

Have not coughed once all day?
 Yet you may cough tomorrow! Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. Your doctor's approval of its use will certainly set all doubt at rest. Do as he says.

Some persons are sending bogus news to The Guardian for publication. As soon as the guilty parties are located they will be prosecuted to the fullest extent of the law. It is just possible that the writers of some "Whitshire" and "China Point" notes, which of course were not published, may be discovered within a few days, and, if so, the manner in which they, and all other offenders in similar cases will be dealt with will make interesting reading for Guardian subscribers.

Rev. Edwin Smith, of Cardigan, P. E. I., will shortly join the staff of the Witness as representative and staff correspondent. Mr. Smith has already done good service for the Witness in occasional visits to "neighbouring" congregations, and the large number of copies of the paper taken in his own congregation is good evidence not only of the intelligent interest taken by his people in the general work of the church, but also of Mr. Smith's faithfulness in commending the paper which in our Maritime Synod is one of the most effective agencies for advancing this work.—Presbyterian Witness.
