HINTS ON KNITTING SOCKS FOR SOLDIERS

To help knitters make their work of the greatest service to soldiers in either in or out of the hospital, it is desirable to call attention to a few "Don'ts" when knitting socks.

Don't cast on tightly. An otherwise well-knitted sock may become useless by this tight cord at the top. Don't knot your wool. Join it by splicing the ends or leave two or three inches of each end and darn back carefully. Don't make a heel with a seam on the sole. The gusset heel is best; next, the strap heel. Don't finish the toe with a hard lump caused by running the thread through the stitches two or three times and pulling tightly, or finish with a hard seam caused by knitting off two needles together—worse crocheting them together—fact, avoid all seams, lumps or knots anywhere. The inside of the sock should be as smooth as the outside. Remember a man may not have a chance to change his socks for many days, and a lump or knot brings a blister, if the blister breaks, blood poisoning may set in, and result in the loss of a foot or even life. We cannot afford to lose our men through negligence or ignorance. Don't use black, dark, or bright colors. There is again a danger of poisoning. Don't

GUARDIAN CLASSIFIED ADS.

IMPORTANT

Relatives of soldiers returning from the front are asked to communicate with the Secretary of the Patriotic Society at Charlottetown, Captain T. Edgar McNutt, intimating the date of expected arrival, cause of return and any other particulars in order that preparation may be made for a fitting reception.

use needles too fine for the work. The knitting should be elastic—if too tightly knitted the sock becomes hard and board-like in use. Don't make a foot less than 10 inches long.

The following general directions may be of service.—Cast on 64 to 72 stitches on No. 10, 11 or 12 needles, according to knitter. Finer wool requires finer needles and more stitches. Make ribbing at top 4 inches. Knit plain 7 inches. Divide for heel, knit heel piece 3 inches, making 14 inches in all for length of leg. This may be reduced to 12 inches in all, but not less. Foot should measure 10 to 11 inches. Begin narrowing for toe about 2 1/2 to 3 inches before finishing. Darn all ends of wool. Match socks carefully before tying together in pairs at top and toe. Socks should be well washed before forwarding.

AN APPLE "STUNT"

When you wish to mystify and amuse one of your friends try the trick of cutting an apple into quarters without apparently breaking the skin. It is so old a trick that it will probably be quite new to many of the people you know.

Select a large red apple. Thread a long slender darning needle with about a yard of strong white light thread, and beginning near the stem of the apple, take a shallow stitch, an inch or so in length, toward the blow end.

Draw about two-thirds of the thread through, and be careful to make the break in the skin as small as possible, and when you take the second stitch, set the needle exactly in the place out of which it came. Sew entirely of the stem from which you started.

Now, hold the apple firmly between your knees and, crossing the ends of the thread, take one in each hand and give a strong steady pull. The thread will cut its way through the fruit and come free in your hand. Repeat the process, beginning again at the stem, but going at right angles to the first cut.

When your friend peels the fruit she will find it neatly quartered. The small punctures that your needle makes in the skin will pass unnoticed, unless the apple is very closely examined.

"Mac's Compound Syrup of Hypophosphites is just what you need now to fortify your system against the ravages of a long, cold, hard winter. Buy a bottle today, it may be the means of lengthening your life. Price \$1. The Two Macs, 149 Great George St.—Mfr.

Sunlight Soap

cuts Monday's labor clean in half.

The Sunlight way is so easy—just note. First you soap the garment; then roll it up to soak. After a while you rinse it thoroughly and the dirt drops out like magic.

Why scrub, and rub, and wear and tear the clothes when the gentle strength of Sunlight Soap will do the work with never a hurt to fabric or hands.

Try it once—this Sunlight way.

HALT! Attention Soldiers

It is hard to shave without a mirror isn't it? And the ordinary mirror hasn't the ghost of a chance when you are on field service.

But you can rely on the WALKHARD MIRROR—it is absolutely unbreakable, you know, for it is made from sheet brass, with a nickel plated surface that is good as any mirror—and a surface that wont rust or tarnish. Better get one today for they will go strong at \$1.00 each.

Fred H. Trainor, 80 Grafton Street
Opposite Prince Edward Theatre
