increase about two shillings a bottle at retail while liquors will rise four shillings. The price of bottled rum and gin will be doubled.

Pack "ENO'S" First!

YOU cannot take a better travelling-companion than "ENO'S" when off for a trip. It is your health-insurance during the time you are away—and prevents train and sea-sickness. You should pack—

ENO'S FRUIT SALT

in your grip or suitcase as surely as you do any other necessary article. Errors in diet, and change in mode of living while travelling, often result in disorders of the stomach. "ENO'S" quickly corrects any irregularities and keeps you healthy. Never travel without ENO'S FRUIT SALT.
