- NEW YORKER CELEBRATES 105TH BIRTHDAY: NEW YORK, June 7.—Chaim Weiss recently celebrated his 105th birthday, when he told several young cohorts of eighty and ninety who came to congratulate him that he had always had liquor to drink with his meals and cigarettes to smoke whenever he wanted them. "If you don't stop smoking," his friends warned him, "by the time you're 150 you'll be an old man."

- WASHINGTON, June 7.—It is estimated that approximately fifty thousand refrigerator cars of California grapes, destined to become wine, will travel eastward this summer to help relieve a thirsty land. Thus another complication will be added to the already knotty problem of enforcing federal prohibition. Alarmed at the unprecedented number of cars the grape men will require, apple growers from Washington, Oregon and Idaho, who suffered a staggering loss last year because of their inability to secure refrigerator cars, are demanding that the Federal Government take some action against an undertaking which, they claim, resolves itself into an illicit business. The average grape movement from California, the apple men point out, from 1917 to 1919 was only 16,000 cars. The increase of more than 150 per cent., represents efforts to supply a nationwide demand. B. W. Johnson, manager of the Oregon Apple Company, declares enough grapes were shipped from California last year to supply every person in the United States with ten pounds of the fruit. Assuming that he was right and that half the tonnage was used for wine, it would indicate that 22,500,000 gallons of wine were made in homes last year from California grapes alone. Before prohibition, Washington authorities state, California had 325,000 acres devoted to grapes, now without counting this year's planting, the total is over 714,000 acres.

His Trousers

LONDON, June 7.—A good story about the Vice-Chancellor of one of the Universities was told by Sir William Lawrence at a luncheon held in connection with the 800th anniversary of the establishment of St. Bartholomew's Hospital.

During the air-raids this Vice-Chancellor was anxious to show how calm he could keep. When one raid commenced, he had retired, but got out of bed and started to redress, being particularly careful about the set of his tie.

When he appeared among his friends and assured them how calm and collected he was one of them remarked:—"That's all right, old man, but why have you not put your trousers on?"

Sir William also recalled that once they had in the hospital a man named Wilkins and another named Wilkinson.

Wilkins died, and a notice of his death was sent to Mrs. Wilkinson, who promptly turned up and identified the body.

Wilkinson made a very rapid recovery and on leaving his bedroom met his wife wearing widows weeds.

He promptly gave her a sound thrashing and the tears she shed expressed the genuine emotion of a woman who has not lost her husband.

Boxers Suspended

NEW YORK, June 6.—Mickey Walker, of Elizabeth, N. J., world's welterweight boxing champion was indefinitely suspended today and his title declared forfeited by the State Athletic Boxing Commission for failure to accept a challenge from Dave Shade, of San Francisco.

Under the Commission's ruling, Shade was accorded recognition in this State as the titleholder.

The report adds that, among distant countries, Latvia now has a recognized branch of the mother church at Riga, and Rhodesia, one at Bulawayo. There is also a newly recognized organization at Tsin, China, and a church has been formed in Sydney, Australia.

In the report of the treasurer it is shown that the balance in the general fund on May 31, 1922, was \$146,638; expenditures during the year were \$586,248, leaving a balance on hand, May 31, 1923, of \$45,792. Expenditures during the general fund, it is stated, included \$54,443, for legal defense of the Mother Church and for rehabilitation of the Christian Science Publishing Society.

Expenditures during the year included appropriations of \$38,900 for war relief in Germany, and other European countries, \$32,710 for relief in the Near East and \$29,829 for relief of ex-service men.

Charles H. Heltman, of New York City, was elected president; Elias Knapp, of Brooklyn, First Reader, and Mrs. Gertrude, S. J. Farmer, of Hampton Falls, N. H., Second Reader.

This race will be for the four four-oared shells who are competing at the celebration in Pictou next month have written asking if races would be arranged here, and stating they would attend if their expenses were guaranteed.

It would be an excellent idea for the Hillsboro Boating Club to get together and try to arrange a regatta.

During an Eastern scene in an entertainment at the Grafton Galleries Club, said counsel, an actress, Miss Ida Mowbray, was covered with bronze powder from head to feet. On her head she carried a bronze bowl containing burning coal and incense. The coal was kept suspended by a wire, but it appeared that some of it got into the bottom of the bowl.

Miss Mowbray's courage said counsel was astounding for though the bowl was very hot she walked with it for half a minute, but when she got behind the curtain she fainted. Her hands were injured and she was in a desperate condition.

For treatment given to the injured actress, the proprietress of a nursing home was awarded \$135 and costs against the Grafton Galleries Club.

The same fund for the Maritime Provinces had membership at the close of 1922, of 256, while the annuitants, connected with the Church of Scotland numbered 20.

MR. ED. SMITH

The Best In The World Says Charlottetown Man

That's How Edward Smith Regards Drecto, the Famous Herbal Remedy, and He Speaks From Personal Knowledge

"I was greatly troubled with stomach disorders and indigestion. Everything I ate would cause gas to form in my stomach and I would have headaches all the time. Several times in the small of my back frequently bothered me as did constipation also. However, I am much better now and am going to keep on with the Drecto treatment until I get my full strength back. I am no longer troubled with my stomach, have no more headaches and the pains in my back are gone, while my bowels are regular. I cannot praise Drecto too highly, for it has made me feel 100% better. I strongly recommend Drecto for all who suffer from complaints similar to mine. It is the best medicine in the world."

Drecto helped Mr. Smith because it is prepared from the juices of herbs, roots, bark and leaves, known for centuries as nature's correctives for digestive complaints. In Drecto, they are scientifically combined to give the best result. Drecto contains no mercury, potash or habit forming drugs and is a safe, reliable health-builder for old or young.

Mr. Edward Smith, of 60 Cumberland Street, Charlottetown, joins with many other Prince Edward Island people in acclaiming Drecto's remarkable success as a corrective for deep-rooted, distressing digestive ailments. Mr. Smith, who is well-known in the Canadian Merchant Marine, makes the following statement:
